BRYAN BIRTHDAY
AFFAIR DIFFERENT

Famous Function of Lincoln of Years Gone Not Quite the Same.

THERE WILL BE NO BANQUET
(From a Staff Correspondent.)
LINCOLN, March 12.—(Special.)—Celebration of the birthday of William Jennings Bryan will be changed in more ways than one. First, there will be no banquet. Hereafter the faithful followers of Mr. Bryan have been privileged to gather about the banquet table for the small price of \$1 and partake of refreshments and then sit back and listen to an address by the man who has twice broken into the White House in Washington and thrice was repulsed by the people.
This year the people who will listen to Mr. Bryan tell him he is for the president and against him all at the same time will have to fill up before they get to the Auditorium if they desire to have full stomachs before the speech begins. The Bryan birthday banquets have been steadily changing for some years. From coffee to soda water and then from soda water to grape juice, and then from grape juice to nothing.
Another thing which is responsible for the change in the methods of the past is the fact that much jealousy has been engendered by the turning down of the former Bryan club, which has always had charge of the banquets, and giving the preference to other democratic organizations in the handling of the annual affair. This threatened to raise Hobbs for a while, but the beating hearts have been stilled by the announcement that there would be no banquet and that a mass meeting would be in order instead.

Thompson to Preside.
In order that there might be no local jealousies aroused by picking a local man from the several factions to preside at the meeting, it has been arranged that State Chairman W. H. Thompson, who recently issued a call for the state committee to hasten to Hastings to settle sinful matters in the party, will preside and "introduce" Mr. Bryan, who will arrive in Lincoln from his winter home in Florida on the 20th and will be escorted to the city Auditorium. The 20th is not Mr. Bryan's birthday. He was born on the 19th, but as that day falls on Sunday this year the celebration will be delayed one day. But that makes little difference. The sun will rise on the 19th and set on the 19th just as usual.

It is expected that a large crowd will be present and arrangements will be made for an overflow meeting at some other point. The speech of Mr. Bryan is announced to be the opening gun of the campaign, but no account of Mr. Bryan's peace plans the gun will be loaded. However, there is expected to be other political guns in the crowd and a few of the hatchets and knives which have been in evidence so much lately, so that the meeting will still have all the requisites of an old-fashioned democratic gathering.

Notes from Perkins
And Grant County

GRANT, Neb., March 12.—(Special.)—The Grant Commercial club has made arrangements for a lyceum course of four numbers next season. This with a good Chautauqua this summer and a county fair early this fall, with other attractions to be arranged later on, will help to entertain substantial visitors to the city.
Mr. H. W. Campbell, the soil culture expert, addressed the people of Grant and the farmers of Perkins county at the court house Friday afternoon and at the Monarch theater in the evening, where seventy-five stereopticon slides were shown to illustrate the lectures. Quite a number of farmers have agreed to put in crops under the direction of Mr. Campbell. The Commercial club band just organized furnished the music.
Mr. Peter Sherman, aged 86 years, and an old pioneer of Perkins county, passed away Wednesday morning at the home of his daughter, Mrs. J. G. Saxon. The local lodge of Odd Fellows had charge of the funeral.

A "whirlwind campaign" is on in the Commercial club to secure new members and the first day's work showed a result of over fifty names. They expect to have at least 150 new members, making a total membership of over 300.
Miss Mae Phillips, evangelist, and for some time co-worker with "Billy" Sunday, will begin revival meetings here today.

Nebraska
LAND DRAWING AT ALLIANCE
Filings for Four Thousand Acres
May Be Made at Alliance, Bay-
ard or Bridgeport.

CONDITIONS ARE UNUSUAL
ALLIANCE, Neb., March 12.—The drawing for farms under the government land laws, which is scheduled to occur here March 24, will not in any respect resemble those that have signalled the opening of various reservations in this and adjoining states in recent years. The land opened to entry at this time is within the North Platte irrigation district of the national reclamation service. There will be no registrations, as in the other cases. Each applicant will file on the tract wanted under the homestead laws. This can be done at any time beginning March 15, and at either Alliance, Bridgeport or Bayard. March 24 drawing will be made for such tracts as have more than one claimant.
The amount of land to be opened to entry has been given as 14,000 acres. This is misleading, as actually only 4,500 acres are involved. Other government land in this vicinity was never withdrawn from entry, but as it is non-irrigable and, therefore, of little value, it has not been settled upon.
The land is divided into what are designated "farm units," containing from forty to 100 acres each. These units, which are numbered in order, contain from thirty to 100 acres of irrigable land each. They are not in one body, but are scattered along the ne government irrigation ditch, known as the "high line lateral." This parallels two older ditches which serve many farms in that locality. All these canals are supplied with water from the great Pathfinder reservoir.

The land in these units can be obtained under the general homestead laws, except that a charge of \$20 an acre is made for water rights for the irrigable land in each tract. This charge is to be paid within twenty years, without interest, a payment of \$25 an acre must be made at once. Five years hence the second installment is due, payments being annual thereafter. Until all is paid no patent to the land is issued, and as the government land is not taxable the homesteader is thus exempted from taxes on his land for twenty years.
The land is all in Morrill county, Nebraska, in the North Platte valley, from eight to twelve miles from Bayard. Farming by the aid of irrigation has been carried on for several years in this and adjoining counties, and improved farms are valued at from \$75 to \$200 an acre.

To Make Saloon
Licenses a Dollar

UPLAND, Neb., March 12.—(Special.)—The dry forces captured the citizens' caucus Friday night and carried a motion to raise the upland saloon license \$1 if the town goes wet. As a result, if Upland goes wet, and appearances at present indicate that it will, it will probably be the wettest town in this part of the country.
Peter Youngson, Jens Iversen, Nels Ostergaard, Albert Austerman, Martin Nielsen and Louis Seberg were nominated to fill the vacancies on the town board.

Backache Often
Follows a Cold

MORE aching backs, more kidney troubles—come in March than in any other month. Slushy sidewalks, dampness, raw winds and sudden changes cause chills and colds, and colds or chills tend to hurt the kidneys. It is good sense to use a kidney remedy when recovering from a cold, and at any time when suffering lame back, sharp pains when stooping or lifting, dizzy spells, irregular or annoying kidney action, and a run-down, nervous state. Don't delay and take a chance of getting dropsy, gravel, Bright's or some other serious kidney disease. Use Doan's Kidney Pills, the reliable kidney tonic that is so strongly recommended by Omaha people.
