

Nebraska SCHOOL CREDITS FOR GARDEN WORK

Twenty-Three Nebraska Commu-
nities to Make Gardening Part of
Regular School Course.

PRACTICAL TRAINING GIVEN

LINCOLN, April 7.—Twenty-three cities and villages of Nebraska will make gardening a part of the regular school work the coming season, in co-operation with the extension service of the College of Agriculture. Each child will undertake not only to raise the vegetables but to market them, dispose of surplus products by canning, and keep a careful record of expenses and receipts as well. The local work will be in charge of a garden supervisor hired by the school board. The Extension Service will furnish blanks, records, instruction sheets, and special instructors during the season. Credit for the completed project will be allowed in school work.

The towns which have undertaken the project are: Alliance, Ashland, Auburn, Beatrice, Benson, Blair, Central City, Chadron, Columbus, Crete, Crawford, Fairbury, Fremont, Fullerton, Grand Island, Holdrege, Howell, Kearney, Lincoln, Neligh, Peru, Superior, Stromsburg and University Place.

Rural Community Conference.

A conference for rural life workers will be held at the College of Agriculture from June 14 to 23, 1916. It is not the purpose of the conference to provide instruction in technical agriculture, but rather to discuss means and methods for bringing about a better rural community life. The program will include lectures and discussions on the rural church, its function and program; the consolidated school; recreation in rural communities; boys' and girls' clubs; farm management; rural economics; value of soil culture, and animal husbandry. It is expected to have present Prof. G. J. Galpin, lecturer on rural sociology of the University of Wisconsin; G. H. Benson, national leader in boys' and girls' clubs of the United States Department of Agriculture; Mrs. Nellie F. Snyder, training demonstrator of the same department; and Herbert M. Morse, who has had extensive experience with religious and social surveys.

Feeding Skim Milk to Calves.

A dairy calf of ordinary vigor can be put on a skim milk diet at the age of two or three weeks, according to the College of Agriculture. The change to skim milk should be gradual. This change is best made by substituting a pound of skim milk for a pound of whole milk at each feed until the calf is receiving only skim milk. The amount of skim milk fed should be the same as that of the whole milk which it replaces. This will usually be ten to twelve pounds for a calf two or three weeks old. A gradual increase in the milk should be made as the calf grows, until at the age of five months it is receiving sixteen to twenty pounds daily, depending upon the size of the calf.

Outline for Bird Study.

Persons interested in the study of birds may be assisted by an outline on this subject issued by the College of Agriculture. The topics of the lessons include resident birds, winter residents, early spring migratory arrivals, late migratory arrivals, and additional notes on the birds to be searched for in June. The outline contains a bibliography of books and pamphlets, many of which may be obtained free or at a nominal cost. The outline is prepared especially for use in women's organizations, but may be had by anyone interested upon application to the Extension Service, College of Agriculture, Lincoln.

AGED MINISTER MAY DIE FROM KICK OF HORSE

ARTHUR, Neb., April 7.—Rev. J. D. Stewart, whose claim adjoins this town on the north, was discovered near the entrance to his stable Wednesday morning about 8 in an unconscious condition. He was only partly dressed, and this led to the belief that he had responded to some unusual noise in the barn during the night and had been kicked by one of the horses. This belief was strengthened by an ugly wound on the side of his head, and the severe bruises on the abdomen. All efforts to revive the patient have been unavailing and fears are entertained for his recovery. Rev. Mr. Stewart, who is 70 years of age, is one of the oldest Congregational ministers in the state, having spent the last thirty-six years in the Sunday School Missionary department of that denomination. He came to Arthur county two years ago from Aurora, where he has resided for a number of years.

FIVE NEW STATE BANKS GIVEN CHARTERS BY BOARD

(From a Staff Correspondent.)
LINCOLN, April 7.—(Special.)—Five new state banks were approved by the State Banking board and their charters issued today.
The Farmers' State bank of Newport, with a capital of \$200,000. Officers are: Jake H. Olson, president; J. B. Chom, vice president, and L. C. Funk, cashier.
Farmers' State bank of Creton, capital \$200,000. Officers are: T. E. Stevens, president, and Arthur Palmator, vice president.
Farmers' State bank of Nickerson, capital \$200,000. Officers are: Otto H. Schum, president; Edward D. Clough, vice president, and H. A. Hanson, cashier.
Conservative State bank of Central City, capital \$200,000. Officers are: E. D. Ayers, president; Belle E. Berryman, vice president, and E. M. Jackson, cashier.
Farmers' State bank of York, capital \$200,000. Officers are: John Lynch, president; G. W. Myers, vice president, and A. C. Hubbard, cashier.

