

YOUTH AND HEALTH ARE BEST CAPITAL

Dr. Henry Noble MacCracken Gives Students Talk on Straight Tip on Straight of Market.

DEMAND FOR COLLEGE GRADS

Using as similitudes for the trio of market terms—glit edge bonds, long term mortgage bonds and industrials—integrity, patriotism and education, Dr. Henry Noble MacCracken, president of Vassar college, told a large audience of students at the Central High school that, after all, youth, health and brains constitute the only capital worth very much.

Dr. MacCracken, who is one of the most widely known educators in the country, called his talk "A Straight Tip on the Straight of the Market."

In speaking in the terms of the market, the Vassar head complimented the high schoolers by asserting that from a standpoint of worthwhile capital he was addressing the richest audience in the city—the richest audience in the unconquerable assets—youth, health and brains.

Big Bank is Integrity.

"The one big bank in the world, from what should be your standpoint, is integrity," Dr. MacCracken declared. "The way to invest it is to make individual small acts each day; you will find, as you grow older, that a good name is better than a great name. There is not a gilt-edge bond on the market to compare with integrity."

"For a long-term mortgage bond investment in patriotism—and put your youth, health and brains into it. Follow the example of the late J. P. Morgan and Lever sell your country short."

"Not unlike the market 'industrials', there is a trace of the speculative in this highly important unit of the education. You will find that education is the best industrial stock, and to realize returns on this stock you must be willing to work and wait for the returns."

"To my way of thinking a year of education is worth five years of experience, no matter what vocation you follow. As in also one year in high school worth five outside, one year in college worth five of experience and one year of post-graduate work the equal of five out in the world."

"If necessary beg, borrow or steal enough to get your education—just as you get it. Do not sacrifice your assets—youth, health and brains—on any altar, but that of education."

"You high school students, perhaps, think you are not seeing as much of life as you might. But you are seeing life at its best. When you get out in the world you will see only a sliver of life."

"Don't try to see life before you are capable of doing so. All you have to do is to bet on yourself—invest your three most precious assets now and wait for the returns."

Dr. MacCracken told the students that in this age of great expansion there is an unprecedented demand for college graduates. In all lines of endeavor, he said, the leaders are pleading for trained men and women, as there are not nearly enough to supply the demand.

No Heirs in Sight for This Estate, So State May Get Coin

Unless an heir to the late Henry Miller is found, the state of Nebraska will be \$1,000 richer by reason of the activity of the administrator of Miller's estate.

Miller was killed by an Omaha Transfer truck, three years ago, and Thomas Murray, his lawyer, was appointed administrator. Suit was brought for damages, and settlement of \$2,700 was made. After expenses, and attorney fees were deducted there still remained \$1,000.

Judge Bryce Crawford of county court, will declare the money escheat to the state unless a claimant puts in an appearance.

Wifey Objects to Husband's Joking

Because her husband is in the habit of calling her up on the telephone at unseemly hours and impersonating a doctor at the corner, and relating word stories of his tragic death or other injury, Julia Romberg, who makes the allegations, asks for a divorce, in a petition filed in district court.

She declares her nervous system has been shocked once too often.

MR. AND MRS. ROGER STRAUS ARE VISITING IN OMAHA

Mr. and Mrs. Roger W. Straus of New York, arrived in Omaha Wednesday, and left last evening. Mr. Straus is one of the officials of the American Iron and Steeling company of Omaha, and has large smelting and mining interests throughout the west.

