

Nebraska SEVEN HUNDRED WAS COST TO BRYAN

Mayor of Lincoln Files Itemized List of Campaign Expenses with Secretary Pool.

OTHER CANDIDATES ALSO TELL

(From a Staff Correspondent.)
LINCOLN, April 25.—(Special.)—It cost Governor Noyeshead nothing to carry Nebraska as the choice of the democrat for the democratic nomination for vice president, but it cost Mayor Charles W. Bryan \$700.00 to discover that the demagogues of Nebraska did not want him to be governor and William J. Bryan an even \$700 as rent of the Lincoln Auditorium to let the people at his birthday celebration that Brother Charles ought to be elected governor because he was dry and that Mayor Jim Dahlman should be elected national committeeman because he was wet. That water and the other stuff (and only wet), the result of the election indicated. Other candidates who filed their campaign expenses with the secretary of state were:

W. D. Rife, republican, secretary of state, \$25.00; W. H. Thompson, democrat, do. do. \$25.00; Victor E. Wilson, democrat, railway commissioner, \$60.00; S. R. Tilton, republican, congressman, Fifth district, \$100.00; W. B. Manning, democrat, Helman, governor, \$100.00; William F. Varney, republican, congressman, Third district, \$10.00.

Commercial Club of North Platte Wakes Up Town

NORTH PLATTE, Neb., April 25.—(Special.)—In a two days' membership campaign 25 business and professional men have joined the Chamber of Commerce, giving \$1,200, and it is expected to run the membership up to 500 and have a budget of \$7,000. Twenty-two business men paid their whole year's dues in advance, and the cash collected to date during the campaign totaled \$1,607.25. It is the plan to employ the best secretary possible, and an effort is being made to secure W. D. Fisher, secretary of the All-Nebraska Commercial Club, who is also secretary of the State Association of Commercial Clubs.

The Chamber of Commerce started out by landing the next state convention of small merchants and a campaign will be waged to land for North Platte at least five state conventions for next year.

A free employment bureau has been opened for use of the farmers and a publicity campaign will be mapped out that will put North Platte on the map right.

RAIL COMMISSION RACE IS CLOSEST ONE OF ALL

(From a Staff Correspondent.)
LINCOLN, Neb., April 25.—(Special.)—That the nomination for railway commissioner on the republican ticket may not be decided until the official count is completed is indicated by the closeness of the vote at the present time. Sixty-six counties complete, as published and corrected by the official reports which have reached the office of the secretary of state from seventy-seven counties show the following:

Johnson 15,354
Clark 15,354
Randall 15,354
These figures are so close that the vote of a single county may change the result and indicate that the official figures may have to settle the matter.

ALMA, Neb., April 25.—(Special.)—John Schrock, a famous living northeast of Oxford, has a fresh cut on his leg from this week. It is a five-legged flea and it is as lively as any of its normal brethren and sisters. Mr. Schrock thinks it possible to have the extra limb removed and has arranged for a veterinarian to make an examination, but his neighbors advise him to leave the animal as nature made it, thinking it more valuable as a curiosity than as an epidemic-brought bear.

WORK STARTING ON THE YUTAN CUT-OFF

Several Outfits Are Now at Work Along the Route Pushing Grading.

BRIDGE GANGS AT WORK, TOO

Work on the Burlington's Chalco-Yutan cut-off, intended to give Omaha another short line into Sioux City and the southeastern portions of South Dakota, has started. Grading outfits and bridge building gangs were assembled along the fifteen miles between Chalco and Yutan late last week and Monday morning the work was started.

Working west from Chalco there are 120 men, seventy-five teams and a number of grading outfits on the job. From Yutan and working east there are seventy-five men, twenty teams and a number of grading machines throwing up the earth. Working on the bridge over the Platte river, a short distance east of Yutan, there are thirty-five men employed, twenty, and on the bridge over the Elkhorn, fifteen men.

With the exception of a short stretch west of the Pappio and through Douglas county, this side of the Platte river, it is an easy grade and rapid progress will be made in construction.

Bridge Building Starts

Grading and bridge building starts at the same time, the idea being that by the time the grade is finished the bridges will have been completed and the cut-off will be ready for the steel.

While no time has been set for the opening of the cut-off to traffic, the Burlington officials are of the opinion that trains will be operated over it in time to handle the next wheat crop.

Tea, Coffee and Children

It would be difficult for any parent to find a physician of modern education who would contend that coffee and tea are not harmful, especially to growing children.

The fact remains, however, that many parents give these beverages to their little folks and allow their use in older children at a time when physical and mental development is the most rapid.

The drug, caffeine, in coffee and tea retards growth and interferes with school progress. Disturbances of eyesight, headaches, nervousness, irritability, indigestion and other ills appear in many, seemingly without cause, and the damage often occurs at the most impressionable period of life.

No parent should permit the use of coffee and tea in the growing young; for the men and women of tomorrow will be what the parent of today makes the children by wise upbringing.

Children as well as adults need an invigorating, warm drink, and in a growing number of homes it has been found that the most wholesome table beverage is

INSTANT POSTUM
