PERSHING SEEKING TO AVOID TROUBLE

Defacto Troops Near His Camp Said to Be Trying to Precipitate

CABINET SEES WAR NEAR

Columbus, N. M., June 20.-American and Carranza troops are in close proximity south of Namiquipa, with the Mexicans taking a provocative attitude, according to reports reaching here today from the front. Dispatches received here were interpreted as meaning that there might be a clash in the immediate future, although General Pershing is said to be making every effort to avoid a conflict.

Eastern Guardsmen First. San Antonio, Tex., June 20 .- General Funston did not make public the exact number of national guardsmen requested in his dispatch to the War department, but said he asked for

department, but said he asked for mough to provide "adequate protection" of the border. He indicated that a considerable force would be mobilzed at San Antonio as a reserve

General Funston explained that in making this request, he acted only on the presumption that he was securing an army for defense and that if it became necessary to organize an army of invasion he would supplement the request of today with one for the balance of the guard.

Those asked for today include units from all branches of the service. General Funston assumed that the first o be sent probably would be those from New York, Illinois and Pennsylvania.

Washington, D. C., June 20.-With resident Wilson's firm refusal to Washington, D. C., June 20.—With President Wilson's firm refusal to withdraw American troops from Mexico on its way to the de facto government embodied in a note sternly arraigning the whole course of General Carranza in the situation which has brought the two countries to the verge of war, the administration continued today its preparations to meet any emergency that may arise.

Carranza. The position of the United States is pointedly set forth in its review of apparent inability of Carranza to pre-rent border raids and to keep the obligation he owes the world by the preservation of order in his dominions.

dominions.

Secretary Lansing had a private conference with President Wilson before today's cabinet meeting.

At the cabinet meeting the opinion prevailed the chances were overwhelming in favor of war. The one hope was that General Carranza would be impressed by the military preparations of the United States and make no further effort to have American troops withdrawn.

Prepare for Hostilities.

There has been no indication, how-ever, that Carranza's intentions are praceful and every move now is being planned in the belief that hostilities

planned in the belief that hostilities may begin at any moment.

The note serves notice that as long as the Carranza forces continue their present attitude no arms or ammunition or machinery for their manufacture will be permitted to reach Mexico from the United States.

There will be rigid enforcement of the embargo. Unless war is declared the United States, under rules of international law cannot undertake a blockade of Mexican ports to prevent shipments getting into Mexico. Mexico's main source of supplies has been th: United States and no fear is expressed that enough war material could be obtained from across the Atlantic.

There are fashions in medicine as well as in millinery. The old time cathartic pills with their harsh drastic effects have gone out, and it is high time that they had. In their place we have the mild laxatives and gentle cathartics, of which Chamberlain's Tablets is one of the most popular. When the proper dose is taken the effect of these tablets is a agreeable and so natural that you do not realize that it has been produced by a medicine. the plea of their government that the integrity of the Mexican republic must not be violated.

The Mexican government further protests that "It has made every affort on its part to protect the frontier," and that it is doing "all possible to gvoid a recurrence of such acts." Attention is again invited to the well known and unrestricted activity of De La Ross, Aucisto Piscano, Pedro Vines and others in connection with the border raids, and to the fact that, as I am advised, up to June 4 De La Ross was still collecting troops at Montarry for the openly avowed purpose of making attacks of Texan border towns, and that Pedro Vines was recruiting at other places for the same avowed purpose.

I have already pointed out the yninterrupted progress of Villa to and from Columbus, and the fact that the American forces in pursuit of the Glean Springs marauders penetrated 185 miles into Mexican territory without encountering a single Carranistia ecidier. This does not indicate that the Mexican government is "doing all possible." This is not sufficient to prevent border raids, and there is every reason therefore why this government must take such preventire measures as it doesn sufficient.

chaloud in the dipsomania ward at the hospital for the insane in Lincoln was apparently cleared up yeaterday when the body was exhumed and a postmortem examination was held.

The autopsy was conducted by Drs.
H. C. Pedersen of Dannebrag, County Coroner Jester and Dr. Williams of the Lincoln hospital. Their examination showed that Chaloud came to his death by cereberal hemorrhage caused by delerium tremens. An examination of nine witnesses was conducted at the St. Paul court house by Attorney T. T. Bell before a coroner's jury, and the jury returned a verdict stating that Chaloud came to his death by natural causes resulting from excessive use of alcohol. The iury further absolved the county and the Lincoln hospital officials from all blame of Mr. Chaloud's death.

The wound which Mr. Chaloud had on his head and which caused the postmortem to be held, was found to be only a scalp wound, which hospital employes said he got by falling and striking the wall a glancing how. It was said this did not have

AMERICANS WILL ARE REAL PATRIOTS

Will Hold Jobs Open and Pay Salaries of Employes Who Quit

to Join Militia.

Omaha employers are not lacking

in patriotism. Announcement was made yesterday by the street railway company, and by the gas company that any employee who enlists in the militia will lose nothing by it. Numerous other concerns employing large numbers of men, made the same announcement, and the newspaper offices are continually being notified of like offers.

This new development naturally means a marked increase in the already rushing business at recruiting stations. Ranks of several militia companies yesterday were swelled to war strength and new companies and awkward squads organized.

News Joyfully Received.

"Splendid," was the way the news was greeted at the recruiting offices. "Now watch Omaha show the rest of the middle west a few things in patriotism."

The street railway company not only permits its employees to join the militia, but pays them for doing so, making up the difference in the wages. In this way, the families of militiamen will not suffer. Jobs will be held open also.

The gas company offer is just the same.

same.

The Order of Stags announce that members who join the militia will be paid sick and death benefits in spite of the increased risk.

Awkward Squads Busy.

Recruits in four companies were "divided into awkward squads" yesterday afternoon, and entrusted to the tender mercies of drill sergeants who put them through rudiments of the manual of arms. They learned how to "right about" without stepping on their own feet or those of their neighbors. One or two of the squads went out into the streets for a short went out into the streets for a short