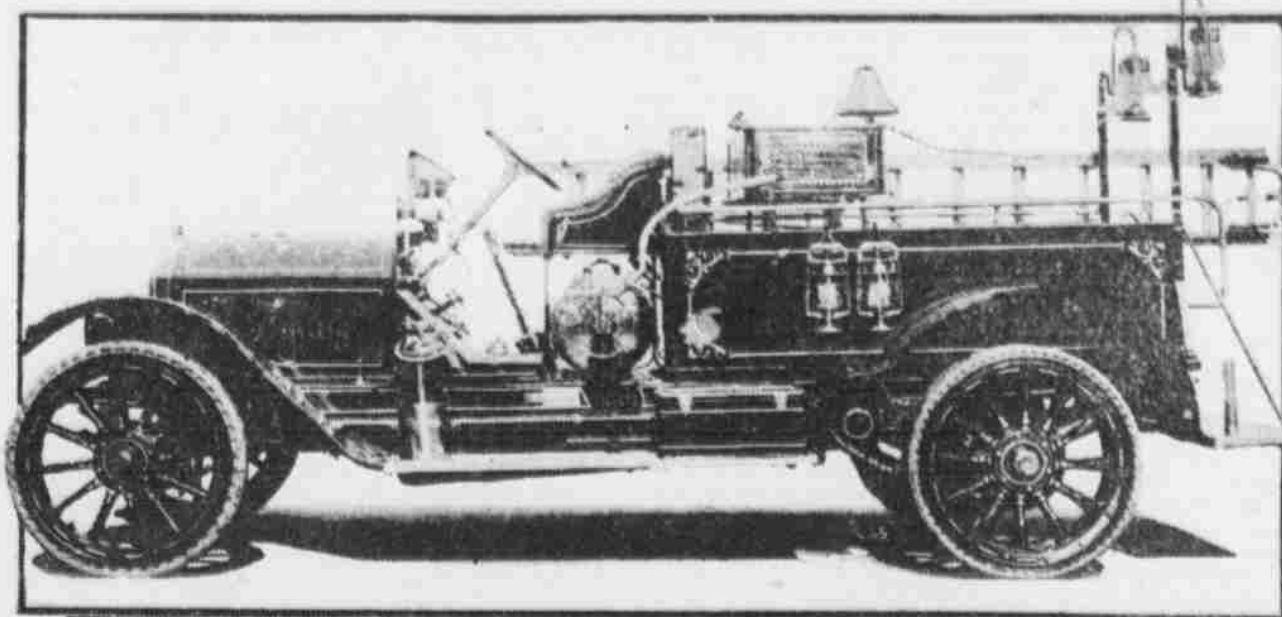

It was announced that this is merely a tour of inspection, one of the annual tours of this kind which Mr. Straus makes to the various plants in which he is financially interested.

T. C. BYRNE SECURES FINE NEW GAITED SADDLE HORSE

T. C. Byrne, head of the Byrne-Hammer company and formerly an enthusiastic participant in the affairs of the Omaha Driving club, has secured a new saddle horse. Paul Coad purchased a gaited saddle, "Fanny," a beautiful mahogany bay mare, which will be shipped to Omaha at once for Mr. Byrne.

Something Good. There who hate nasty medicine should try Chamberlain's Tablets for constipation. They are pleasant to take and their effect is so agreeable and so natural that you will not realize that it has been produced by a medicine. Obtainable everywhere.—Advertisement.

HEAVY SNOW FALLS IN THE NORTHWEST

Three Feet at Deadwood, with Snow and Rain Covering the Ground East of Norfolk.

WILL HELP THE GROWING CROP

While there is no blizzard scheduled, or on the way, according to morning reports, western Nebraska and states to the north and west are experiencing another little touch of winter.

Both the Northwestern and Burlington report that the snow that commenced falling in western Nebraska, South Dakota and eastern Wyoming Wednesday afternoon, continued during the night and that this morning, all through the Black Hills country and west in Wyoming, it had attained a depth of ten to twelve inches. However, it is very wet and is not blowing or drifting. Reports from Deadwood show three feet of snow there, crippling railroad traffic.

The heaviest snowfall seems to have covered a stretch of country from Newell, north of the Black Hills, east to Orlin, south of the hills. South and west the heavy snow belt is some fifty miles wide.

All down through the sand hills country along the line of the Burlington to about as far east as Broken Bow, in Custer county, there was two to six inches of snow during the night.

Along the Northwestern there is one to four inches of snow across country from Casper east to Long Pine. A short distance east of Long Pine during the night the snow turned to rain and in the morning a heavy rain storm covered the entire area as far east as Norfolk, with light rain east as far as Wray, and down the Elkhorn valley as far as West Point.

Over the Union Pacific's branches north of the main line there was rain and snow during the night to points as far east as Columbus. West of Columbus along the main line there was snow or rain a greater portion of the night, with a heavy fall of snow from Kimball, Neb., to Cheyenne, Wyo.

