FARM AND RANCH LANDS FARM AND RANCH LANDS FARM AND RANCH LANDS REAL ESTATE TRANSFERS Facts About Dawes County, Nebraska

These Are Pure State Statistics that the Knocker Cannot Dispute-Read Them, Then Cast the Knocker Aside and Come to Dawes County.

Them, Then Cast the Knocker Aside and Come to Dawes County. If you think that Dawes County. Nibraska, is not a crop raising county, just refer to the Agricultural Report, No. 168, published January 16, 1816. This will not only convince you and wipe out all thought of Dawes County being a non-productive county, but will be a direct slap in the face to the many knockers and smart-alle liars who ma-lien and decry this fast-growing section. We are going to compare the yields in Dawes County with yields in the high priced counties of the state, such as Tork, Seward, Webster, Sarpy, Florec. Cedar. Custer, Burt, Douglas, Lancaster and Saunders, This place coals me money, but there has been so much bying agalant Dawes County and a many have ridiculed it and tried to discourage prospective buyers of Dawes County lands that I feel that it it is money well spent and that it is a religious act to alap these kneckers in the face with these few undisputable facts. Please study the following table carefully and you will note that little oil Dawes land is not inflated and where there is yet chance for the man of medium means, leads the rulter state in the production of Spring What; leads the entire state in the production of Osts, leads it is not inflated and where there size in the production of Barley, and that only three counties beat it in the production of Winter Wheat; leads the entire state in the production of Spring What; leads the entire state in the production of Spring Wheat; leads the entire state in the production of the state on the preduction of Spring Wheat; leads the entire of the state, as is also true on its yead of com if yet, we do not claim Dawes County to be in the ont in the state of Corn if yet, we do not claim Dawe County to be in the corn the yiel of Corn if yet, we do not claim Dawe County to be in the corn the which is an event of the or to the acre than does 43 other counties out of the \$2 counties in the state, and on Potatoes, it is right up among the top-notches of the while state.

There land is held at from 3125 to as high as 5300 per acre. You will note that Dawes County, figure it on straight percentage, beats all of those other Counties in yield of the principal crops. I have chosen only the beat counties in the State in the land is held at from 3125 to as high as 5300 per acre. You will note that Dawes County beats other Counties of the State so had that they are not were used in comparison, yet I can sell you a home here at a price at which you can afford to buy-at which, the increase in valuation thereon, will net you a hand-some dividend for the next three, four, five of ten years to come. You get the you as hand-some dividend for the next three, four, five or the note independent people we have: they are the people to whom all men, in all walks of life, must take off their hars in a self of the contry-one of the state and horses and hogs are very high and they are going to continue to be so for many years to come, yet right here in good old Dawes County-one of the first three all kinds of stock, at from 10 to 500 per acre, and on terms of from 25 per cent to 50 per cent cash with long times of the state and they are bide of the only is per cent.
