

ATTORNEY THROWS HIMSELF IN LAKE

Carleton Marlay Ties Window Weights Around Neck and Leaps Into Carter Lake.

WAS IN NORFOLK ASYLUM

Carleton C. Marlay, a lawyer who lived at the Loyal hotel, committed suicide Friday night by drowning himself in Carter lake. His body was found in the morning in five feet of water with two window weights tied to his neck.

Was in Asylum.

About eight months ago he was confined in the asylum for inebriety at Norfolk and later took part in the investigation made of the institution. He came to Omaha early in the year and had been staying at the Loyal ever since his arrival.

The body was identified by I. D. Alkire, clerk at the Loyal. M. J. Milligan, 1618 Manderson street, discovered the suicide.

Marlay was a graduate of the University of Nebraska and had lived in Lincoln, where his wife, who has brought suit for divorce, lives with their 10-year-old son, John. A brother, P. H. Marlay, a banker of Mason City, is in Los Angeles and has been notified.

U. S. Will Inquire of Germany How Subsea Commander Punished

Washington, July 1.—The State department is preparing to make a formal inquiry of the German government as to what punishment was inflicted upon the submarine commander who torpedoed the channel steamer Sussex.

An informal inquiry through Ambassador Gerard has brought no response. In admitting that the Sussex was attacked by mistake, Germany announced that the submarine commander had been "appropriately punished" and promised reparation. Then followed the exchange of notes which resulted in the abandonment of what the United States denominated as illegal and inhuman methods of submarine warfare.

Mr. Gerard was instructed to ask informally how the officer responsible for the Sussex tragedy had been dealt with, but no steps toward final disposition of the case were taken pending a demonstration by time that the promise of a change in practices would be carried out.

Britons Use Million Shells Each Day

British Headquarters in France (Via London), July 1.—The fourth day of the British bombardment of the German position sees no lessening of the volume of fire, which continues along the whole line without cessation day and night, cutting barbed wire entanglements, demolishing first and second lines of German trenches and raining curtains of fire on the roads and communicating trenches.

Considerably more than a million of shells a day are being expended, and there seems to be no limit to the supply of them. British infantry actions have been limited thus far to raids under cover of artillery and trench mortar fire. The new type of British mortar is capable of such rapid fire that it can place six shots in the air at once, which have proved highly serviceable, both in cutting of wire and the smashing of trenches.

Last night the sky from twenty to thirty miles to the rear toward the east was brilliant, as if with the glare of the aurora borealis, from dusk to dawn. This was the only illumination along the roads for the movement of troops and automobiles, none of which carried lights.

Motorcycle Driver Injured

As Wheel Strikes Ambulance Patrick Williams, 1516 North Seventeenth street, was severely bruised and shaken up, and his left ankle suffered a compound fracture when he drove his motorcycle out from behind a street car at the corner of Seventeenth and Cass streets about 5:30 yesterday afternoon and collided with a Brailey & Dorrance automobile driven by W. H. Rogers.

Washington Affairs

The War bill to appropriate \$2,000,000 for relief of dependent families of National Guardsmen called into the federal service was favorably reported to the house today and will be taken up for passage tomorrow. The fortifications appropriation bill, one of the administration's three big defense measures, was passed by the senate and sent to the house for conference. Its total had been reduced from \$124,000,000 as it passed the house to \$124,000,000.

Additions totaling \$75,000,000 have been agreed on tentatively by the senate military committee to the \$125,000,000 military appropriation bill as it passed the house. Members of the committee said that appropriations made necessary by mobilization of the National Guard and army regulation might run the aggregate up to \$275,000,000.

The naval bill, carrying the increased building program agreed on by the naval committee, was reported to the senate. It carries an appropriation of \$115,514,143 for 1917 and contemplates a total expenditure of \$128,514,575 for construction during the next three years. The amount appropriated for new construction in 1917 is \$110,738,160. For completion of construction authorized last year \$28,881,137 is appropriated and \$20,000 is added for building a Naif submarine as an experiment.

