

DE FACTO TROOPS MOVE NORTHWARD

Oregon Has Ordered Ten Thousand Men Sent Into States of Chihuahua and Coahuila.

AMADOR PROMISES REAL ACTION

EL PASO, Tex., May 12.—John Amador, sub-secretary of foreign affairs of the de facto government, who participated in the conference with General Obregon, called on General Scott today and reiterated to him assurances that such troop dispositions as were necessary to restore and maintain order along the northern frontier already had been ordered.

General Obregon, who will remain for a few days at Chihuahua, has directed General Trevino to send into the states of Chihuahua and Coahuila 10,000 men. These forces will be taken from Torreon, San Pedro and other points in the southern part of Coahuila. Trevino's headquarters will be in Chihuahua City, Chihuahua.

Immediate occupation of the district about Parral has been ordered and what the Mexicans regard as an adequate force will be dispatched to the Big Bend country and every effort made to run down the bandits and resume J. Demore, who was captured in the Glenn Springs and Boquilla raid.

Americans Will Withdraw

General Scott previously had assured General Obregon and Mr. Amador that the withdrawal of the American troops from the district below Namsiquipa already had begun, and Mr. Amador asserted that this district would be controlled without loss of time by the Mexican forces.

Mr. Amador expected to leave tonight for Mexico City, where he will have an important role as sub-secretary of foreign affairs in the negotiations that have reverted to the foreign offices of the two governments. To newspaper men he indicated that he had no doubt of an amicable adjustment at an early date.

He explained that the questions involved in the protocol governing the mutual agreement for the crossing of troops into one and the other countries must be the basis of these negotiations. Although the withdrawal of the American troops stipulated in Carranza's note of April 12 must also be considered.

Will Negotiate at Washington

Mr. Amador did not regard this, however, as an insurmountable obstacle to a successful conclusion of the diplomatic negotiations about to be resumed at Washington.

Mr. Amador made it clear that General Scott and Ponson had reiterated the assertions of the administration that it was not the intention of the United States government to keep the troops in Mexico indefinitely and that, therefore, he did not attach so much importance to this as had been given to it in some quarters.

"And you may be certain," said Mr. Amador, "that the danger of a conflict between Mexican troops and American soldiers pending these negotiations does not exist."

Troops Stay in Sonora

General Obregon's army in Sonora will remain there for the present, according to Mr. Amador, although he said that a request would probably be made later for the passage of a portion of the troops from Sonora eastward either through American territory or through the American line of communications.

At present, he said, neither General Scott nor General Obregon regarded it wise, however, to send the Mexican troops across the American lines, "not because we fear that our troops would cause a conflict," said Mr. Amador, "so much as we fear that they might be attacked by your troops."

Kaiser Confers Decoration Upon Captain Boy-Ed

LONDON, May 12.—A Central News dispatch from Amsterdam says that Captain Karl Boy-Ed, formerly naval attaché at Washington, has been decorated with the Order of the Red Eagle, third class, with swords, by the emperor.

Captain Boy-Ed was appointed to the Washington embassy December, 1911. After various charges had been made against him, in regard to his connection with passport frauds, the equipment of German commerce raiders from this country and German intrigues in Mexico, President Wilson requested his recall. After the president had declined a request from Berlin to explain the reasons for the demand for Captain Boy-Ed's recall, the attaché was ordered home last December.

The charges against Captain Boy-Ed continued after his departure from this country. In March of this year, when Horst von Der Goltz was arrested in New York in connection with the plot to blow up the Welland canal in Canada, he made a statement to the United States district attorney charging that Captain Boy-Ed had proposed an invasion of Canada from this country.

The loot in the store was not locked, as the combination mechanism in the door was out of order.

FIGHT ON WHITE PLAGUE PROFITABLE

Patients Treated at Total Cost of \$15,000 Earn \$50,000 Within the Last Year.

DISEASE IS DUE TO POVERTY

WASHINGTON, May 12.—Direct financial economy of combating tuberculosis was illustrated today at final sessions of the national association for the study and prevention of tuberculosis.

Dr. Joseph H. Pratt of Boston explained that patients of a tuberculosis class maintained by Emmanuel church, Boston, whose wage earning power was restored by proper treatment, earned \$50,000 last year. The total expense of the class for the last ten years was about \$15,000. Dr. Pratt recommended that churches and other organizations form classes of tubercular patients for instruction regarding outdoor treatment which they may give themselves at home.

