On the surface, at least, the one disturbing influence was that created by pending relations between Washington and Berlin. The determination of the administration to force congress to a vote in the matter of armed merchantmen and other questions bearing upon that momentous issue were viewed with unfeigned gravity by the financial community.

Further cause for concern was occasioned by a resumption of the recent liquidation in Angio-French war bonds, which were offered in enormous blocks at their minimum quotation of 13%, with a sale of one bond at the new low record of 35%, Total sales of these bonds, exitmated at their par value, amounted to \$1,12,000.

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, March 1.—Disturbing reports from Washington regarding the submarine issue in congress and touching the status of the German ambossador there caused wheat prices to break today after the market had reliked from the bearish effect of news that seemed to show incepased activity in the destruction of British ships. Prices closed nervous, 167 fact to \$40 net lower, with May at \$1.11\$, and July at \$1.65\$, Lowest prices of the day in the wheat pit came early when the market was most sensitive as to whether the new undersea policy of the German-world be likely to diminish greatly the number of vessels available for experbusiness from the United States. At first the trade appeared to be inclined to take a pessimistic view of the outlook. Prices accordingly fell, influenced to some extent by bearish estimates of domestic farm reserves. Later the attention of the majority of speculairs veered to reported unional of the serious winter stilling had taken place in nearly all of the soft wheat Prices on Board of Trade.

In addition to word that a vote was to be forced on the question of warning Americans from taking passage on armed merchant ships, baseless rumors were current that Ambassador Hernstorff had been given his passage on armed merchant ships, baseless rumors were current that Ambassador Hernstorff had been given his passagors. The result was to more than who all advances in wheat quotations and to leave the market at the finish in a decidedly unsettled condition.

Corn weakened with wheat, Besides, a becrish construction was placed on estimates of farm reserves of corn as well as of wheat. Export sales of 1,00,000 of outs failed to act as much or a stimulus to the outs market, Quotations of outs appeared to depend almost wholly on the course of other grain.

Higher prices on hops lifted provisions. Selling by packers, though, led to a reaction ir, the value of lard and ribs.
