

GRAIN AND PRODUCE

Cash Grains Strong on Local Market, with the General Price Advance.

ALL RECEIPTS ARE HEAVY

Omaha, July 5, 1916. Cash grains were strong today and there was a general advance in prices. Receipts of four days were placed on the market this morning, but they seemed to be a sufficient demand to take care of the offerings at higher prices. Wheat sold generally from 1c to 1 1/2c higher, the bulk of the No. 3 selling at 87 1/2c, and No. 4 generally selling around 86 1/2c.

NEW YORK STOCKS

Most Developments and Advantages of Market Character Are Favorable.

GAINS ARE VARIABLE

New York, July 5.—With the exception of a belated advance in call money to 4 1/2 per cent, the market for the day was characterized by a marked advance in prices. The market was distinctly favorable. Mexico's conciliatory attitude, the further success of the allied drive in the western car arena, and the optimistic views of authorities in the steel and iron industry were factors of primary importance.

CHICAGO GRAIN AND PROVISIONS

Chicago, July 5.—Bullish cable advices lifted the wheat market, but the effect was nearly wiped out later owing chiefly to the spillover of decreases in the United States visible supply. Quotations closed nervous, 1/2c to 3/4c higher, with July 1916 and September 1916, 1/2c higher, and October 1916, 1/2c higher, and provisions unchanged to 1/2c higher.

OMAHA FUTURE MARKET

Trading in Wheat and Oats is Active on First Day. After being discontinued for several years, future trading was resumed on the local floor today. Trading in wheat and oats was quite active and the market was quiet, considering the fact that the first day of future trading, September wheat opened strong but closed, with Chicago, about 1 1/2c lower. December closed about 1/2c higher. September corn was steady and the December rose from steady to 1/2c up.

CHICAGO GRAIN AND PROVISIONS

Chicago, July 5.—Bullish cable advices lifted the wheat market, but the effect was nearly wiped out later owing chiefly to the spillover of decreases in the United States visible supply. Quotations closed nervous, 1/2c to 3/4c higher, with July 1916 and September 1916, 1/2c higher, and October 1916, 1/2c higher, and provisions unchanged to 1/2c higher.