Davis and Murphy Win. Kansas City, Mo., July 1.—Miss Marguerite Davis of St. Paul, Minn., and Miss Irving Murphy of New Orleans, the southern champion, won through their semi-finals in the Great Plains tennis tournament for women today.

Bass and Crappies are Biting Good AT MANAWA

OMAHA FOLKS PAY THEIR TAXES—Half a million was paid over Bill Ure's counter Friday, and still they flocked in yesterday to get under the wire ahead of the penalty for being late. City taxes were delinquent after Saturday.

M'KINLEY CLUB TO HOLD BIG MEETING

Speaker of National Prominence May Attend Ratification Gathering.

WILL SING CAMPAIGN SONGS

The McKinley club is preparing for a big ratification meeting to be held at the Hotel Rome in the next few weeks. It may be that some speaker of national prominence will be present, although it is likely that just Nebraska men will be asked to speak.

A novel feature of the affair will be some original campaign songs, and, especially, one dedicated to Mr. Hughes by a quartet which is being organized by Joe Marrow, bailiff in the district court. It is the purpose of the committee in charge to have all the candidates for federal, state and county offices invited to the meeting, which will be in the nature of a reception, as well as a ratification for the nominees of the party.

The McKinley club is preparing to organize Hughes and Fairbanks clubs throughout the city and state, working in connection with the National Republican league, of which John Hays Hammond is president.

It will be of interest to Omaha people to know that Mr. Hammond, who is now one of the most famous mining engineers in the world, started in the business at the Omaha smelter several years ago. Talking with Mr. Byrnes, president of the McKinley club, at the national republican convention in Chicago a few weeks ago, Mr. Hammond remarked this fact, stating that he had a very warm spot in his heart for Omaha. Mr. Hammond promised to try to arrange his affairs so that he could speak here before the McKinley club later in the campaign.

United States Oil Production.

Washington, July 1.—Petroleum production in the United States, the geological survey announced tonight, probably will be the greatest of any year in the country's history. The quantity marketed for the first half of the year was 140,000,000 barrels, which, though less than the amount marketed in the first half of 1915, was greater than half of the total amount marketed throughout the whole of last year.

LATE RUSH TO PAY TAXES REAL BRISK

Treasurer's Office Swamped as Tardy Ones Try to Slip Under the Wire.

HALF MILLION IN ONE DAY

The city and county treasurer's office was swamped with humanity yesterday. It was the last day to pay taxes before the expiration of the period before delinquency, and owners of property were eager to avoid paying an additional 10 per cent for being late.

Friday the receipts from the city, county and water amounted to \$573,951.95. Disbursements to city and school, county and water board amounted to \$757,092.76, making the total business for the day amount to \$1,331,054.71.

On account of the big crowd the office remained open all day Saturday, instead of closing at noon, as is the custom.

Total funds on hand are: City and school \$3,142,895.37 County 358,127.22 Water board 1,092,208.74

The first Mexican war was the only war in which the United States forces ever invaded an enemy's country, occupied its capital and held its territory by right of conquest.

TODAY'S BEAUTY TALK

You can make a delightful shampoo with very little effort and for a very trifling cost, if you get from your druggist a package of canthox and dissolve a teaspoonful in a cup of hot water. Your shampoo is now ready. Just pour a little at a time on the scalp and rub briskly. This creates an abundance of thick, white lather that thoroughly dissolves and removes the dandruff, excess oil and dirt. After rinsing, the hair dries quickly, with a stiffness that makes it seem heavier than it is, and takes on a rich luster and a softness that makes arranging it a pleasure.—Advertisement.

Deaf Mute Defies Father and Will Wed Girl of His Choice

"Take out that marriage license and you'll never darken the doors of our home again! Leave it, and you can come back!"

That was the ultimatum Charles H. Mullen faced his deaf mute son, Robert, yesterday in the marriage license clerk's office.

Young Mullen, who is 26 years old, is assistant to Louis Bostwick, photographer. The marriage license clerk had already made out the necessary paper, naming Miss Edith L. Davis, also a mute, as the bride.

