

WESTERN WOMEN TO BE MET AT STATION

Delegates to the Biennial Convention at New York Will Pass Through Omaha.

STATE WOMEN THE NEXT DAY

Western delegates to the biennial convention of the General Federation of Women's Clubs in New York will be met at the station when they pass through Omaha by a committee from the local women's club, including Mesdames Mary L. Craig, L. Farnold, E. H. Hanson, C. L. Hempel and C. A. Sherwood, chairman of the house and home committee, and her assistants.

The western special will carry clubwomen from the Pacific northwest, California, Colorado and Utah. The train arrives in Omaha over the Union Pacific Friday evening, May 19, at 8:15 and pulls out again at 8:33 o'clock. Souvenirs of Omaha will be distributed.

Over fifty clubwomen are included in the Nebraska delegation, which does not arrive until Saturday evening at 6:10 on the Burlington. The same committee of Omaha women will greet these delegates, who will be joined by the Omaha representation to the biennial. The Nebraska women, who leave at 6:30 o'clock, will travel on the Iowa state special.

An interesting day has been planned in Chicago for the Nebraska delegation by Mrs. Anna Morey of Hastings. The Nebraska women will go to hear Dr. Guskulski preach at the Adelbertum church morning; will have luncheon at the Art Institute and visit the galleries; and will hear the Thomas orchestra in the afternoon. The Nebraska women will have headquarters at the Hotel Savoy in New York.

Brandeis' Services To Commission O. K.

WASHINGTON, May 13.—Reopened hearings before the senate judiciary subcommittee investigating the fitness of Louis D. Brandeis for the supreme court bench began and ended today with the introduction of testimony regarding Mr. Brandeis' connection as counsel with the merger last January of the United Drug company and the Hiker-Heaton Drug Store company, and a statement by Commissioner Harlan that Mr. Brandeis' services to the interstate Commerce commission in the 5 per cent advance rate cases were eminently satisfactory.

Hurrah! Gas Prices Decline One Cent

What were those crowds of motorists gathered on the street corners for yesterday, and talking so elated-like about? Very easy to answer.

The gasoline market declined 1 cent. The better grade now sells at 22 cents per gallon and the other grade at 20 cents per gallon.

Omaha oil companies attributed the decline to improved marketing conditions and increased crude supply.

SISTERS MAY CONTEND FOR HONORS IN TENNIS

The semi-final round has been reached in the Central High school girls' tennis tournament following matches played Thursday. Evelyn Douglas beat Margaret Redlow, 6-4, 6-1; Ruby Swenson beat Zoe Schalk, 6-2, 6-1; Ruth Swenson beat Jennie Helander, 6-0, 4-3; Evelyn Greene beat Edith Howe, 4-3, 6-0. Evelyn Douglas meets Ruby Swenson and Ruth Swenson meets Evelyn Greene in the semi-final matches.

The tournament has taken on somewhat of a family aspect this year with the Swenson twins, Ruby and Ruth, and Evelyn Douglas in the semi-finals. If Evelyn Douglas survives her next two matches she will face her sister for the championship.

There is a possibility that the sisters may meet in two different ways. If the Swenson sisters can eliminate their opponents they will face each other in the finals. If Evelyn Douglas survives her next two matches she will face her sister for the championship.

If Annabel Douglas successfully defends her championship this year she will obtain permanent possession of the loving cup. She has already won the title twice. If she loses her matches the cup will revert to the school and the new champion.

In the consolation tournament the following matches have been played: E. Frieda Schaefer beat Dorothy Darling, 5-7, 6-4; Hazel Gant beat Nadene Thompson, 7-5, 7-6; Helen Robinson beat Olga Schermerhorn, 6-0. Marjorie Alexander beat Jessie Tomant, 6-3, 6-2; Frances Jones beat Olga Mueller, 6-0, 6-0.

FIRST ROUND MATCHES IN CENTRAL GOLF TOURNEY

The first round matches in the Central High school golf tournament will be played at the Happy Hollow club this morning. The second round will be played as soon as the first round is completed.

The first round drawings are as follows: Joe Rosenfield plays Hugo Robinson, Virvan Hovon plays Harry Johnson, Warren Bean plays Harold Nelson, Lloyd Randall plays Frank Campbell, Richard Perry plays J. D. Pillsbury, Harvey Hudson plays Robert Drake, Albert Gladys plays Charles Allison, Alton Walworth, Horton and Hovon are being favored to compete in the final matches.

The first and second rounds will be for nine holes each, the third round and final for eighteen holes. The semi-finals will be played off on May 16, the final on May 17. The Tournament Club committee has offered a golf stick in the final matches.

BAILEY WINS IN DEBATE ON CHALLENGE OF SWEAT

One of the most notable debates held at Central High school this year was given recently, when Alvo Bailey, a member of the "Economic" Debating society, defeated his opponent, the same society, in a debate on the question: "Resolved: That the United States should subsidize and immigrate in excess its agricultural products."

