CATTLE-Receipts of cattle this morning were quite liberal, but the total for he two days amounts to 5,200 head, eign 4,500 head larger than a week ago and ever 3,000 head larger than a year

and ever 3,000 head larger than a weak and aver 3,000 head larger than a year 3,00.

Advices from other selling points were not overly favorable, so that the trade was extremely slow and dull and generally 10c lower than yesterday, or around 10g 15c lower than last week. The decline was fully as noticeable on the good cattle as on any other kind.

Cows and helfers ranged anywhere from weak to 10c lower, and, they, too, were slow sellers.

Stockers and feeders did not show very much change, desirable cattle of that description being about steady.

ought some beavies paying as high as 1.00.

The first effers packers made were nyway the lower, and while sellers were xpecting some sort of a decline, they hought this concession entirely too large, and hung onto their hogs in hopes packers would be forced to raise their hands. In the a rather late hour practically othing was done. Packers had stayed the concession asked was unwarranted, and refused to cut loose.

Things dragged along until about 11 clock, when movement finally starter and fragged along until about 11 clock, when movement finally starter and for the hose had been cleaned up the close proved to be another of the full, weak affairs that were so common ast week. With quite a few hogs still mesoid buyers began to drop out, and cas soon wiped out. Some of the hogs which were left for the finish were of he mixed sort which had been overlooked earlier in the day, while others were of a fairly good kind, on which ellers thought buyers had failed to bid he market. At any rate noon found unte a sprinkling still in the peak and he few buyers still in the field dropped hele offers until they were as much as so lower in more than one instance.

With the packers the market was spide over of the hogs were bought a flat loc lower. If course early shipper purchasers, many of which were steady, helped out the average cost somewhat, but the general rade was fully lettle down and were it possible to get the late sales, average would probably show nearly a loc decline, many pain the market brighter than it was.

Ropresentative sales: listed in this column really paint the market brighter than it was.

Representative antes:

SHIPEF Yesterday's moderate supply was followed by a big run today. Altogether forty-eight care, or about 11,260 head, were received. Total so far this week is 18,564 being 4,000 larger than a week ago and 3,500 heavier than two weeks ago and 3,500 heavier than a week ago and 3,500 heavier than a week ago and 3,500 heavier than a year ago by 5,000 head.

In the end yesterday a pretty good clearance was made, and it proved to be a very fortunate thing, for with a big run of lambs here today packers started out to line local prices up with other markets, bidding as much as 100150 lower on the light and handyweight offerings and passing up weighty stuff without a second look.

The trade remained at pretty much of a standatiff until well along toward noon, when some of the light and handy weight iambs started moving scaleward at a deciline of at least fee, a number of sales of the good to choice stuff being made at III.40011.60 Movement was at best very draggy, and at the very least half the offerings were still unsoin at the start of the afternoon session. Good lambs, clipped recently, brought 18, 40, being the first of their class to be offered for some time, and consequently an uncertain proposition at best. Other clipped famils that lacked finish were included in the stuff that was carried into the afternoon.

The aged sheep supply was only fair.

aged sheep supply was only fair, ading was, if anything, slower than obe. One or two sales of ewes made, the forenoon showed little or no c, but the bulk of the offerings was a the peas at lunch time, under log wer hide.

CHICAGO GRAIN AND PROVISIONS

Prices on Board of Trade.

CHICAGO, March 18.—Crop damage reports appeared chiefly responsible today for a decided advance in the price of wheat. The market closed strong, ic to wheat. The market closed strong, ic to wheat. The market closed strong, ic to wheat the market closed strong ic to wheat. The market closed strong ic to wheat store and strong in the price of wheat. The market closed strong ic to wheat staffer a feed of the start and strong the right from the start and did not at any time suffer a reaction that was of much importance. Advices of fields being plowed up and of extensive winter killing became more and more general from the soft wheat states, and were supplemented by assertions that the seeded acreage of spring wheat both sides of the Canadian line would be seriously reduced. According to one authority the yield in Hilnols, Indiana. Ohio, Michigan and the Judith Basin, Montana, seemed likely to amount to only haif an average crop. Ample rains, it was said, had apparently falled to remedy the damage, especially in Hilmols.

Evidence developed that foreigners were taking a hand here in the buying of future deliveries of wheat. In this connection bulls pointed out that an advance which had taken place at Liverpool was a ascribed to chances that submarine activity would interfere with supplies. Builish significance was also attached in some quarters to an upturn in war risk rates on the Atlantic.

Corn railled in sympathy with wheat. During most of the day, however, the corn market was under selling pressure from longs who desired to realize on holdings and who look advantage of early firmness that resulted from weather adverse to the movement of the crop. Demand from elevator companies helped to strongthen oats. Offerings were light.

Lower prices on hogs had only a transient effect on provisions. In the later dealings the setbacks were more than overcome by buiges in the value of grain. Prices railied later in sympathy with wheat. The close was firm at 100 per companies put firmness into oats Pentures of the Trading and Closing

Coffee Market.

NEW YORK, March 28.—COFFEE—The market for coffee futures was lower today under realizing and some trade solling of the later deliveries. There appeared to be no particular change in the news from Brazil or in the cost and freight situation, but the talk was that technical conditions here had weakened during the progress of the advance, and after opening at a decline of 6 to 8 points, active months sold off another point or two during the day. Near positions were relatively easy under Wall street liquidation with March selling at 8.02c or 14 points net lower, while December eased off to 8.65c or 5 points under last night's final figures. Value of Proper Window Displays

"Discussion and sum total of correct and proper window displays of the present day could easily fill the pages of an entire paper, but a mere mention of the important details will serve to show what an absolute hecessity good window displays are to the enterprising store. The net results are just as comential-or more so-than the services of the salespeople," said John E. Graham, with Thompson, Belden & Co.

"Displaying merchandise as practiced by most stores is too often neglected and given secondary place as a salesgetter, while hundreds or thousands of dollars are spent on other ways, of advertising. If more attention and a small percentage of this same expense be given the windows the net results would be nearly double.

"Window dressing, while simplified to a certain extent in the last few years, is still a work that requires careful study and forethought on the part of the display man;

"An attractive display-no matter how small, or how staple the article-is sure to produce; while, on the other hand, nerchandise displayed in a hurried of careless manner, falls to secure the

proper amount of sales. The progressive merchant will see marked increase in his business if he devotes more time and attention to his window displays-he will improve looks of the store and fascinate customers by twentieth century methods." The display windows will be opened to public view Thursday evening with free band concerts on the streets.

Mamma! Give a Cascaret Quick, Look at Tongue

Don't you see your child is bilious, feverish, sick, constipated?

Relieve little stomach, liver and bowels with candy cathartic.

Listless, peevish, feverish, drooping. Little stomach sick, breath sour and tongue coated. Mamma, you must act now or your little one will be real sick soon. Get a 10-cent box of Cascarets at the drug store, give a whole Cascare any time. Cascarets are harmless and children love this candy cathartic which stimulates the little liver, cleans the thirty feet of tender bowels and sweetens the poor, sick stomach in few hours.

Mothers know that Cascarets act and act thoroughly and that they cure the little folks right up. Cascarets is best laxative for men, women and children. They never gripe or sicken.-Advertisement.