The close relation of poverty to tuberculosis is emphasized in a report made public today by the public health service after an extensive investigation in many cities. One-sixth of all tuberculous cases, it declares, develop in cheap lodging houses, and one-fifth are traceable to occupational hazards and bad working conditions.

"The great factor underlying the entire problem," said the report, "is seemingly that of economic conditions." As example, statistics gathered in Cincinnati and Pittsburgh are cited. In the former cities' tenement districts tuberculosis morbidity was found to be three times as great as in the better sections and the average monthly income of 1,907 families in which cases were found was computed as \$7. Much the same condition was discovered in Pittsburgh, where nearly 20,000 factory workmen submitted to physical examinations in the course of the investigation.

The report also points out the varying effect of immigration on the increase of tuberculosis. It says: "Almost without exception cities with a higher percentage of Irish, Scandinavian and German stock and those in which the negro population is relatively large have a correspondingly high mortality, while those where the Italian and Jewish element is proportionately great have a low tuberculosis rate."

STATE MOOSERS TO PAY OWN EXPENSES

Say They Will Not Be the Guests of G. W. Perkins, Who Has Quarters There.

TO BE AT ANOTHER HOTEL

While the Nebraska delegates to the progressive party convention to be held in Chicago June 7 are not tied down by instructions of any kind, they are for Theodore Roosevelt for president of the United States. This is the assertion of John Lewis, chairman of the Douglas county committee and also member of the state executive committee.

Mr. Lewis asserts that present indications are that twenty-five to thirty of the Nebraska progressives will be at the convention. AMONG the delegates and committeemen who will be there are A. H. Bigelow, J. L. Kaley, H. W. Morrow, Nathan Merriam and John Lewis.

The Nebraskans have secured headquarters at the Congress hotel and there they will have their committee rooms during the convention. Mr. Lewis, asked concerning the publication in the Chicago papers that George W. Perkins had engaged nine floors of the Hotel LaSalle for the progressive party delegates and at a cost of \$40,000, said:

"This is something that I know nothing about. A long time ago we selected the Congress hotel as our headquarters and no change in the plans has been made. If such a change were made, I would know something about it. We are not to be the guests of Mr. Perkins or any other person. We will pay our own bills and with our own money."

"While the Nebraskans are not pledged to any candidate, if it does, that his nomination seems impossible. However, I don't think that time will ever arrive, for I believe that he will be nominated on the second or third ballot."

LONDON, May 12.—The Scandinavian-American line steamer Frederick VIII left Copenhagen this afternoon for New York. The steamer was crowded with passengers. Discharged Soldier Kills Two at Fort Leavenworth, Kan.

LEAVENWORTH, Kan., May 12.—Sergeant James C. Jackson and Miss Ernestine Brown, 22 years old, were killed and an unidentified woman was severely wounded this morning by William White, a negro, who had purchased his release from the army mounted service school at Fort Leavenworth, near here, yesterday. White escaped across the Missouri river in a rowboat.

Sergeant Jackson, who was attached to the mounted service school, was killed at the school's stables. He was shot through the heart. Soldiers who were with him pursued the negro, but White held them at bay with a rifle until he got into the rowboat.

White first shot the unidentified woman, who is known only as "Mirnie." He fired at her through a window in the home where she was employed. She was shot through the arm.

Miss Brown was shot and killed nearly two hours later at the quarters of Lieutenant William Green, where she was at work. She likewise was shot through a window.

Fifteen minutes later the negro appeared at the service school and shot Sergeant Jackson.

METHODISTS DEFER LABOR PROPOSITION

Proposal Designed to Commit the Church to Employment of Union Men Debated for Two Hours.

COMES UP AGAIN SATURDAY

SARATOGA SPRINGS, N. Y., May 12.—Action on a proposal designed to commit the Methodist Episcopal church to a policy favoring preferential employment of union labor was deferred until tomorrow after two hours of debate at today's business session of the Methodist general conference.

The question came before the conference on consideration of the report of the Methodist committee on social service, which contained the following recommendation:

"A sound principle to govern the church as an employer would seem to be that in recognition of the price paid by organized labor to improve conditions of industry and an account of its general contribution to the community welfare, a preference should be shown to it and every possible effort be made to work with it insofar as its methods are just and insofar as the rights of unorganized men are not infringed upon."

A proposal to amend the apostrophe by substituting the words "church universal" for "holly catholic church" caused a debate, in which proponents of the change asserted that the meaning of the phrase was misunderstood by young persons and by foreign converts to Methodism. The determination of the matter was left to the board of bishops. A special committee was appointed to consider the possibility of combining the Epworth league and the Sunday school activities.
