The Luther league of the English Lutheran churches will hold the Nebraska state convention in the Benson English Lutheran church Wednesday and Thursday. The session opens at 8 o'clock Wednesday evening with an address of welcome by Miss Agnes Tonder. The response will be by Miss Edith Tegtmeyer, state secretary. Rev. C. B. Harman of North Platte delivers the main address. Thursday morning the session will be opened at 9 o'clock by Rev. C. H. Schmidt of Papillion. During the day papers will be read by Miss Theda Hansen and Miss Margaret Satter of Falls City and Mrs. Michelman of Grand Island. Rev. C. H. Lewis delivers the address of the day and Rev. E. V. Nussbaum of Bennington leads the devotionals. Throughout the session music will be furnished by the church choir, assisted by Mrs. O. A. Melcher and Miss Christine Paulson. At the closing session Wednesday evening Rev. O. D. Baltzy will speak on "Acceptable Service" and Rev. C. E. Sparks of York on "Promotion of the Young People's Work."

Unitarian services will be resumed in Omaha October 1, when Rev. Robert French Leavens of Fitchburg, Mass., comes as the regular minister of the First Unitarian church.

Bell, General Superintendent—At 11, "Divine Healing," text, "Go Thy Way for This Time." At 7:30, "Christian Mental

How To Keep Young

How to keep young is a subject of interest to all. At the present time a considerable portion of the population of civilized countries undergo tedious, troublesome and even painful procedures for the purpose of securing only the appearance of youth. What does it mean to keep young? It means, essentially, to keep healthy; to keep in the open air as much as possible, don't worry, sleep enough and eat and drink what agrees with you, thus postponing as long as possible the changes due to old age. Old age must come eventually, but if changes belonging to it come before their time, they mean disease. To delay the effects of old age and to help bring back the vivacity of youth, many medical men prescribe Dr. J. C. Duffy's Pure Malt Whiskey as a reliable tonic stimulant. It is an absolutely pure distillation of thoroughly malted grain, rich in vitalizing carbohydrates; with practically every trace of fusel oil and other foreign substances removed by a special process. Duffy's Pure Malt Whiskey, in temperate doses as prescribed, gently stimulates the stomach and kindred organs to healthy, normal action, promotes digestion, and assists in the assimilation of food. It enriches and invigorates the blood, enabling it to rid the body of stored up poisons and secretions. Thus, it is really a medicine for all mankind which benefits the young and old. That's the reason why so many people of all ages "Get Duffy's and Keep Well." Sold by most druggists, grocers and dealers, \$1.00. If they can't supply you, write us. Duffy household booklet free. The Useful Malt Whiskey Co., Rochester, N. Y.

Supervisors Start in Playgrounds Monday

Beginning next Monday morning, all public playgrounds will be open from 10 a. m. to 9 p. m. Supervisors will attend a meeting at 9 a. m. Monday, when Commissioner Hummel, Superintendent English will outline the season's work and give instructions. Explanation is made that girls and women may use the new swimming pool in Riverview park at any time, but on Tuesdays and Fridays the pool will be reserved for the exclusive use of the fair ones.

PERSONAL PARAGRAPHS.

Persistence is the cardinal virtue in advertising; no matter how good advertising may be in other respects, it must be run frequently and constantly to be really successful.

ALAMO ELECTRIC FARM LIGHT PLANTS ARE MODERNIZING HUNDREDS OF FARM HOMES

They are doing for the farmer what the big city plants are doing for the city man. The Alamo Electric Farm Light Plant comes to you in one compact box, fully tested and ready for service. The switchboard, battery and generator are mounted on one base. You can install it and have lights in less than a day. To recharge the battery, just couple it to your engine.

SOME OF THESE USERS MAY BE YOUR NEIGHBORS—READ WHAT THEY SAY ABOUT ALAMO ELECTRIC FARM LIGHT PLANT—THERE ARE HUNDREDS OF OTHERS

Ashland, Neb., Nov. 8, 1915. Gentlemen:—The electric light I bought of you we like fine. We have thirty lights, an electric iron, lights in the barn and on the porch and in the back yard, and we would not take twice what it cost if we could not get another. I thank you for the kind attention you have given us in getting the plant installed. Yours truly, J. E. FENTON.

P. S.—I thought I would keep track of the running expense of your plant for the month. As some of my neighbors are connected with the city plant and I myself came nearby being. My wife ironed four hours each week and we run the lights besides. We used four gallons of gasoline and one pint of lubricating oil. Four gallons of gasoline at 13 1/2¢ per gallon. 56c One pint of lubricating oil. Total for the month. 56c No one to read the meter and collect once a month. We are well pleased. Our neighbors say our lights are better than theirs and so expensive.

Homer, Neb., Nov. 9, 1915. Gentlemen:—I am so pleased with the light plant purchased from you that I feel that I must write you. I have found the plant satisfactory in every way. I cannot praise its good qualities too highly. Although I have let the batteries run so low that the lights nearly went out, I find that the batteries are just as good as ever when recharged. The lights are bright and always steady. I gladly recommend them to anyone as I feel certain that they could not do better anywhere else. Moreover I consider the Alamo farm light plant a necessity to every up-to-date farmer. Thanking you for the satisfaction given, I remain, Yours truly, CHRIS RASMUSSEN.