Bailey is a member of the school debating team and as the question is nearly the same as the question and Bailey is on the affirmative side of the issue. Mr. Bailey was awarded the title of the debate being three to one against him.

New Bethphage Mission Home

Preparations are being made for the dedication on May 17 of a new building for the Bethphage mission in Axtell, the home of epileptics in Kearney county. The growth of this institution in four years has been somewhat remarkable. Rev. K. G. William Dahl has written an account of the progress made since the establishment of the undertaking February 12, 1912.

There were only fifty persons at the first meeting in the Bethphage Swedish Lutheran church, when the mission was organized. The object of the effort was to provide a home for those suffering from mental afflictions, especially the feeble minded and the epileptic. Nearly all attending the first meeting joined as members and paid initial fees of \$1 each. Other kind hearted persons were soon interested in the project, says Mr. Dahl, and the membership was increased to 200.

In May, 1913, the president of the association, went to Europe, partly to visit relatives in Sweden and partly to study the lower mission work of Germany. He hoped also to gather some money for the work begun in Axtell. The cause was presented before the churches of Sweden and collections for the Bethphage mission soon netted the handsome sum of \$1,118.97.

During the first year of the activity at Bethphage arrangement was made for the acquiring of forty acres of ground from a Mrs. Lizzie Scott. Mrs. Scott donated \$1,000 of the \$5,000 fixed as the price for the property, and the Bethphage mission paid \$1,000 out of its income for the first year. Many thought the purchase of the land an unwise step, for there seemed to be difficulties in the way of paying for it. Although notes of \$500 payable before 1920, were given to Mrs. Scott, there seemed to be no immediate chance to begin the erection of a building. The following spring there came pathetic letters asking how soon it would be possible to admit patients.

One letter was so very touching that it finally it was decided to rent a small house near the church and parsonage that had recently become vacant. The property was in bad shape, but generous people in the village gathered and fixed it up.

Soon the necessary furniture was also provided. Some gave chairs, others gave tables, curtains or other articles of furniture or household necessities. The little home was first opened in midsummer, and it was a proud moment for the Bethphage mission, when the patients could be admitted.

Before long another house near by was vacated and rented for the mission purpose. The first home was called Home Bethel and the second Serapta. Late in the fall of 1911 still another home was rented and occupied. This was called Home Nazareth. The membership of the mission continued to grow until at the close of the second year the number was 1,512. In the second year the income was \$2,526.22. There were patients in attendance from Kansas, Colorado, Illinois and Texas, as well as Nebraska.

Under the management of I. Bescher, who first went to the institution as a patient, a tin shop was started, with Mr. Bescher, who had at least partially regained his health, as manager. Coin cards, wrappers for the mission's monthly paper Guldex, frames for pictures and household articles of tin were some of the articles made at this shop.

At the end of the third year of the mission's activity the income had increased to \$3,002.12. Many patients have been cured. Several more houses have been rented for the use of the sufferers, there being now eight houses in use. Some are for the patients and some for the workers at the institution. One building is used for a shop and another for a laundry. The building about to be dedicated will have cost about \$20,000, and will provide homes for thirty patients and the attendants. Other buildings are planned as fast as means are provided and the necessity increases. It is probable that other buildings will be under way before the end of the year.

Altogether forty-seven patients have been admitted. There are now twenty patients in the homes. Some are epileptic and some are feeble-minded, invalids, old or feeble. The managers are optimistic regarding the future.

Encouraging letters are constantly received promising financial help. The interest is growing in the vicinity also. Plans are under way to plant thousands of trees and it is hoped to make the institution grounds the beauty spot of the community. There will be nice sidewalks and trees on both sides just as soon as the means can be provided.

But there are other things that are sorely needed. Some of these are comforts, poliochases, towels, table linen and many such articles of general utility. The house mother, Sister Aurora Swanson, will be glad to answer any questions in regard to measurements, etc., of the things needed.

Another project is the placing in every

LEADER OF THE BETHPHAGE MISSION WORK.

Rev. K.G. Wm. Dahl

home a Bethphage mission bank. These are to be emptied February 19 every year. Up to date about 1,600 such banks have been placed in various homes. It is hoped to increase the number to 10,000. Mr. Dahl is most enthusiastic in behalf of the enterprise, but as the institution grows he only sees a greater need ahead. Among other things who have done much for the enterprise, he wishes to pay special tribute to the Ladies' club of Axtell.

HARRY SHEPARD RUNS BIT AHEAD OF OWENS

Harry Shepard defeated "Billy" Owens, 109 to 96, in the third game of the city pocket billiard tournament in one of the fastest and most exciting games seen in a long time in Omaha last night.

