Receipts today were fairly heavy and there was a very good demand for all carcals.

The demand for wheat was excellent and the sales, which were quite heavy, were made at practically unchanged prices.

The corn market ruled from steady to just lower. There was, however, a good cash demand for this cereal and the bulk of the sales were made at unchanged prices, a few cars of mixed corn seiling at the decline.

The cash demand for oats was quite active, but the market was a triffe weak and ruled the lower.

Higher Cables Tend to Strengthen When Values. Chicago, June 20 .- Excellent field condi-

erpool. The close was nervous, at the same as yesterday's finish to 140 % closer, with July at \$1.01% and September \$1.04% Corn showed a setback of % to le net, cats closed % down to a shade advance, and provisions at a rise of a shade to 50c. Bears in wheat were well pleased regarding harvest progress in the winter crop region, and were also gratified by the favorable conditions for plant growth in the apring crop belt. In this connection much emphasis was placed on unofficial setimates that the total domestic yield this season would be 35,000,000 bushels more than was predicted last month. Nevertheless, the market during the first half of the season seemed on the whole to lean to the bull side. Predictions of lighter world shipments formed one of the elements which tended for a while to handicap the bears, and so, too, did continued reports of a shortage of supplies in France. Gosep was current that two large European governments were inquiring for new wheat from the United States, but it was not until after breaks of it or more from top prices of the day had taken place here that any important export sales appeared to have been consummated. Then the market had a fair recovery from the low figures of the season, influenced partly by an official report that the yield was likely to be 17,000,000 bushels short as compared with last year.

an official report that the yield was likely to be 17,000,000 bushels short as compared with last year.

Warmer weather had a bearish effect on the corn market. In addition, signs produced to increased receipts. Onts sagged with corn. Crop advices continued good. Higher prices on hogs carried provision. Higher prices on hogs carried provision of the month deliveries of lard tomorrow would be the heaviest ever known.

Moran, instead of playing a waiting game, started off to batter down his opponent, but Dil-lon was fast and too clever for the big

Moran swung two hard rights to the stomach in the opening round, but Dillon came back fast with short lefts and rights to the body and and at the end of the round Dillon had a shade the better of the round. In the second round Moran missed

several attempts to land his right swing, while Dillon bored in with both hands at close quarters, always having the better of the milling, driv-ing short lefts and rights to the stomach and bringing up snappy right half-arm jolts to the jaw and face.

Coffee Market.

New York, June 20.—COFFEE—There was a more active demand in the market for futures here today, with quite a sharp advance in prices. It was reported that cost and freight offers were higher and less numerous, and while some attributed this too the fact that yesterday was a holiday in your the holiment to promote covering for over the holiment to promote covering for over the holiment to be market opened unchanged to 3 points and advanced from 5.26c to 8.29c. Demand was comparatively quiet at the start, but improved as the market worked higher and there was probably buying for a reaction as well as covering. Owing to the holiday there was no official cables from the primary markets. The local market will be closed on Monday and Tuesday of next week. The third round was the only one in which Moran had the advantage. He drove Dillon to the ropes with left and right smashes to the head and body and took Dillon across the ring, pounding him with both hands, working at close range. Toward the end of this round Dillon made a fast rally, getting in his short-arm work,
