THOMAS SUGGESTS TEACH PATRIOTISM

State Superintendent Urges Rising Generation Should Love for the Flag.

SENDS LETTER TO TEACHERS

(From a Staff Correspondent.) LINCOLN, March 22.—(Special.)—Superintendent Thomas believes that every school in the country and every teacher should be alive to the conditions which surround the country and that patriotism should be inculcated in the minds of the rising generations. With that end in view he has prepared and sent out the following instructions to superintendents and teachers:

The weather vane of the times, contrary to all established law, seems to point in two directions. We know not which direction will finally be shown by this instrument; whether the United States is able to stand as an example to all nations as a country of democracy and free institutions and that through the influence of the nation may be led into a long period of peace, or whether we are entering a period of the heroic in war such as the world has never seen, should make little difference in the method of teaching patriotism in our schools.

The times are especially propitious for patriotic instruction. There never was a time when the teaching of the English language should be so thoroughly emphasized. The Declaration of Independence and "America" should be taught to every child, and every child old enough should read Edward Everett Hale's "Man Without a Country" and Abraham Lincoln's "Gettysburg Address." The flag should be displayed in every schoolroom or upon every school house; its meaning, its history and that for which it stands should be taught. The salute recommended by the Grand Army of the Republic and the Woman's Relief Corps is especially appropriate for the smaller children. "I pledge allegiance to the flag and the republic for which it stands; one country, one language, one flag."

HALL FINDS NEW MEANING FOR THE WORD AFFILIATE

(From a Staff Correspondent.) LINCOLN, March 22.—(Special.)—State Treasurer George Hall has discovered a new meaning to the word "affiliate," as it is used in connection with the affidavit of acceptance of a petition filed for a candidate.

The affidavit reads, "I hereby affiliate with the _____ party, etc." Mr. Hall construes the word differently than other candidates and in his letter to the secretary of state withdrawing his acceptance of a petition filed by members of the progressive party says that he affiliates with the progressive party because the progressive party was organized to defeat the republican party and as the democratic party is also trying to defeat the republican party the two parties affiliate.

However, he says that if there is no objection to his accepting the filing he will withdraw his acceptance, thanking the petitioners for their interest in his campaign and hopes they won't forget it at the general election if he gets the nomination.

ADAMS SUPERINTENDENT SAYS QUESTIONS BAFFLE

HASTINGS, Neb., March 22.—(Special Telegram.)—Questions sent out by the state superintendent's office for county eighth grade examinations are beyond the mental reach of the pupils, said Miss Carrie Sullivan, Adams county superintendent, in a statement today. She says many of the questions are so constructed as to baffle the reasoning powers of the child. One of the questions to which she objects is: "What is the effect of rural mail service, telephone and the automobile on rural life?" Another is: "Who is Zebulun Pike?" One pupil examined here said the income tax was a tax coming in, and that the apollo system was a system put up by some people and spoiled by others. "It runs in the way the people live," wrote one pupil.

VALIDITY OF FILING BY MAIL QUESTIONED

NORTH PLATTE, Neb., March 22.—(Special.)—Whether or not a man can mail his filing fee on the last day for filing and still be considered a candidate is a question which is puzzling county officials of Lincoln county. R. U. Frame of Hershey mailed his filing fee to the county treasurer last Saturday and now the question arises whether under the present law a filing mailed on the date answers the purpose of a filing made in the office of the county treasurer. The matter will be taken up with the attorney general, who will be asked to give a decision on the question.

Spring work on the home farm has commenced in earnest, and everyone connected with that work is busy. Rev. J. G. Shick of Grand Island occupied the pulpit at the Soldiers' home chapel last Sunday and gave an excellent address. He stated that he was invited to give a discourse on temperance at Lexington last Sunday. Mrs. A. B. Seward has been confined to her room for the last week on account of a recurrence of the grip.

Leonhart, a well known physician of this section of the state, and at one time a member of the Lincoln city council, was very seriously hurt by his automobile upsetting at the high grade crossing of the Missouri Pacific tracks, four miles east of Lincoln. The steering wheel pinned him beneath the machine, breaking three ribs, necessitating an operation to remove the broken bones, which had penetrated one of his lungs. The road approaches the track on a sharp turn and the doctor lost control, the machine going into the ditch at the bottom of the high grade. Mrs. Leonhart and another woman with her were unharmed.

(From a Staff Correspondent.) LINCOLN, March 22.—(Special.)—The name of I. A. RenEAU of Broken Bow will not appear on the republican primary ballot for delegate-at-large to the republican national convention, as a count of his petitions discloses that he lacks sufficient names in two of the districts, the Fourth and Fifth, to make the filing legal. Governor Sets Apart General Cleanup Day

(From a Staff Correspondent.) LINCOLN, March 22.—(Special.)—Governor Moorehead has issued the following proclamation: "Again as governor of the state, I feel impelled to call the attention of the people of Nebraska to the necessity of guarding against the destruction of property by fire. Destructive fires have been prevalent throughout the different states during the past few months, and at this writing a conflagration, destroying millions of dollars worth of property is raging in Paris, Texas; homes and business houses are being wiped out and over \$5,000,000 damage sustained, by a population of 3,000. Five thousand people are without food or shelter, and will be dependent upon others for immediate help. During the winter months, rubbish and kinds of inflammable substance has been accumulating, and the dry winds of March will prepare the way for the kindled match or stub of cigar or other means of ignition. The time to clean away everything that makes it easy for a fire to start is at hand. I therefore urge the week beginning April 9, be observed as Clean Up Week, during which time there be united action in regard to this business, each individual joining his neighbor in the good work. Don't wait, begin now. Safety First."

To Vote at North Bend. FREMONT, Neb., March 22.—(Special.)—Dissatisfaction on the part of some of the business men of North Bend with conditions following a year under the "dry" regime will probably result in the question being put to a vote again this spring. En route from their home to Lincoln, Mrs. O'Shea this morning passed through the city, going to her husband, who is in one of the St. Joseph hospitals. More than forty years ago Mr. O'Shea started with the Burlington, practically all the time working on the lines west of the river.