The next game will be played at Ernie Holmes' new parlors, Monday night, May 15, at 8:30 o'clock, between Harry Shepard and Jess Reynolds.

MACHINE CREATES FRIGID CURRENT

Refrigerating Apparatus in Use at Dressers' Took First Prize at Recent Panama Exposition.

USED FOR FUR STORAGE

Almost every person passing the immense new Dresser Dry Cleaning and Dyeing Plant at 2211-2217 Farnam St., is sure to stop, gaze in the display window, and ask: "What is that funny looking pump-engine sort of affair in the window?"

And here's the answer: That mechanical device is a marvel and took Grand Prize at the Panama Exposition. It creates daily an equivalent of six tons of ice, maintains it at a temperature of 24 degrees above zero, which is 8 degrees below freezing, and sends it upward 159 feet to the Dresser Concrete-Steel Reinforced Fur Storage Vault on the top-most floor of the Dresser plant.

Any furs you may store here are thus kept at a temperature nearest "natural" for furs. At this temperature no moth or other insect can exist.

Of course there are many other features connected with this modern freezing device, but they are very technical and wouldn't sound interesting in print. But step into the Dresser plant and posted operatives will be pleased to explain all its workings.

This prize winning refrigerating plant is merely one of the reasons why you should send furs to Dressers for storage; the other reasons are safety against fire, or loss by damage or burglary. You are protected absolutely here and get a signed bond to that effect.

Better phone Tyler 345 and have a Dresser man come after your furs. Or, leave them at the plant, at Dresser, The Tailors, 1515 Farnam St., or, at one of the Dresser branches in the Brandeis or Burgess-Nash stores.

Dressers pay parcel post or express charges one way on all out of town shipments.

MOUNTAIN COUNTRY ROCKS IN VIOLENCE

Southern Idaho and Eastern Oregon and Western Montana Tremble from Earthquake.

LASTS LESS THAN HALF MINUTE

BOISE, Ida., May 13.—Southern Idaho as far east as Twin Falls, and eastern Oregon, as far west as Ontario, and western Montana experienced a violent earthquake shock between 7:26 and 8 o'clock tonight. Late reports received here are to the effect that no serious damage was done. The shock was rapid.

In Boise a chimney of a business block in the heart of the city was shaken down, and in other buildings plaster was broken from the walls. Dishes fell from tables and plate-rails, and tables, chairs, beds and desks were moved.

More Curiosity Than Fear. Residents exhibited more curiosity than fear over the disturbance. Reports from the surrounding territory are to the effect that the shock was distinctly felt, but that no particular damage was done. The great Arrow Rock dam, twenty-two miles above this city, showed no signs of having been disturbed by the movement of the earth.

From indicated sections came reports that animals had been damaged, but beyond repair. The earthquake last fall split a steel beam across the New York canal, one of the largest in Idaho, and it required weeks to repair it.

Intruments at the post weather bureau office indicate the quake was confined to the inter-mountain country and that the duration of the quake was less than a half minute.

At Weiser, Idaho, the quake was exceptionally violent. A new gas well showed remarkable increase of pressure after the shock. The flow caught fire and hundreds of people watched the shooting flames.

Severe shocks were felt at Anaconda, Mont. No damage was done.

Crops Not Hurt So Much. GRAND FORKS, N. D., May 13.—Reports received today from northern North Dakota indicate that the damage to crops from the recent windstorm will not be as great as first estimated. Twenty-five per cent is regarded as a fair degree of loss for the state. Farmers will have to re-sow part of their crops, while others plan on harrowing.

Crew of Wrecked Zeppelin Set Free; No Law in Case

BERLIN, May 13.—(By Wireless to Sayville.)—"According to a dispatch from Christiansia," says the Overseas News agency today, "six men of the wrecked Zeppelin L-30 have been released in view of the lack of international regulations regarding airships. The Norwegian government decided to follow the law governing the shipwrecked crews of beligerent warships."

CHILD'S 2-PAGE SWING. Just like illustration. Worth \$4.95. Sale price... **\$4.95**

That Tired Feeling

shows something wrong. If you get up in the morning dull, aching all over, with heavy head and bad taste, you need a good tonic to invigorate your system, clean away the waste winter has left, and put you in good trim.

PERUNA is Invigoration

Let it restore your irregular appetite, dispel all catarrhal conditions left over from bad weather, start your heart to pumping good rich blood to every organ, and you will be energetic, lively and healthy. Moping around never got you anywhere but to a sickbed; abundant, joyous health makes all tasks easy.

Then Why Suffer

You could not read all the things sick people made well have said about Peruna in the last half century. Thousands have told of its benefits. Why shouldn't a sensitive man accept their verdict, take it himself for all catarrhal conditions, and rid his system of stagnation?

Watch in the gutter. Peruna is invigoration. Taken from your own experience, too.