Percival, Ia., Oct. 26, 1915. Dear Sirs:—About six months ago I installed one of your farm light plants in my new home in Percival. It has given us satisfaction in every respect. Have as good lights as any city and steadier than your city lights. No flickering. We use the power for electric iron, twin washers, fans, etc., and charge the battery while pumping water or doing other work with the engine. It makes the home cheerful every night in the year, and we would not be without it. A. E. KING.

Omaha, Neb., Feb. 26, 1915. Gentlemen:—With reference to the farm light plant, which you installed on my ranch at Cody, Nebraska, during the latter part of 1912, beg to say that this plant has given me entire satisfaction and that we have taken a great deal of comfort in the same. This plant has done good work in every respect, and I am very glad to recommend your plants to anyone interested in installing a farm light plant. I might say that we light the ranch foreman's house, our club house, barns, etc., with this plant. Yours very truly, CHAS. METZ.

Hallam, Neb., Nov. 11, 1915. Gentlemen:—We are very well pleased with the fixtures we have ordered from you. All arrived in good condition. We are also more than satisfied with the Alamo farm light plant we bought of Mr. Howard on September 9th, 1915, at the State Fair. It seems to me that there could not be a better plant than the Alamo. Almost anyone can easily operate it. Yours very truly, JAS. TROUSIL.

Percival, Ia., Oct. 27, 1915. Dear Sirs:—Since installing one of your Alamo farm light plants in our home about six months ago a touch of a button gives us as good electric light in any and every room in our house as any city in the United States can boast of. In addition to this, we have lights in our farm yard, barns, chicken house, and other outbuildings as well as electric power for the churn, washer, vacuum cleaner, fans and electric iron any hour of the day or night. We run our engine for pumping and other work about four hours per week and charge our battery at the same time. Your plant has given nothing but satisfaction in every respect and do not believe any farmer who understands its advantages and conveniences would be without one for twice what it cost. Yours for success, LOUIS SCHNEIDER.

Emerson, Ia., Nov. 9, 1915. Gentlemen:—Since installing one of your farm lighting plants last summer and having used it up to this time, I am glad to say that I am more than pleased and am perfectly willing to recommend it to anyone. I have eight lights. Charge the battery while doing the week's washing and at the end of the week the batteries are about half discharged. Respectfully, CLAUDE F. BARNES.

Petersburg, Neb., Feb. 25, 1915. Gentlemen:—The electric light plant we bought of you just one year ago gives perfect satisfaction. We have 28 lights, an electric iron and one small motor. Any man or boy can operate it—does not require an electrician. Just turn the button and we have light, heat and power. Would not be without it. Yours truly, JOS. VOLLMEER.

Washington, Neb., Nov. 9, 1915. Gentlemen:—I installed one of your 60-light plants about September 1, 1915, and I can say I am very well pleased, both with the plant and also with the people I have to deal with. I have 40 lights installed in the house and out buildings and it makes it mighty handy just to push a button and you have lights where and when you want them. The city folks get no thing on us now. I would not recommend too small a plant for any farmer, as when it is so handy you will use more lights than you really intend to. Very truly yours, JAMES H. JENSEN.

Oconee, Neb., Nov. 8, 1915. Gentlemen:—Some time ago I bought one of your Alamo lighting plants of your agent, W. R. Hitchcock, and am delighted with it. They give a good, steady, clear light. My daughter is taking care of the plant and certainly finds it very much easier than cleaning and filling oil lamps. The expense of running it is slight. Have twenty-four lights in house and will soon use it in the barns and other buildings. Respectfully, MRS. MARY E. MURDOCK.

Nebraska City, Neb., Nov. 11, 1915. Gentlemen:—We have had our Alamo farm lighting plant for six months and have had no repairs and have not been out of light once. Could never again go back to the old way of lighting. Yours truly, MRS. MARTIN CHRISTENSEN.

Valparaiso, Neb., Nov. 8, 1915. Gentlemen:—The electric light plant bought of you is giving perfect satisfaction in every way. We have 50 lights in seven different buildings. One light in a room makes it light as day. I cannot understand how anyone about to install a gas plant can do so, if he has investigated one of your electric light plants. Respectfully yours, W. G. JOHNSON.

Beaver Crossing, Neb., May 5, 1912. Gentlemen:—Having had my electric lighting plant in use over two years, I can say it has given good satisfaction and was what you claimed for it, also appreciate the loyal way in which you have treated me. Yours for success, JACOB GEIS.

Harrison, Neb., Nov. 8, 1915. Gentlemen:—I am well pleased with my electric lighting plant. I installed it about the 10th of June and have had no trouble with it whatsoever. At the present time I am using 27, 15 c. p. lamps, lighting both bank and house. I am using 1,340 feet of wire, and do not notice any difference in the lights. The cost of operation is practically nothing. Yours respectfully, G. L. GERLACH.

Telbasta, Neb., Aug. 17, 1914. To Whom It May Concern:—The Alamo put in our electric light plant about three years ago, and it has given us reliable service, and very good satisfaction. We are well pleased with the workmanship. Respectfully, SCHAFERSMAN & STRINGER.

Valley, Neb., Nov. 8, 1915. Gentlemen:—The light plant I received of you September 1, 1915, is giving splendid satisfaction. It is easy to operate and gives a fine bright light. The plant is all you claim for it. Yours truly, C. F. TIMMONS.