It is asserted that while the area visited by the snow and rain was not suffering as a result of any lack of moisture, the precipitation will be of great benefit and if followed by warm weather will rapidly force vegetation and cause winter wheat to forge ahead. Besides, it is asserted that it will put the ground in perfect condition for plowing for corn.

Council Approves Fire Truck Order

The city council approved a contract with the American La France Fire Engine company for eleven combination hose and chemical motor trucks for the fire department. The amount of the contract is \$5,000, as follows: Eleven machines at \$450 each, three junior pumps at \$90 each and three turret pumps at \$5 each. The apparatus will be delivered within ninety days.

Fifteen Suits Are Dismissed in Bunch

Fifteen lawsuits against insurance companies, brought by citizens who alleged damages as the result of the tornado, have been dismissed in a bunch by Judge Willis Sears, who declared there was no evidence to support the claims of the plaintiffs.

DREXEL WILL NOT AGAIN COLLECT RUBBISH FREE

"I have fully decided not to continue the annual custom of the city gathering up free of charge accumulations of rubbish in connection with the spring clean-up," stated Commissioner Drexel of the street department.

This refers to heaps of old material placed in back yards and alleys by householders. This clean-up last year extended through a week and cost the street department \$200.

PREFERS TO BE A COWBOY THAN TO SELL JEWELRY

Rudolph Hendrickson, son of Hendrickson, the jeweler, is soon to go to Keelina, Wyo., where he is to engage in the live stock business. Being a cowboy looks better to him than being a jeweler.

Waage Loses Faith in Mankind as He Sees His Fresh Apple Pie Go

Alas for faith in one's friends, one's fellow men, one's co-workers! Alas! Alas!

August Waage, carrier No. 33 at the postoffice, has lost all such faith. And who could blame him? Not us, by Jimmy, not we.

They stole his pie, that's what these base scoundrels did. His nice, fresh pie that he had just fetched from the bakery and laid down for a minute, in accordance with his trustful nature.

It was an apple pie, friends, a nice, fresh, crisp-crust apple pie.

Ah, yes, that's what it was, pie, beautiful, beautiful pie.

This is no laughing matter. If these bandits and horse thieves had stolen anything but a pie, a nice, fresh pie, an apple pie, we could laugh with them at Waage's expense.

But it wasn't anything else than a pie, and we love pie, reader, yes we do. It is dear to our heart and our appetite and when you steal our pie you steal that which enriches you and makes us poor, indeed.

We like apple pies and lemon pies with meringue on top, and coconut

Material for the New U. P. Bridge is Now On the Way

The long timbers to be used by the Union Pacific in the reconstruction of its bridge over the Missouri river are due to arrive almost any day, they having been ordered from the Oregon and Washington mills. Word comes that the eastern mills that are to furnish the steel for the new superstructure have started work on the beams and columns, and that shipment will start within the next few weeks.

At this time Union Pacific officials of the engineering department are unable to state when reconstruction will begin on the bridge, everything depending upon the assembling of materials.

Found Dead in Room with His Money Gone

Joseph H. Rouz, dining car cook in the employ of the Union Pacific, was found dead in a room at the State hotel by a friend, Floyd Fuller, messenger, who works at 315 South Twelfth street, who went to the hotel to call on him. Rouz is 25 years of age and his home is in Ogden, Utah. Rouz came in on his own Wednesday night and, according to Fuller, had \$5 in his person when he retired. The money was not found when his body was discovered. The coroner will hold a post-mortem examination.

Kugel Says He Will Close Fake Auctions

Superintendent Kugel of the police department states he will proceed against various auction jewelry establishments whose methods of business are said to be irregular. It is charged by Mr. Kugel that some of these places sell fake jewelry. Complaints have been received from proprietors of regular jewelry stores.

A Fine Aid For Mother-to-be

We are all greatly indebted to those who tell their experiences. And among the many things which we read of and are of immediate importance to the expectant mother, is a special remedy called "Mother's Friend." This is especially helpful in the case of indigestion, constipation, and other ailments which are so common during pregnancy. It is a simple, natural, and safe remedy, and is highly recommended by all who have used it. It is sold by all druggists and is a true blessing to all mothers-to-be.

