

BUILDERS WILL NOT GRANT CONFERENCE

Exchange Turns Down Request of Common Laborers to Meet with Leaders.

PLASTERERS HAVE NO DEMANDS

The Omaha Builders' exchange has refused to grant the conference the leaders of the strike of common laborers have asked. This request for a conference was made a few days ago, but the builders flatly refused to appoint and instruct a committee to meet the labor delegates.

The employees of the Electric Light and Power company, working at the job of putting in the big conduit on Leavenworth street, though they were off the job for nearly a half day several days ago, when the strikers asked them to come out with them, are again at work, so that the strike thus far continues to be confined largely to the labor on building operations.

O. C. Hardy, heading a committee of the plasterers' union, says there is no truth in the report that the plasterers are uneasy and that they contemplate making some demands at this time.

The carpenters have just made a three years' contract with the builders and thus have their grievances settled for a period of at least three years.

Milwaukee Gives The Manufacturers a Broader Field

Iowa territory, west of Manilla, and South Dakota, North Dakota and Montana territory is to be opened to the manufacturers of Omaha, through the action of the Chicago, Milwaukee & St. Paul railway in making Omaha an intermediate point on its main line.

The new tariff, as just has been published, showing that this has been done. Arbitrary differentials have always been held in this territory against Omaha and favoring St. Paul and Chicago. This refers to carload lots of all kinds, except fruits and vegetables, but it affects particularly structural steel, inasmuch as the raw product can be finished in Omaha and shipped on without charge for reconsigning.

Omaha Receives Engravings of George Washington and Ben Franklin

Several thousand beautiful new pictures of George Washington and Benjamin Franklin have been received at the local postoffice for distribution to the people of Omaha. These engravings are prepared by the United States government and are said to be splendid likenesses of the two great patriots. They were made by the government engravers. A whole carload of the engravings was received. They may be secured by calling at the postoffice. A nominal price of a few cents each has been placed upon the pictures so that they shall come into the hands of people who will appreciate them and will not waste them. Engravings of George Washington can be secured at 1 cent, 2 cents, 3 cents, 4 cents, 5 cents and 6 cents. Engravings of Benjamin Franklin can be purchased for 8 cents, 10 cents and 15 cents each, according to color. Each engraving has the price stamped upon it. There is also glue on the back of them, so that they may be pasted to the wall or fastened on a letter. In fact, the engravings are especially popular for placing on letters and packages. For example, one of the engravings of George Washington (costing only 2 cents) will, if placed upon a letter, carry that letter with safety and dispatch to Kennebeck, Me., Walla Walla, Wash., or to any of 60,000 other postoffices. Useful, you see, as well as ornamental, are these beautiful pictures. One carload of postal cards has also been received. Also a carload of stamped envelopes. These shipments constitute the quarter's requirements of postal supplies for this office. They are valued at nearly \$500,000.

Every Woman's Duty

in matters pertaining to the family table is to decide not only what is best for herself, but for the husband and children as well.

Take the table drink, for instance; the housewife may like her tea or coffee. She knows that coffee and tea are harmful to many, but she uses her favorite beverage in moderation, and thinks it doesn't harm her.

But there's John. He's irritable and nervous, perhaps his irritation and sleeplessness may be due to tea or coffee.

Again, almost everybody knows that tea and coffee are especially harmful to the little folks. The next thing, then, is "what to serve as a wholesome table beverage?"

In many families the quick and happy answer is

INSTANT POSTUM

Here is a delicious, "coffee-like" beverage, as hot and savory as high-grade Java coffee, yet pure and free from the drugs, caffeine and tannin, which often disagree with health and comfort.

This pure, delicious food-drink is made instantly by using a level teaspoonful in a cup and adding hot water, also sugar and cream to taste. Everyone can drink all they desire without the slightest chance of harm.

Instant Postum, a real American discovery, is made of prime wheat and a bit of wholesome molasses, blended and roasted just like coffee. Its flavor, purity and wonderful goodness have won tremendous favor everywhere.

City Has Chance to Save Money if Heat Is Bought Outside

The city council adopted a resolution, offered by Commissioner Jardine, asking for bids for heating the city hall. The records show that during the heating season just drawing to a close the city has paid approximately \$5,000 for heat for the municipal building. It is estimated that the heat can be furnished by an outside party for 30 per cent less.

"We can save about \$6,000 expense, which would be necessary in the remodeling of the city hall, to say nothing of the decrease in cost of the heating itself," said Commissioner Jardine. He also referred to the elimination of dust and dirt and the saving of space in the basement of the city hall.

In the remodeling of the city hall the saving of space now occupied by the boilers will be an important factor. In every way the proposed plan of buying the steam from an outside

party would be more satisfactory and more economical, according to Mr. Jardine.

Girl Faints, May Have Been Drugged

Marie Brown, Flaming hotel, fainted at Sixteenth and Farnam streets Monday evening and was taken by a companion, Hazel Woolsey, 636 South Sixteenth street, to the hotel. Dr. O. E. Lyman, who was summoned, asserted that the girl was suffering either from the effect of some drug or poison. She was removed to the Lister hospital. Miss Woolsey had accompanied the Brown girl to several downtown drug stores for medicine which the latter wanted, and in one establishment a clerk dressed a cut on her hand, but did not give her the medicine. After this the girl went to a cafe for a bite to eat, and then walked to Sixteenth and Farnam streets, where Miss Brown was taken ill.

Splendid Laxative for Elderly People

Has been Prescribed by Well Known Physician for Many Years.

MRS. RACHEL ALLEN Pepsin for fifty cents a bottle. It is a splendid remedy and should be in every home. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 44 Washington St., Monticello, N. Y.

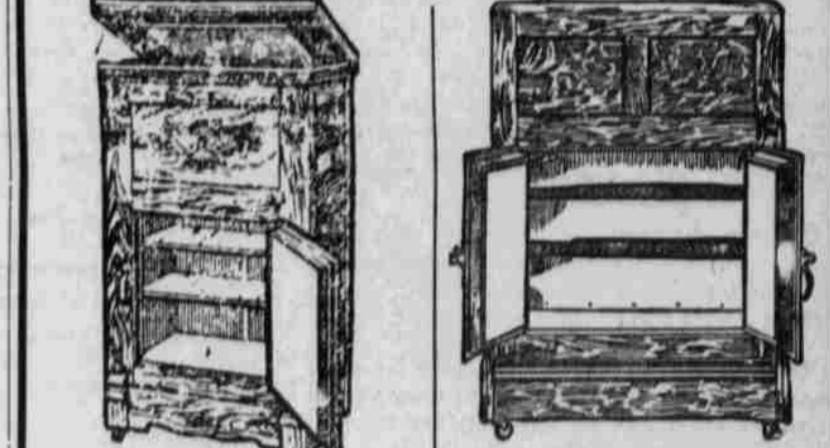

The infirmities of age are especially manifest in a tendency to constipation, and call for treatment that will afford relief in an easy, natural manner. The rapid action of cathartic remedies and purgatives that shock the system should be avoided, more especially as the relief they offer is only temporary and is usually gone than offset by disturbances to the vital organs caused by their violent action.

Nearly thirty years ago Dr. W. B. Caldwell, Monticello, Ill., prescribed a compound of simple laxative herbs that has since become the standard household remedy in thousands of homes. It acts easily and gently, yet with positive effect, without griping or other pain or discomfort. Mrs. Rachel Allen, Galena, Ill., is seventy-one years old, and after using a bottle of Dr. Caldwell's Syrup Pepsin, wrote that it had done her a world of good, and that she intends to keep it in the house always.
