INTERNATIONAL PROGRAM OF LABOR

(Continued From Page One.) possible for a few strong nations to dictate the policies and development of the world.

"It must be a program that will give the masses greater influence in those decisions that plunge nations into war; that is to say, a program under which the power of autocracy and absolute secret diplomacy cannot, over night, rush a nation into war before the citizenship of the nation has a chance to express itself.

All Must Have Voice.

"It must be a program under which all the international machinery that is created will afford a medium through which all classes of society can voice their judgment and register their demands.

PRESIDENT MAY SOUND KEY NOTE FOR END OF WAR

(Continued From Page One.)

ma's independence, Mr. Taft stated it meant that the United States is under obligation to make war to defend Panama.

"This duty can only be discharged through the action of congress in declaring war," he asserted. "Does that deprive congress of its power to declare war? It seems to me the question answers itself."

Would Modify Monroe Doctrine.

Under the plan for world peace as League to Enforce Peace, the United States might have to relinquish some of its older interpretations of the Monroe doctrine in the event of a dispute with a European power.

"Plainly therefore the United States is bound already under these and other treaties, of which there are a large number, to submit disputes involving the Monroe doctrine to a body which would meet the requirements of the platform of the League to Enforce Peace.

May Have to Abandon It.

"Further it may be said, if, when in dispute, the Monroe doctrine is applied by the United States is not a policy upon which the United States is willing to await hearing, consideration and recommendation, then the United States has not acted in good faith in signing these recent treaties, and it may also be said if the American policy as embodied in the Monroe doctrine will not stand the test of investigation and consideration it is time for the United States to be determining why it should longer give to the doctrine its support.

"As the plan of the league for submission of controversies such as might arise over the Monroe doctrine has, on the initiative of the United States, already been embodied in treaties with a greater part of the states of the world, such a plan cannot be regarded as impracticable without condemnation of the judgment of those who are in control of the affairs of the world, and this judgment the League to Enforce Peace, having the well being of the world in view, does not criticize and condemn, but supports and commends."

In San Francisco Desperado Fights Fifty Policemen

San Francisco, May 26.—Barricaded in a boat house on the edge of San Francisco bay, a lone desperado fought a half hour gun and revolver battle today with fifty policemen, who surrounded his lair after he had killed Police Sergeant John J. Moriarity.

The battle was staged from the land and water with a boat load of policemen raining lead upon the house boat and another squad shooting from sheltered land positions about the docks.

The entrenched bandit poured a steady stream of bullets at his uniformed enemies until fatally wounded. The police found many shot guns, rifles, automatic revolvers and stores of ammunition.

The name, "M. E. Jones," was found on the tailor's label on the dead bandit's coat.

The bandit had taken refuge in his house boat, after he had killed Moriarity, who was arresting him for passing counterfeit money on street cars.

Dr. Mayo Rushing to Hill's Bedside on Special Train

St. Paul, Minn., May 26.—Dr. William Mayo, surgeon of Rochester, Minn., is being rushed to St. Paul on a special train at attend James J. Hill, who is ill at his home here.

Mr. Hill, who has been ill for ten days, is said to have taken a bad turn this morning. L. W. Hill, president of the Great Northern railroad, went in a special train this morning for Dr. Mayo. They are expected in St. Paul about 5 p. m.

Mr. Hill was stricken May 16 with a bowel complaint, which later developed complications.

It is understood Dr. Mayo was called in case an operation should become imperative. Attending physicians are loath to advise an operation on account of Mr. Hill's advanced age. He was 78 years old a few months ago.

Dr. Mayo four days ago examined Mr. Hill and said the complaint was a common one and that he would soon recover.

Mr. Hill's present condition is attributed to bad teeth, poison from which is said to have reached the bowels.

Dr. James S. Gillilan, attending physician, admitted that Dr. Mayo was coming to St. Paul, but denied that Mr. Hill's condition is serious.

HERBERT UPDIKE SUED IN CHICAGO

Cabaret Singer's Waiter Husband Files Suit For Alleged Alienation of Affections.

PAPERS SERVED IN COURT

Chicago, May 26.—Herbert Updike, who with his brother figured in a conspiracy to kill their parents at Oak Park last winter, was served with papers in a suit for \$25,000 damages for alleged alienation of the affections of Nellye de Onsonne, a cabaret singer, filed by her waiter husband, Louis Hicks, when he (Updike) came into Judge Kersten's court to testify at the hearing of his suit to annul his marriage.

Accepting service and stepping to the witness stand, young Updike testified that he married the singer at Crown Point January 8, last, and that he left her on January 14. Young Updike, said to have been aware that the singer had a daughter, declared, however, that he did not know that she had another husband at the time of his marriage until a few days after he left her.

A certificate issued to the woman and Hicks in September, 1914, was produced by a clerk of the marriage licence bureau. Following which Attorney Fred Owens stated that he had looked up the court records and could find no record of Hicks and the singer ever having been divorced.

Nelson B. Updike of Omaha, a cousin of the plaintiff, testified as to a conversation he had with the singer after her separation with Herbert Updike. He averred that she practically admitted that she had another husband and that her marriage was a bigamous one.

Mr. Updike then testified that he "warned her to be careful or she would get into trouble."
