

REGULAR THING IN CHILDHOOD

Symptoms Conspicuous Among Children, With Only One Sure Treatment.

Although Meredith Nicholson is best known as a writer of "best sellers," especially his latest novel, "The

Proof of the Pudding," his literary accomplishments are not limited at all to published works. Perhaps if his sons were asked what they regard as their father's masterpiece, they would submit the following note which Mr. Nicholson recently sent to the boys' teacher: "Dear Sir: It is with deep regret

that I am obliged to report that my two boys, Meredith and Lionel, were taken seriously ill today, just after luncheon. We hurriedly summoned the doctor, who after a brief examination, pronounced their malady well-marked and clearly defined circumscribed. When I was a lad, away back in the consulship of Plancus, I

too suffered every spring from this painful disease. It is not uncommon, I understand, and is particularly prevalent in its manifestations upon youth about the time the green comes back in the trees and the lilacs bloom in the dooryard. "Our physician prescribed the usual remedy in such cases—an afternoon

under a large tent, in close conjunction to elephants, zebras, rhinoceri, hippopotami and the common or garden ostrich. "I am glad to say that this treatment proved efficacious and that both boys are now in prime condition. "In these circumstances I beg that you will excuse their unavoidable and

regrettable absence from school. "Yours sincerely, "MEREDITH NICHOLSON. "P. S. The boys had a bully good time." Trout's Revenge on Bird. Greed seems to have wreaked vengeance on avaricious kingfisher that plied the Taquima river near Elk City, Ore., according

to Wilmer Nelson, who lives on the bank. The boy netted the bird alive and bring to the surface an unusually large trout. Then ensued a battle royal, the fish trying to escape and the bird trying to swallow its prey. When the kingfisher appeared disoriented the boy went out in a boat, picked up the bird, dead, with the big trout stuck in its gullet.—Portland Oregonian. THIRD FLOOR.

The Troubadour Player Piano Leads All At It's Price

INGERSOLL conceived the idea and built a Dollar Watch and a fortune at the same time. FORD saw that a car priced within the reach of all was the salvation of the Motor industry and was compelled to cancel orders during a year when thousands of Motor manufacturers failed. BUT THEY DID NOT DISREGARD QUALITY TO OBTAIN A LOW SELLING PRICE. THE TROUBADOUR PLAYER is not the only Player Piano that can be purchased at its price, but it is the only one where the principles, universally conceded to be the best, are followed as thoroughly as in the most expensive instrument built. We can convince you that it has no equal on the market today among Players at the same or near the same price, and we will demonstrate this to you if you will call here and be perfectly satisfied to have you use your own judgment after that, making your purchase wherever you think your money will buy the biggest value. ONE PRICE—Third Floor—ONE PROFIT
