SISTERS WIN HONORS WITH THEIR PENS—Best writers in two Omaha high schools, the Central and the Commerce high.

Irene Tauchen has been declared to be the best writer in the High School of Commerce, during this school year. Angeline, here sister, is the best writer of Central High school. Last school year Angeline was the best writer in all of the

CHILDREN'S DAY AT THE FIRST CHRISTIAN CHURCH

The First Christian Church Bible school observes Children's day with a pretty and instructive program, by which the children, who have been thoroughly prepared, will tell about the China folk and the progress the missionaries are making in Christianizing that great nation.

CHILDREN'S DAY IN CHINA. "Why Children's Day," J. R. Cain, Jr. "Over the Sea," primary department.

Story, "The Apostles from China," George Butler. Recitation, "Commendments for a Party," Martha Graham.

"A Visit from Miss Kelley," Junior girls. Recitation, "That Little Girl from China," Norma Mach.

Recitation, "Bobby's Prayer," George Pettis. "Flowers for Children's Day," primary girls.

Song "Come Over and Help Us," school. "Oh Their Mother," A. B. Palmer's boys. Story, "She Died for China," Marie Joder.

Recitation, "What They Do in China," Helma Gifford. Drill, "The Emblem of All Nations," Junior boys and girls.

Recitation, "What Has it Meant to You?" Wilkie Hauber.

Recitation, "What Has it Meant to You?" Wilkie Hauber.

Recitation, "What Has it Meant to You?" Wilkie Hauber.

Recitation, "What Has it Meant to You?" Wilkie Hauber.

REAL ESTATE MEN NOW OWN PICTURE

Have a Photograph and Now All Needed is a Ten-Story Building to Complete Home.

IT'S IN A FRAME TO OWN ONE

The Omaha Real estate exchange now owns a picture.

It is a real picture, containing a real frame and glass. Some day when the exchange has an exchange building, it will at least have a picture to adorn the walls.

There was once a backwoodsman in the Blue mountains of Pennsylvania who had repeatedly promised his son to get him a watch. Time after time he went to town and returned without the watch, only to find his expectant son waiting for this precious time piece.

At last the old woodsman got tired of being asked for the watch every time he returned home. So while taking on considerable Scotch whisky in town one day, he chanced to remember his promise to the boy. He drew his penines and dimes out of his pocket and counted them. No Scotch whisky had taken most of his change. He hadn't enough to buy a watch that day. But he went to the jewelry store and looked at watches, chains, keys, charms and other accessories. He made a purchase, and started for home.

Buy the Key.

The son met him at the door. "Here," said the backwoodsman, as he drew a watch key out of his pocket, wrapped in tissue paper, "I didn't have money enough to get a watch today, so I bought the key. I'll get you a watch to fit it some day."

And so the Real Estate exchange, while it hasn't money enough to build a new building as yet, it has a picture to put on the walls of that building.

John G. Willis presented the exchange with the picture at the last meeting. It is a photograph of a

crowd of Omaha boosters on stage coaches in the Black Hills country, and represents the first trade excursion out of Omaha. The trip was made some thirty years ago.

Mandan Park, South Side, Opens Today

South Siders intend to make the opening of the pavilion in Mandan park a gala affair today. This building is one of the substantial improvements made in the South Side park system under the Greater Omaha regime. The popularity of this pretty park is increasing with leaps and bounds.

City Commissioner Hummel, Mayor Dahlman and some of the other city officials will attend this opening which will not be very formal. A band will play a program of twelve numbers during the afternoon. There will be many family picnics and between times some of the city officials will say a few words.

The finest river view in Omaha may be seen from the top of the bluff at the east side of Mandan park. A bend of the river at this point adds charm to the view.

Former Omaha Girl Dies at San Diego

Word has just been received here of the death of Mrs. Thomas Hamilton Friday afternoon at her home in San Diego, Cal.

Mrs. Hamilton was formerly well known here as Margaret Williams, daughter of Mr. and Mrs. L. B. Williams.

She is survived by her husband, a daughter, Mrs. Lloyd Grappin of Los Angeles; a sister, Mrs. George L. Barpey of San Diego; and two brothers, Oscar B. and Ed B. Williams of this city.

It takes but a minute of time to save dollars when you read The Bee Want Ad columns.

OMAHA REALTY MEN TO ORGANIZE SOON

Decide Definitely What They Want the Organization to Be When Perfected.

HOPE TO START BUILDING FUND

The Omaha Realty Corporation is one step nearer organization.

The members of the Real Estate exchange have decided definitely on what they want this organization to be.

The combined-wisdom of the various real estate companies and real estate men in the city is to be utilized in the corporation's investments and real estate activities.

The company is to be incorporated for \$25,000. The sharps are to be non-transferable. In case of the death of a shareholder the share is to be purchased back by the corporation and resold to another party.