Spencer is Silent as to His Sojourn in Turbulent Mexico

After viewing some of the Mexican atrocities and living in that disturbed land, C. S. Spencer has taken up his residence in Omaha where life is safe and one can sleep at night in peace.

He is a chemist for the American Smelting and Refining company and has been working for that corporation at its Mexican smelters. He was in Paso when the Americans killed by the bandits in Chihuahua, were brought there and buried. He saw Pancho Villa himself once in Juarez.

Concerning his experiences, however, he maintains much silence. "I may want to go back down in that country some time," he says.

Would You Trust Him?

Would you trust your merchant if he never marked his goods and left it to his clerks to get all he could from the purchaser? This is a fair idea of what you have done for fifty years when you have needed the services of a doctor. Do you know any other business on earth that keeps the price from you until you have purchased the goods or service? You will admit that you have done this at some time or other, and many of you many times. Some of you pay a small fee and others pay a large fee for the same service. It is a queer practice to put on honestly. Because I dare to tell you in public print what I do and what I will charge you, I am boycotted, scorned and cast out. However, I don't worry about me as I am here to stay and will treat you on a square and honest basis if you come to me for my services. You know my plan now as I have been telling you for several days. My usual charge is \$1.00 cash paid, for consultation, and I give you the medicine from my office. Those cases who need personal examinations or treatments in the office will pay as much as \$2.00. No free consultations or examinations. NO EXTRA CHARGE MADE FOR MEDICINE.

Speak Out, Hackett

To Harry J. Hackett:

You want to be nominated for state senator and, of course, you want every one to know where you stand on all vital issues.

The report that you are "slated" in a combine with "E-b" Smith, the notorious fee grabber, may lead folks to believe you are excusing and championing his rotten record. But we will not believe it unless you, yourself, say so or refuse to speak out.

You have stood for office several times on a platform of reform, and in the charter convention voted with the editor of The Bee to stop the fee graft of the health commissioner which is only "a little one" as compared to the steal "Bob" has tried to perpetrate.

Will you, Mr. Hackett, oppose fee grafters in the district clerk's office and the sheriff's office, as well as in the city health commissioner's office and favor laws to force these officers to be content with the generous salaries given them by law? Speak out, Mr. Hackett.

with a proposed bond proposition for a municipal electric light and power plant. This was referred to the committee of the whole meeting next Monday morning.

WORKMEN MADE A SERIOUS MISTAKE

They Took the Scaffolding Down Too Soon and House Caved In.

A JOKE WITH A MORAL

"How," said the foreman to the contractor, as he rushed excitedly into the office, "that house you put up for Silas Jones fell down last night."

"How is that? What was the matter?" ejaculated the contractor.

"Why, it was a mistake of the workmen who thoughtlessly took down the scaffolding before they put on the wall paper."

This old joke has a very serious side, as well as a funny one, for it goes to show the feasibility with which many things are built.

The human body, that house in which we live, when it is attacked by disease, is just as insecure as the houses held together by wall paper.

That it is at times, like those that the value of a great reconstructive tonic is most apparent was proven again, yesterday by Mr. C. A. Weedman, cement contractor, who lives at 2827 Arbor avenue, Omaha. You can't amend the human constitution, but you can recall it by taking Tanlac, the reconstructive.

"I suffered from stomach trouble," said Mr. Weedman. "A friend of mine told me about the virtues of Tanlac and I decided to give it a trial. I can now say from experience that there is nothing to compare with Tanlac. It has done me a world of good and I cheerfully recommend it to everybody who suffers from stomach afflictions."

"I would blast after eating and have severe pains. Since taking Tanlac I am free from these troubles. After several doses I noted a change and in a few days I was feeling like a new man."

"Tanlac is the best medicine I ever tried for the stomach."

Tanlac is being specially introduced in Omaha by an expert, at Sherman & McCullough's Drug Store, Sixteenth and Dodge streets.

Tanlac may be obtained in Benson at the Schiller-Boettke Drug Store; Springfield, Ill. Fleigenbaum; Weeping Water, Meyer Drug Co.; Nebraska City, Henry Schwab & Co.; Auburn, E. H. Dert; Ashland, H.
