Attendance Officer Carver of the public schools wants summer work for a worthy 14-year-old boy. Carver's commendation and appeal is as follows: "I have investigated this

case thoroughly and do not hesitate in recommending this boy. He is anxious to help his parents this summer. He is bright and willing and is deserving of help. I am sure some employer will offer him a job. He prefers work of a manual nature rather than office work. It is an op-

portunity for a man who may need a boy this summer."
