COWBOY THRILLS WHITE WAY

Gunsplay by Man from Montana is Too Much for New York Nerves.

New York City is a much lonelier place than the western plains, according to Michael Conley, a cowboy from Boulder, Mont., who was arraigned in the Washington Heights police court, charged with attempted robbery and violating the Sullivan law.

Conley had a good job in Montana, but hearing of the fortunes being made in the east by the sale of war munitions, he came here to make his "pile" in a hurry.

BURBANK RESIGNS FROM FONTENELLE

Managing Director Sends In His Resignation, Which Is Accepted By the Directors.

WILL HAVE A NEW HOTEL

Abraham Burbank, managing director of the Hotel Fontenelle and a stockholder in the holding and operating companies, has tendered his resignation and it has been accepted, effective May 31.

News of Burbank's retirement from Omaha's million-dollar hotel comes as a distinct shock, as Burbank had apparently been highly satisfied and the hotel was doing extraordinarily well, from a financial as well as a social standpoint.

"Yes, it's true," declared Mr. Burbank. "I tendered my resignation to the board of directors some time ago, and it has been accepted." Mr. Burbank explained: "After W. R. Burbank died and I took over the place, I only signed a contract for a year. The contract expired Monday and I had no wish to renew it, as I have another hotel proposition of much larger caliber to consider."

Omaha a Wonder City. "I will be very sorry to leave Omaha. It is a wonder city, without a doubt, and the people here are lovely. They have been good to me and I will never forget it."

Makes Hotel a Success. Abe Burbank came to Omaha in September, 1914, with his brother, the late W. R. Burbank, to open Omaha's first skyscraper hotel. Both of the Burbanks had practically been "born and raised" in the hotel business, and success crowned their efforts from the very start.

During the interview with Mr. Burbank he pointed to a big stack of recently received letters from prominent Omahans, praising him for his ability in handling the Fontenelle. "Appreciations like those in that stack go to make the biggest return I'll feel badly over leaving Omaha."

Dr. Davis' Prize Cow May Beat State Record for Butter

Though he is not saying a word about it, Dr. B. B. Davis has a cow that if she lives the summer through will be worth her weight in gold. In fact right now—the best butter season of the year has not arrived—she is adding something like \$125 per day to the doctor's exchequer.

The Dr. Davis cow in question is a Holstein-Friesian and is one of a large herd on the doctor's Pleasant farm, near Omaha. A seven-day record shows that this particular cow produced 47.4 pounds of milk and 30.4 pounds of butter. If she keeps up the pace that she has set in ten days more she will have passed the state record, which is 135 pounds of butter in thirty days.

By the way, the doctor's Holstein is the second cow in Nebraska that has ever given sufficient milk in seven days to produce thirty pounds of butter.

Got Rid of My Corns With Magic "Gets-It"

Simplest Corn Cure in the World—No Pain, No Fuss, New, Sure Way.

Why Have Corns At All When "Gets-It" Removes Them the New, Dead-Sure Way?

When corns make you almost "die with your boots on" when you've soaked them and picked them and sliced them, when corn-swalling salves and tapes, bandages and plasters that make corns pop-ey have only made your corns grow faster, just hold your heart a moment and figure this: Put two drops of "Gets-It" on the corn. It dries at once. You can put your shoe and stocking on right over it. The corn is doomed. It makes the corn come off clear and clean. It's the new, easy way. Nothing to stick or press on the corn. You can wear smaller shoes. You'll be a job-walker. No pain, no trouble. Accept no substitutes.

"Gets-It" is sold by druggists everywhere. Be a bottle or sent direct by E. Lawrence & Co., Chicago, Ill. Sold and recommended as the world's best corn remedy by Sherman & McCannan Drug Co. Stores—Advertisement.

FRECKLES Don't Hide Them With a Veil, Remove Them With the Othine Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a beautiful complexion that it is sold by any druggist under guarantee to refund the money if it fails.

MAN SUFFERS FRACTURED SKULL FROM HORSE KICK

John Zeigler, 423 North Twenty-eighth street, a teamster, suffered a fractured skull when a horse kicked him in the head as he was un hitching a team at Thirtieth and Miami streets. He was taken to St. Joseph's hospital.

Everyone Should Drink Hot Water in the Morning

Wash away all the stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside, no sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do, says a well known physician.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract, before putting more food into the stomach.

Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless, except a sourish twinge which is not unpleasant. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.

To feel like young folks feel, like you felt before your blood, nerves and muscles became saturated with an accumulation of body poisons, begin this treatment and above all, keep it up! As soap and hot water act on the skin, cleansing, sweetening and purifying, so limestone phosphate and hot water before breakfast, act on the stomach, liver, kidneys and bowels—Advertisement.
