June Is the Month of White Sales

These sales have come to be fixed institutions, and millions of people wait for them yearly. You have read about the use or abuse of cotton, how instead of using for man's comfort and woman's adornment, millions of bales are being turned into the making of explosives to kill. When you hear, therefore, of advances in cotton materials of 20, 30, yes, 40 per cent, you can understand, for "there is a reason." We were lucky enough to secure a liberal stock at old prices, bought, delivered and paid for before the soaring started. This enables us, therefore, to "Stecherize" profits and prices on most articles made of cotton. That is, we will use the scissor hold (made so famous by Nebraska's son) and will, as it were, squeeze down the prices and crush the advances so that for you this will be a fortunate time to buy.

And Now Comes "The Grand Prix"

We remember in the days of our youth, while sojourning in Gay Paree, wending our way to Auteuil on the first Sunday in June to see the races. How prone we all are to do in Rome as the Romans do. Are not we all largely creatures of circumstance and environment? All the world seemed to be interested in horseracing on that glorious June day. And let us confess, we didn't feel a bit sinful. It was a sure enough Grand Prize Event. Our sale of white yard goods should be almost as great a drawing card.
