NEW YORK STOCK MARKET

Furnishes Striking Proof of Its Inherent Strength in Face of Crisis.

NEW YORK, April 19.—Although special stocks suffered general and severe reversals, impartial observers were of the opinion that yesterday's market furnished striking proof of its inherent strength in the face of highly disconcerting conditions.

The day's operations included to a greater extent than at any recent session, the activity of the market, which was evidenced by the activity of commission houses, whose connections embrace the more important sectors of the country.

Wall street's attention was so evenly divided between the market and developments in Europe, that it was not until the closing of the day that the market's attention was directed to the opening of awards for \$25,000,000 of United States 4 1/2 per cent bonds.