A certain per cent of the stock is to be held by the Omaha Real Estate exchange, or Omaha Real Estate board, as the exchange is to be known shortly. A percentage of the earnings of the corporation is to be turned over to the board each year and dividends paid on the shares out of the balance. The board hopes thus to be able to make enough money in the course of a few years to build a Real Estate board building. The real estate men have caught the fever since the grain men have built so handsome a structure.

"BAD SMELL" COMPLAINT COMES FROM MUSE THEATER

Complaint has been made to the police by Manager Shirley of The Muse theater against vandals who come into the movie house and break "stink bombs" which give off terrible odors.

To Unveil Tablet To Late John Dale At Church Today

Beginning at 11 o'clock the regular morning service at Hanscom Park Methodist church will be devoted to a memorial in honor of the late John Dale, founder of the church.

Bishop Frank M. Bristol will deliver the address, at the close of which a bronze tablet will be unveiled near the pulpit. The bishop will take more than a perfunctory interest in this event, because it was through the influence of Mr. Dale that he joined the church in Kankakee many years ago. Mr. Dale was working in a bank at the time he resolved to win Frank Bristol to the church. A close friendship between the bishop and Mr. Dale existed through the years.

Decorations of palms and ferns and special music under the direction of Prof. W. B. Graham will mark this memorial service.

KRUG PARK FLOWERS MAKING DECIDED HIT

Many of the patrons at Krug Park have made pleasing comments to the management of the park pertaining to the unique arrangement of the flower beds this year. The park gardener spends most of his time standing near the favorite flower bed just to listen to the exclamations of delight passers-by give out.

The flowers were planted in the design of a star. Seven stars being used in all, each star just a bit smaller than the other. The completed bed makes a round circle enclosing graduated sizes of stars. The colors shade into one another in a most pleasing way. Each star has eleven different species of plant in it.

Mid-Year Model 257 Cars in One

\$1325 f. o. b. Racine With 26 Extra Features

Mr. Bate's 17th Model

With All His 700 Improvements—His 26 Extras His 73 New Touches

This Mid-Year Mitchell Shows all that John W. Bate has done, in 13 years, for the motor car itself. It is the final result of his genius for efficiency. And every man should see it.

John W. Bate is one of the ablest men who ever entered Motordom. He has for 30 years held the topmost place as an efficiency engineer in machinery.

He has devoted 13 years to the Mitchell. He created this ideal \$5,000,000 plant. He has designed 17 Mitchell models. And he and his staff have worked out in this car more than 700 improvements.

Any motor enthusiast who fails to see the result is doing himself an injustice.

More Than Economy

Don't think of efficiency as mere factory economy. It means more than that in car building.

Mr. Bate has cut our factory costs in two. He has built and equipped here a 45-acre plant which stands as the model of Motordom.

You see the result in the matchless value offered in this Mitchell. You see it in the 26 costly extras which other cars omit. No other factory in America could give you such a car at our price.

But the car itself reveals Mr. Bate's genius in a far more appealing way.

A 3000-lb. Giant

Mr. Bate and his experts have developed a car here which weighs under 3000 pounds. Yet the car is a marvel in power and performance.

Its parts will average 50 per cent over the highest strength requirements.

And its records seem to prove it a lifetime car, as Mr. Bate says that it should be.

The chassis is simplicity itself. There is hardly a casting in it. Instead, there are 440 parts which are made of drop forgings, or stamped from toughened steel.

The margins of safety are extreme. The steering parts are oversize, and made of Chrome-Vanadium steel. Yet the ball bearings in it make this the easiest-driving car.

This car alone has Bate cantilever springs. Not one has ever broken. These 52-inch springs make rough roads seem like pavement.

Some 30-Year Records

One Bate-built Mitchell has already run 218,734 miles. Six of them have averaged 164,372 miles each—over 30 years of ordinary service.

That is what Mr. Bate's efficiency

\$1325 F. o. b. Racine

For 5-Passenger Touring Car or 3-Passenger Roadster 7-Passenger Touring Body, \$35 Extra High-speed economical Six—48 horsepower—127-inch wheelbase. Complete equipment, including 26 extra features.

means to a man who buys a car to keep.

What it also means is shown by the fact that great engineers buy the Mitchell when they buy cars for themselves. Your Mitchell dealer has a list of them—men noted the country over. These experts find in the Mitchell car mechanical perfection.

26 Costly Extras

In the Mid-Year Mitchell you will find 26 features which in other cars cost extra. Things like a power tire pump, reversible headlights, light in the tonneau, an extra-price carburetor, a handy gasoline primer, etc. Your Mitchell dealer will show you 26 such features which we pay for by factory savings. And every one is something you want.

73 New Beauties

This Mid-Year Mitchell was completed after the New York Shows, where all this year's new models were shown. Our experts and designers examined there 257 new-style cars. And they have embodied in this Mid-Year Mitchell all the best ideas from all of them. So you will find here the most complete car on the market.

Go see this model. You will find in this one car more attractions than in all other cars together.
