GIVE MOTHER A VICTROLA

When you are all away from home and Mother is sitting alone, with her memory drifting back to the old days when she had her little ones around her knees, what a comfort it would be if she could start up a Victor Victrola and listen to the old-time melodies she used to croon to you when a baby.

Nothing is so soothing, so comforting to tired nerves and mind as music, and the music that comes from the Victor Victrola is that smooth, melodious kind that leaves the hard places of the world outside and drifts into your very heart like the balmy spring breezes laden with the perfume of trees and flowers.

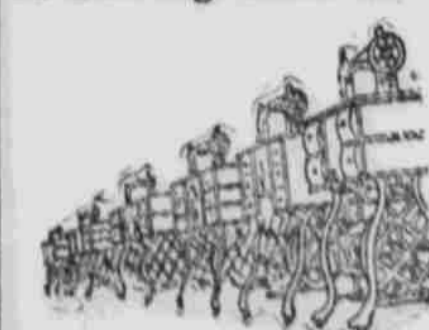

You are out in the world with the vigor of youth to make your spirit glad, but remember your mother—give her a Victor Victrola for a companion.
