(From a Staff Correspondent.) LINCOLN, Neb., March 10.—(Special.)—Thorne Browne, who has wandered from the straight and moral path of newspaper reporter, the job of secretary of the railway commission with its munificent salary of several thousand dollars a year, will seem like a summer vacation in the mountains or a visit to the wife's folks back in "Illnoy" when hard cider is ripe.

Browne is bolstered up by the thought that within a few years he may like his predecessors, retire to the farm or buy a newspaper and live happily ever after.

THOMPSON CALLS DEM COMMITTEE

State Chairman of the Party Says Matter of Utmost Urgency Waits.

WOULD BE SINFUL TO DELAY

(From a Staff Correspondent.) LINCOLN, March 10.—(Special.)—A call has been issued by W. H. Thompson, chairman of the democratic state committee, for the committee to meet in Hastings to deal with matter threatening the welfare of the party, neglect of which, he says, will be sinful. Just what particular sinful thing now menaces the well being of the democratic party in Nebraska is not made known in the letter sent out by Mr. Thompson to his associates. The committee met a short time ago in Omaha, and it was supposed that in the atmosphere which had been so lately purified by a campaign under "Billy" Sunday the committee would have cleared itself and the party of everything tending toward sinful things, but it appears that this is not so. In his letter to members of the committee, Chairman Thompson says: "In our capacity as officers of the state committee, into whose hands is committed largely the duty of safe-guarding the interests of the democratic party, its policies and candidates, we cannot avoid the necessity of calling an immediate assembly of the members of the state committee to aid us in solving a problem so serious that neglect of it on our parts would be nothing short of sinful. To this end, that the problem may be quickly met and satisfactorily solved, we hereby call the democratic committee to meet in special session at 4 o'clock p. m. Tuesday, March 14, 1916, at the Clark hotel in Hastings, Neb. Bring the names of democrats who have filed for the senatorial and legislative nominations in your districts. Confidentially hoping that each member may be present, we are, respectfully, W. H. THOMPSON, chairman. A. S. SPRAGUE, secretary."

Soldier Made Out Of Raw Material Within Four Months

(Correspondence of the Associated Press.) LONDON, Feb. 12.—"The Derbyites are excellent material for soldiers," was the verdict of a prominent general after an inspection of a large body of the recruits who, recently joined the army under the group system named after Lord Derby. The Associated Press correspondent spoke to many of the men, the majority of whom showed keen interest in their training and willingly suffered the inconveniences of their new profession.

The groups first called up were still going through the period of setting up drill, and the men were stiff and sore from the almost continuous Swedish exercises and route marches, which they start daily before breakfast and carry on until dusk. It could be seen, however, that even the short spell of strict military discipline and physical training had made a wonderful difference in the bearing of the men, most of whom had previously led sedentary lives in city offices and factories, and seemed visibly to fill out under the influence of the open air and constant movement.

The course of a soldier's preliminary training, which in peace times is spread over about twelve months, is now condensed into four months and at the expiration of that period an infantryman is regarded as fit to take the field.

THEY REFUSE TO EAT

At periods in most children's lives they fail to relish their meals and refuse to eat even the delicacies prepared to tempt their appetites. They lack ambition, and growth seems impeded, which causes anxiety and worry. To compel them to eat is a grave mistake, because nutrition is impaired. Healthful exercise in fresh air and sunshine is important, but equally important is a spoonful of Scott's Emulsion three times a day to feed the tissues and furnish food-energy to improve their blood, aid nutrition and sharpen their appetites.

The highly concentrated medicinal food in Scott's Emulsion supplies the very elements children need to build up their strength. They relish Scott's—it is free from alcohol. Scott & Bowne, Bloomfield, N.J. 15-24

MEXICAN BANDIT LEADER WHO KILLS AS HE LOOTS.

SOLDIERS RETURN TO THE BOUNDARY

American Troopers Pursuing Villa Bandits Come Back After Fighting Three Battles.

THIS REPORTED TO FUNSTON

SAN ANTONIO, Tex., March 10.—Major Frank Tompkins, commanding the detachment of American troops, which pursued General Villa and his bandits into Mexico after the attack yesterday at Columbus, N. M., have returned to the border after engaging in three running fights with the Mexicans, who finally made a stand which stopped the advance of the American soldiers.

This information was conveyed tonight to Major General Frederick Funston, commanding the Southern department, United States army, in an official report of the situation from Colonel H. J. Slocum in command at Columbus.

All peaceful as a summer morning at this writing," was the Colonel Slocum described the situation in Columbus tonight.

Text of Report

Following is the text of Colonel Slocum's report, as given out by General Funston at Fort Sam Houston: "When Villa's troops fell back before daylight, we followed them with a dismounted force. At the same time I sent Major Tompkins with three troops mounted to attack. Tompkins followed them for about five miles into Mexico, having three running fights with them and they finally made a stand with their entire force and stopped Tompkins' advance and he returned here. We had one corporal killed in the pursuit. "The Mexicans dropped considerable material and loot that they had gotten in town. I am reliably informed it was Villa who made the attack with 1,000 men, leaving about 1,000 on the river east

UNITED STATES ASKS ENGLAND FOR DATA

Wants Copy of Confidential Instructions to Commanders of Merchantmen.

DENIAL OF GERMAN CHARGES

WASHINGTON, March 10.—The United States has asked Great Britain for a copy of the confidential instructions to commanders of British merchant vessels, which Germany claims prove that merchantmen armed ostensibly for defensive purposes have orders to act offensively against German and Austrian submarines.

The request is understood to have been made today through Sir Cecil Spring-Rice, the British ambassador. This is the first step the United States has taken since the administration officials have been studying the complete memorandum in which Germany announced its intention to treat as warships armed merchantmen of the entente allies, its appendices, and the subsequent memoranda on the subject submitted by Count von Bernstorff, the German ambassador.

Early in the day the British embassy made public a statement challenging every substantial statement in Count von Bernstorff's memorandum, and setting forth that while Germany contends that its submarine warfare is in retaliation for British violations of international law, many of the German acts were committed before the first order in council complained of was issued.