MILLION ACRES OF LAND ADDED TO ASSESSMENT ROLL

(From a Staff Correspondent.)
LINCOLN, April 7.—(Special.)—According to reports coming in to State Auditor William Smith, the last of which reached him yesterday, 1,360,000 acres of land have been added to the assessment rolls of the state.
No report was made on the Omaha agency land in Thurston county last year, but this year the addition has amounted to 100,000 acres, which amount to 1,320 acres, making the total from all land offices now up to 1,360,000 acres, which will add considerably to the assessment collection of the state this year.

Nebraska Military Funeral For Beatrice Boy Killed on Border

BEATRICE, Neb., April 7.—(Special.)—A military funeral conducted by Company C was held here today for Adolph Guelfroy, the Beatrice boy who was accidentally shot and killed last Sunday by a comrade while patrolling the Mexican border as a regular soldier. Rev. A. M. Reitzel had charge of the services, which were held from the Presbyterian church. Interment was in Evergreen Home cemetery.

JOLT FOR THOUGHTLESS MEN

LINCOLN, April 7.—(Special.)—"The result in the recent town elections proves what the dry federation has claimed, that the sway of popular opinion is strong against the saloon in this state," said W. T. Thompson, chairman of the Nebraska dry campaign committee, today. "The dry forces captured twenty-five wet towns and ousted seventy-six saloons. The wets captured six dry towns where there will not likely be more than nine saloons inaugurated. It is a reduction of sixty-seven saloons in the state, and a conservative estimated loss in bar receipts to the liquor traffic in this state of over \$1,000,000 for the next year."

"In the twenty-five towns turned from wet to dry there are 43,000 people. In the six towns turned from dry to wet there are 7,000 people. In the twenty-five towns the dry majority averages twenty-nine. In the six towns carried over the average majority is eleven. Among the towns turned from wet to dry there are several large and prominent towns, such as Beatrice, Fairbury, McCook, Chadron, Superior, North Platte, Elyria and Wahoo.

The Brethren church near Holmsville will be rededicated Sunday, April 9. An address will be given by Dr. Kurtz, president of the college at McPherson, Kan.

Wesleyan Engineer is Robbed of Forty Dollars by Two Men

UNIVERSITY PLACE, Neb., April 7.—(Special.)—Miss Jackson, head engineer at the Wesleyan power house, was held up and robbed while on duty in the power plant about 6 o'clock this morning. Mr. Jackson had mounted a ladder to inspect a steam gauge, when he heard a noise behind him and turned to face two masked men, one of whom held a gun in his face. The other went through his pockets, securing about \$40. The men backed out of the engine room and ran north toward Havelock. Two men were apprehended about 8 o'clock, but there was no positive proof against them. It is supposed that the bandits boarded a street car for Havelock and made their escape on some train eastbound. Some believe it was the work of local men, as the parties concerned seemed to know too many details of location and working hours to be vagrants or chance holdup men.

John Bencke.

AVOCA, Neb., April 7.—(Special.)—John Bencke, aged about 60 years, died yesterday after an illness of several weeks' duration. Mr. Bencke was a pioneer of this vicinity, having located on a farm south of town many years ago, but moved to Berlin in January this year. He is survived by his widow, two sons and two daughters.

Break a Child's Cold by Giving Syrup of Figs

Look, Mother! Is tongue coated, breath feverish and stomach sour?

Cleanse the little liver and bowels and they get well quickly.

