How to Heal Skin Diseases

A Baltimore doctor suggests this simple, but reliable and inexpensive, home treatment for people suffering with eczema, ringworm, rashes and similar itching, burning skin troubles.

At any reliable drugist get a jar of resinol ointment and a cake of resinol soap. These are not at all expensive. With the resinol soap and warm water bathe the affected parts thoroughly until they are free from crusts and the skin is softened. Dry very gently, spread on a thin layer of the resinol ointment, and cover with a light bandage—if necessary to protect the clothing. This should be done twice a day. Usually the distressing itching and burning stop with the first treatment, and the skin soon becomes clear and healthy again. Sample free, Dept. 4-R. Resinol, Baltimore, Md.
