Good Roads Campaign in Cass.

Weeping Water, Neb., May 16.—(Special.)—One hundred thousand yards of dirt are to be removed from the roads of Otoe county during the year, according to plans of the Board of Commissioners, who have just let the contract for the year's grading. The principal item of good road making in Otoe county is the cutting down of steep hills. It is an expensive business, but makes an almost unbelievable improvement and in most cases the merchants in the town nearest the grading are liberal contributors in raising private funds to assist the county in the work. The graders are now at work near Berlin and will move from there to Palmyra precinct.
