The Busy Bees

Busy Bees will wear a posy today honoring their dear mother. It is a pretity sentiment indeed, but the flower withers. Plea for Sparrow-- "Live and Let Live" dies and is gone. There is unother way in which little boys and girls can honor mother and lighten her many burdens. hey can do a kind deed for mother today,

'Actions speas louder than words," and the memory of a kind, thoughtful deed leaves an impress that is never quite forgotten, to say nothing of the satisfaction to the one who does the worthy deed,

Beginning tomorrow and continuing throughout the week, "Be Kind to Animals" week will be observed, culminating next Sunday in "Humane How will you observe 'Be Kind to Animals" week, Busy Bees? Why not write and tell the rest of the Busy Bees?

Ruth Ribbel, the newly-elected Busy Bee Queen, won the prize book this week. Florence Seward of the Blue side and Margaret Stewart of the Red side won honorable mention.

Little Stories by Little Folk

yard he saw nailed upon a high post a

Mr. and Mrs. Wren. By Ruth Ribbel, 1114 South Thirty sco-end Street, Omaha. Hius Side. When Mr. Wren flew into our back

cunning little house. He was looking for a safe place for him and Jenny to male their home for the aummer. He hopped around on all sides of the house, every now and peeping inside. After a while it entered this wise bird's head that this would be a good place for him and Jenny to settle down for the

They are now settled in their new home and Mr. Wren sits on a branch of a small apple tree and sings as his dear little mate builds the tiny nest. I hope they will come again next year. They will liave neighbors, as I intend to have a half dozen more wren houses put up. His food consists of animal food alone. An examination of fifty-two stomachs showed that 26 per cent of the contents was made up of insects, and only 2 per cent was vegetable food, including bits of grass, evidently taken by accident with the insects. His food consisted of grasshoppers and beetles; the re-

Wrens will rear in a season from twelve to sixteen young, so you see a family of these birds must cause considerable reduction in the number of insects in

mainder of caterpillars, bugs and spiders.

Your garden will not be complete with out a family of wrens.

We're glad you came to us, happy wrens.
We love your merry song.
We will miss you when your gone,
We cannot spare you long.
You are a loyous little bird,
We love to have you here,
To bring us all good cheer,
A gladder song we never hear!

(Honorable Mention.) Fire On School Grounds.

By Margaret Stewart, Aged 5 Years, Greenwood, Neb. Red Side. One day this spring our teacher and we pupils decided to clean up our school ground. It was a beautiful day, the aun was shining brightly, not a breeze seemed snakes. We killed five of them. Our to be stirring, so at the last recess our school closed April 28 and we had a picniteacher, Miss Maher, let us light a fire the last day. May 8 our German school on a pile of dead grads which we had starts. This is the first story I have recently raked up. When it got quite low we went into the school house to get our lessons. Two of the oldest boys stayed out to watch the fire. While they were at the south end of the school around the fire was all the time creepand was leaping very high. I looked out Maher, and then she let us go out.

We all carried water in off dinner pails and soon got it out, but there was still a big log burning. We carried some more water and then thought we would rest awhile. While we had been in studying the boys found five bull snakes that were over five feet long. We went down By there awhile. Two of them had gone away, but three were still there. The boys killed them and then went back to our log, but it was out. We went home feeling that it would be long remembered as an exciting day during our school

> (Honorable Mention.) Fleecy's Kittens.

By Florence Seward, Aged 10 Years, 1909 Corby Street, Omaha, Neb, Blue Side. I have often told you about Pleecy I am writing about her new kittens They were born April 11, 1918. I take them out every day for an airing. Fleecy is very proud of them. They all bave blue eyes. My sister and I are training them to do tricks. Two of them will follow me wherever I go. It's so nice today I guess maybe I'll take them out in the back yard. Well, I'll say a few more words, then I'll have to stop. I hope the new king and queen have a happy reign and no other country makes war with them. Well, I'll close, only I hope Mr. Wastebacket is just now

A Runaway.

calling dinner?
