GUTTERY EXPLAINS WHAT REALLY MEANT

Suspended Head of Norfolk Hospital Tells of Only Time He Used Profanity.

ATTENDANT STRUCK PATIENT

(From a Staff Correspondent.) LINCOLN, Feb. 29.—(Special.)—The hearing before the Board of Control was continued this morning and developed nothing out of the line shown yesterday. Dr. Guttery, who is before the board charged with conduct against the best interests of the insane asylum at Norfolk of which he is superintendent and under suspension pending the hearing, denied as he did yesterday most of the charges, admitting some, but generally seeking to explain away suspicious circumstances.

In answer to an inquiry by his attorney, Judge Good, if he had at any time used profanity in connection with his reprimand of patients, Dr. Guttery acknowledged that at one time he lost his temper when an attendant or patient who was well enough occasionally to assist in looking after other patients, had struck an old man by the side with a flat three times at a ball game between attendants and patients.

Guttery Became Enraged.

The superintendent saw him to it and he was so enraged at the treatment given the old man that he proceeded to give the attendant a good going over. He said that he ought not to have lost his temper, but the provocation was so great that he simply could not help it.

Answering the charge made that he had told an employee that the assistant physician did not know any more about insanity than a farmer, Dr. Guttery denied the charge as applied in that manner, explaining the circumstance by saying that the attendant was a new man and that he was endeavoring to impress upon him that many times a good attendant in a hospital for the insane knew really more how to handle insanity cases than most doctors who had not had special instruction along that line, but that the remark was not aimed at either of the physicians at the hospital, but simply made in a general way.

Holcomb Asks Questions.

The hearing as far as Judge Good's examination of the doctor closed at noon, but members of the board, Judge Holcomb, in particular carried on the examination of the doctor for an hour, later in an endeavor to bring out more fully some of the answers made by Dr. Guttery.

The hearing was then closed and an adjournment was taken until 2 o'clock when Judge Good made argument for his client.

FREMONT, Neb., Feb. 29.—(Special.)—Ross L. Hammond, editor of the Fremont Tribune, will not enter the race for the United States senate. In a statement given out today Mr. Hammond says: "I have many warm friends throughout the state who have urged me to stand for the place, and I confess I have been tempted since conditions have appeared favorable. I have delayed a decision with the hope I might feel at liberty, through the adjustment of my affairs, to feel warranted in entering the contest. "I deem it prudent not to enter and I shall not file for the place. It looks very much like a republican year and the republican candidate will be elected."

McKim Finds Rabies In Cattle at St. Paul; Two Men Are Bitten

(From a Staff Correspondent.) LINCOLN, Feb. 29.—(Special.)—Dr. McKim, assistant state veterinarian, returned from St. Paul this morning, where he investigated the case of rabies there caused by a dog biting E. H. Grindler and son and stock belonging to them and some other farmers in the neighborhood. That is was clearly a case of rabies the doctor is convinced. The two men bitten, one through a heavy pair of coriary trousers and the other through a buckskin glove, have been taken to Kansas City. Cattle which have been bitten show very violent symptoms of the disease, and have been killed. One cow shut up in a yard was tested by throwing a chicken in the yard with her. She immediately took after it and chased it all over the enclosure. The cow was killed with two shots and two dogs which had been bitten.

Dr. McKim brought back with him the brain of the cow and will make an examination. A man who skinned the cow had abrasions on his hand and the doctor advised him to go to Kansas City at once and take treatment with the others.

Keep Uric Acid Out of Joints

Tells Rheumatism Sufferers to Eat Less Meat and Take Salts.

Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly; keep the feet dry; avoid exposure; eat less meat, but drink plenty of good water. Rheumatism is a direct result of eating too much meat and other rich foods that produce uric acid which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate the uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities. Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which helps overcome uric acid and is beneficial to your kidneys as well.—Advertisement.

J. G. MAHER REFUSES TO RUN

(From a Staff Correspondent.) LINCOLN, Feb. 29.—(Special.)—Four candidates for delegates-at-large to national conventions filed their petitions with the secretary of state this morning. W. C. May of Gothenburg called in person and deposited thirty-one petitions from different portions of the Sixth congressional district for nomination on the republican ticket as district delegate. Incidentally, Mr. May said that everything was looking mighty fine from a republican standpoint up in the big Sixth. Petitions for Erik Morrell of Oakland and J. C. Lewis of Omaha as delegates-at-large to the bull moose convention were filed; also petitions for N. T. Thorsen of Omaha as delegate to the same convention from the Second district.

Mr. Maher Declines.

Declining to run for the governorship, John G. Maher today shot this charge across the democratic bow:

Some time ago I felt that duty might compel me to file for the purpose of preventing the democracy of Nebraska from being ravished by a certain candidate. The time that is not necessary. The democracy of Nebraska have an opportunity to vote for two good men. I know both of them for a long time. They are brave, fearless and straightforward and not afraid to speak their convictions upon all questions. One is George W. Bunge of Lincoln. He is well known in every part of the state. His views are equally as well known. He has done as much to aid the democratic party as any man in Nebraska. The other is Keith Neville of North Platte. He is a young man who comes thoroughgoing democrat. The democrats can decide which of these two men they want. Either one will make an ideal candidate.

The element of leadership that people admire is courage. In a democracy like ours is the supreme quality of

The Standard Remedy in Countless Homes

Relieves Constipation Easily Without Gripping or Discomfort.

Indigestion and constipation are two conditions that are closely related and the cause of much physical suffering.

The tendency to indulge one's appetite to more or less general and most people suffer at one time or another from rebellion of the overtaxed organs of digestion and elimination. A pleasantly effective remedy, that will quickly relieve the congestion of poisonous stomach waste and restore regularity, is the compound of simple laxative herbs sold in drug stores for fifty cents a bottle under the name of Dr. Caldwell's Syrup Pepsin. This is a mild, pleasant laxative tonic, free from opiates or narcotic drugs, and has been the standard household remedy in thousands of homes for many years.

Mrs. Oliver Young, Merrill, Wis., writing to Dr. Caldwell, says, she knows of nothing so effective for regulating the stomach and bowels; since taking Dr. Caldwell's Syrup Pepsin she feels ten years younger; her work seems easier and she has regained her appetite.
