Railway Shares Supply Measure of Support to Dull Operations.

SESSION WITHOUT A FEATURE

NEW YORK, March 24.—Rallway bares supplied a measure of support-e today's dull and professional opera-iona, demand for investment issues

shares supplied a measure of support to today's dult and professional operations, demand for investment issues partly neutralizing iregularity elsewhere. In fact, the inquiry for rails at times suggested a cleak to cover liquidation in other quarters.

Rending, New York Central, the Pacifics and Erie, as well as some minor issues were absorbed in large amounts, their aggregate exceeding any recent turnover. Reading's strength, much of which was later forfeited again coincides with a demand for Western Maryland common and preferred, thereby reviving rumors of Rockefeller buying into the first named property.

The seneral list was held back, however, by the spasmodir heaviness of better known specialties. Crucibles and Lackawama Steels, the more prominent metals like American Zinc, and Buttle & Suprior Petroleum and Mercantile Marine preferred. Zinc's setback was attributed to new financing, which is contemplated by the company and the cils were alternately firm and weak, according to advices concerning Mexico.

United States Steel again was free from its pressure of the midweek, but was relatively inactive. Unofficial estimates of the steel corporation's earnings for the first quarter, ranging from \$5,00,000 to \$30,000,000 were circulated, but actual figures will not be available for another month,

Coppers came into some of their former prominence. Yesterday's dividend on Inspiration being a favorable factor. Anaconda directors are to meet past week for dividend action and Wall street looks for an increased disbursement.

Aside from its dullness, the session's trading was notable for a further contraction. Dealings comprised far less than the usual number of stecks, some of the semi-active equipment and industrials remaining unquoted all day.

Total sales of stock amounted to \$10,000 shares.

BRADSTREET'S TRADE REVIEW

Unusual Activity in All of the Larger Lines. NEW YORK, March 24.-Bradetreet's A tale now rather commonplace is told by this week's reports. A pre-eminent characteristic is unprecedented activity in all of the larger lines, distributing as well as manufacturing, with, however, a rift or two in the steady, easy onflow being furnished by inclement weather retarding retail trade in the east by growing concern over high prices and by the least picasant aspect of Mexican affairs. Shortage of goods, steadily climbing prices and widespread complaints of inability to get supplies either of raw materials or semi-manufactured products or finished goods, due in part to insufficient production or lack of transportation facilities create fears of further acuteness in this respect, but rather accuteness in this pot only for filling-in purposes but for fall delivery as well.

NEW YORK, March 24.—COFFEE—The market for futures was comparatively quiet today, but prices ruled firmer on trade buying in the absence of prompt sellers. The opening was one to five points higher and the market worked un to \$25c for July and \$3.90c for September contracts during the afternoon, or about nine to sleven points net higher. The close was firm and within a point or two of the best, at a net gain of from five to ten points. Continued steadiness in Brazil and a disposition in some quarters to reduce estimates of coming crops, seemed to be largely responsible for the steadier tone, while general guying was restricted by the increased amount affort and reports of a slack spot demand. Sales were 16,000 bags; March, 8.02c; April, \$35c; May, \$31c; June, \$16c; July, \$31c; August, \$25c; September, \$25c; October, \$25c; November, \$25c; December, \$25c; See, November, \$25c; Santos 6s, 105c, Cost and freight market seemed to be irregular, some houses reporting quotations about ten points higher, while others said they were practically unchanged.
