

Turn Hair Dark With Sage Tea

Grandma kept her locks dark, glossy and youthful with a simple mixture of Sage Tea and Sulphur.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folk are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mossy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Weyth's Sage and Sulphur Compound," for about 50 cents a bottle.

"My skin trouble started with a few water pimples between the fingers of my left hand. My hand was red and inflamed always and it itched so I had to do something, so I would rub it with a rough cloth until it looked as if it were ready to burst and bleed, and I was kept awake at night with it.