Mullen thought for a moment and looked at his father, as the latter stood trembling, waiting for his answer. The young fellow did not answer. Instead, he reached into his pocket and produced \$2, which he tossed to the clerk as he picked up the license and walked away, without even looking at his parent.

German Submarine At Baltimore Under Chesapeake Waters

New York, July 1.—The Trans-Atlantic Trust company of this city, which has been recognized here as an unofficial financial agent of the Austrian and German governments, announced today in a half-page advertisement in the Hungarian Daily Amerikai Magyar Nepszava that the German submarine so frequently reported as being on the way here from Hamburg reached Baltimore Thursday morning, and is now concealed somewhere nearby, presumably under the waters of Chesapeake bay.

The advertisement says the submarine will leave for Europe with money orders for Germany and Austria.

"Little Goats," New Bandit Crew Laying Old Mexico Waste

San Francisco, July 1.—Twenty-nine American refugees from Colima and Guadaluajara, Mexico, among them women and children, who fled from their homes to the west coast, arrived here today. A new bandit leader who calls himself "General Chibo," Chibo meaning goat, has arisen and is terrorizing the territory inland from the west coast, the refugees said. He calls his company of bandits chibetas, which means little goats, who, led by their "General Chibo," are seizing everything they can find in the war-devastated territory.

James Montgomery, 90 years old, arrived destitute, but his pity was not for himself, but for twenty pigs he left behind. "They will starve now," he said.

Duma Passes Tight Prohibition Measure

Petrograd (via London), July 1.—The duma today passed the bill permanently prohibiting the sale of drink containing more than one and one-half per cent of alcohol. The measure must be passed by the upper house and signed by the emperor before becoming law. This includes light wines and beer.

Agreement Is Reached With Respect to Rate Case

Lincoln, July 1.—(Special.)—An agreement has been reached between the state and the Missouri Pacific Railway company regarding hearings in the controversy over the enforcement of the 2-cent passenger law and the railroad will file the case with the referee, T. H. Gains of Omaha, not later than July 20, and the state will be given until October 15 to reply.

Mexicans Seize Half Million in Bullion From the Americans

Washington, July 1.—The State department was officially advised today that gold and silver bullion belonging to Americans and seized by local Mexican authorities at Manizillo totaled nearly \$500,000. The seizures were reported to have begun before the Garza incident. A protest already has been made to General Carranza.

Reports of continued seizures in various parts of Mexico reached the State department during the day. In most cases the property taken had been left behind by Americans fleeing the country. There have been no indications that the local authorities acted on instructions from Mexico City, but no reply has been received to the representations made several days ago to General Carranza.

Pierre Saloons Close To Conform With Vote

Pierre, S. D., July 1.—(Special Telegram.)—The lights went out in the saloon section of this city tonight at 9 o'clock on the dry vote of the spring election. There was no special disturbance up to the time of closing, but the thirstily inclined were busy "stocking up" for the long thirst ahead of them.

Many Want to Join T. R. Division in Event of War

Oyster Bay, N. Y., July 1.—Applications for enlistment in a proposed volunteer army division, which Colonel Theodore Roosevelt is preparing to organize, if there is a call for volunteers, are very numerous, according to the colonel's secretary, Walter J. Hays.

Blast Blows Hole In Roof of Coach

Oakland, Cal., July 1.—An explosion in the smoking car of Southern Pacific train No. 5 on its arrival here from Ogden, Utah, blew a big hole in the steel roof and caused slight injuries to eight passengers.

F. T. Marquis of San Francisco, who was in the car, said there was a distinct odor of burned gunpowder after the explosion. The shock was very violent and a sheet of the steel roofing of the car was blown high in the air and fell more than 100 feet from where the train was standing.

Rocketfellers Spend Over Three Millions for Relief

New York, July 1.—More than \$3,000,000 was appropriated by the war relief commission to the Rockefeller foundation during the six months ended today, the first half year of the commission's existence, and of this amount more than \$2,000,000 already has been expended. The figures are contained in the report of the foundation made public today.