When your child suffers from a cold don't wait. Give the little stomach, liver and bowels a gentle, thorough cleansing at once. When cross, peevish, listless, pale, doesn't sleep, eat or act naturally; if breath is bad, stomach sour, give a teaspoonful of "California Syrup of Figs," and in a few hours all the clogged-up, constipated waste sour bile and undigested food will gently move out of the bowels, and you have a well, playful child again.
If your child coughs, snuffles and has caught cold or is feverish or has a sore throat give a good dose of "California Syrup of Figs," to evaluate the bowels no difference what other treatment is given.
"Bick children needn't" be coaxed to take this harmless "fruit laxative." Millions of mothers have it handy because they know its action on the stomach, liver and bowels is prompt and sure. They also know a little given today saves a sick child tomorrow for a 25-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-up patients on the bottle. Beware of counterfeits and here, get the genuine, made by the "California Fig Syrup Company."

A CLEAR COMPLEXION Ruddy Cheeks—Sparkling Eyes— Must Women Can Have.

Says Dr. Edwards, a Well-Known Ohio Physician.
Dr. F. M. Edwards for 12 years treated scores of women for liver and bowel ailments. During those years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets, you will know them by their olive color.
These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter that one's system collects.
If you have a pale face, yellow hair, dull eyes, pimples, coated tongue, headache, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets daily for a time and note the pleasing results. Thousands of women as well as men, take Dr. Edwards' Olive Tablets now and then just to keep in the pink of condition.
Dr. Edwards' Olive Tablets, the successful substitute for calomel and the like. All druggists.
The Olive Tablet Company, Columbus, Ohio.

DRY LEADER TALKS OF TOWN ELECTIONS

Chairman Thompson Says Result
Sixty-Seven Fewer Saloons
in the State.

JOLT FOR THOUGHTLESS MEN

LINCOLN, April 7.—(Special.)—"The result in the recent town elections proves what the dry federation has claimed, that the sway of popular opinion is strong against the saloon in this state," said W. T. Thompson, chairman of the Nebraska dry campaign committee, today. "The dry forces captured twenty-five wet towns and ousted seventy-six saloons. The wets captured six dry towns where there will not likely be more than nine saloons inaugurated. It is a reduction of sixty-seven saloons in the state, and a conservative estimated loss in bar receipts to the liquor traffic in this state of over \$1,000,000 for the next year."

"In the twenty-five towns turned from wet to dry there are 43,000 people. In the six towns turned from dry to wet there are 7,000 people. In the twenty-five towns the dry majority averages twenty-nine. In the six towns carried over the average majority is eleven. Among the towns turned from wet to dry there are several large and prominent towns, such as Beatrice, Fairbury, McCook, Chadron, Superior, North Platte, Elyria and Wahoo.

The Brethren church near Holmsville will be rededicated Sunday, April 9. An address will be given by Dr. Kurtz, president of the college at McPherson, Kan.

The wets carried only one of the larger towns, Falls City.

Jolt for Thoughtless Men.

"It's a jolt that will change the attitude of thousands of thoughtless men who have voted wet, not because they really wanted saloons, but because they wanted to be with what they thought was the winning side. Another vote in these same towns now would put more of them in the dry list."

"It's a rebuke to the National Liquor Dealers' association, that has spent large sums of money flooding the state with literature that has apparently aroused and emphasized rather than lessened the opposition to its business."

"It's a jolt to the saloon keepers of the state who are being heavily assessed on the theory that while their business forces silence on their part their money will talk at election."

Committee Work Encouraged.

"It was a part of the plans of the state committee to encourage these town contests at this time, the judgment being that the results would stimulate the dry forces all over the state. There are scores of other towns that would have gone dry if the wets had had the faith and courage to make the fight."

"In behalf of the state committee I want to thank the hundreds of earnest and efficient workers who have helped win this preliminary contest. We have ousted seventy-six saloons. Now let's get busy to oust them all in November."

Burwell Dry by Big Majority.

BURWELL, Neb., April 7.—(Special.)—At the city election held here Tuesday the entire democratic ticket, consisting of C. D. Uchey, D. P. Hennich and C. F. Grunkemeyer, was elected. The vote on the saloon question was 170 dry and 87 high license, giving the drys an increased majority, as it was but fourteen last year. Pool balls won by two votes.

The Highest Attainment in Hand Tailored Clothes

—For particular men and men who appreciate the necessity of wearing clothes built along refined and dignified lines.

A man instinctively stiffens his shoulders and feels at his ease when he wears Sampeck Clothes
