

**New Books**

**Fiction.**  
**THE STRANGE CASES OF MASON BRANT.** By Nevil Monroe Hopkins. Philadelphia. J. B. Lippincott company. \$1.25.

With the advance of applied science with the law keepers be able to hold in check the lawbreakers? That is the startling question forced home to you in reading this thrilling record of crime and detection. The author is a scientist of international reputation—the criminologists will sit up and take notice when they find the gentle art of murder developed in smearing a little radium within a man's hat, thus driving him stark crazy; or in using a wireless current to fire a cannon, thus blowing a man into eternity. A more fascinating character than Mason Brant you'll never find—more weird problems, as suggested, have never been portrayed.

**THE PRISONER.** By Alice Brown. New York. The MacMillan company. \$1.25.

The central character of this book, the "Prisoner" of the title, is a young man who, with a brilliant career before him, makes a false step and is sent to prison. It is not, however, with his imprisonment that Miss Brown is concerned, but with his readjustment with life upon his release. How he works out the problem that he faces, upon the happy solution of which his entire future depends, is related by Miss Brown in chapters of intense appeal and power.

**THE FALL OF A NATION.** By Thomas Dixon. New York. D. Appleton & Co. \$1.25.

Thomas Dixon's vivid new novel is the story of the conquest of the United States by the Imperial Nation in the year 1918. It is a startling appeal for national preparedness—a cry of warning against the doctrine of "peace at any price." Nothing Mr. Dixon has written compares with the bigness of this one, with its cry of warning which men and women of the present generation would do well to heed if our glorious nation is to be preserved.

**THE RED DEBT.** My Everett MacDonald. New York. G. W. Dillingham company. \$1.25.

This is a chronicle of human life as it is lived. The reader lives with the characters. They are not puppets; they are flesh and blood people, who follow one long after the book has been laid aside. It ends with a whirlwind of interest and is laid aside with regret. "The Red Debt" has issued from a master mind, whose artistic cunning has made beautiful his theme; whose deep insight into human nature has delineated an unforgettable picture.

**THE HUMAN BOY AND THE WAR.** By Edna Phillips. New York. The MacMillan company. \$1.25.

In each of Mr. Phillipott's novels there has been some really notable character. It might be an old woman as, for example, Emma Tresilian in "Faith Tresilian," or it might be a young man as, say, Harvey Porter in "Brunel's Tower." Here in this book it is a boy, a likable, warm-hearted, very human youngster. The story of what he is, what he thinks, what he does and what he wants is told with much humor and sympathy. It is a present day story—and quite as entertaining a piece of fiction as has ever come from its distinguished author.

**THE MONSTER HUNTERS.** By Francis Holt Wheeler. Boston. Lothrop, Lee & Shepard company. \$1.25.

This is a new achievement in juvenile literature. It is a story of thrilling adventure and through its pages writhe or thunder those vast and uncanny monsters that inhabited the world long ago. Yet so carefully has this portrayal been done that there is no false scientific note and no "nature faking." It is, in part, the story of one or two of the museum's own expeditions.

**WOOD AND STONE.** By John Cowper Powys. Robert Rutter & Son. New York. \$1.25.

In this startling and original romance, the author turns aside from the track of his contemporaries and reverts to models drawn from races which have bolder and less conventional views of literature than the Anglo-Saxon race. Following the lead of the great Russian Dostoevsky he proceeds to lay bare the secret passions, the unacknowledged motives and impulses which lurk below the placid seeming surface of ordinary human nature.

**Fiction.**  
**THE WHITE PEARL.** By Edith Bernard DeLano and Samuel Field. New York. Duffield & Co. \$1.25.

A fanciful romance of New England and the Orient. The white pearl, a jewel stolen from the shrine of Buddha in Japan, finds its way by fabled routes to Fairhaven in New England. There Bob Alden gives it to his sweetheart, Nancy Marvel, a sea captain's daughter, and the story of its wanderings thereafter is a very novel and exciting one. The prophecy is that the pearl will not be returned to Buddha until four lives have been sacrificed and the reader's sympathies are kept at a keen edge when Bob and Nancy sail for Japan and are shipwrecked. Very charming illustrations are provided by reproductions from the moving picture play of the same theme performed by Marie Doro.

**Miscellaneous.**  
**THE DETERMINED ANGLER OF THE BOOK TROUT.** By Charles Bradford. New York. G. P. Putnam's Sons. \$1.

An anthological volume of trout fishing, trout histories, trout lore, trout resorts and trout tackle. Depicts a fly-fisherman's paradise, and divulges many a secret of the angler's art. It should have a place in the library of every fly-fisherman.

**THE GATE OF ASIA.** By William Warfield. New York. G. P. Putnam's Sons. \$1.25.

The book has been called "The Gate of Asia" because the region traced, including Mesopotamia, Kurdistan, Armenia and the Persian province of Azerbaijan, has acted as a connecting link between those civilizations on the west whose relations have been chiefly with Europe and the Mediterranean, and those on the east, which are peculiarly Asiatic.

**THE SOCIALISM OF NEW ZEALAND.** By Robert H. Hutchings. New York. The New Review Publishing Association. \$1.15.

This book is the result of an eight months' visit made to New Zealand with the idea of investigating its institutions. The purpose in publishing it is to give some account of the working of New Zealand's advanced

legislation, but more especially to dispel the idea that its progressive institutions have in any way solved the problems of capital and labor.

**RESTORATION OF EUROPE.** By Dr. Alfred H. Fried. New York. The MacMillan company. \$1.

Dr. Fried shows the means by which, in his opinion, international co-operation can be secured. He says "A beautiful treaty for world organization could be made in twenty-four hours if only the will were there to give it life and to enforce it."

**LABORATORY LESSONS IN GENERAL SCIENCE.** By Herbert Brown, B. Sc. New York. The MacMillan company.

This set of laboratory exercises in general science is an outgrowth of courses given by the author in methods of teaching secondary school sciences. Some of the lessons represent the combined efforts of a class upon an assigned topic, but so reshaped that credit to any individual is out of the question.

**VISIONS AND REVISIONS.** By John Cowper Powys. Robert Rutter & Son, 419 East Thirty-second, New York City. \$1.

In this book the author has sought rather to indicate the personal reaction of his own mind under the stimulus of the famous masters, than to utter any ex-cathedra decisions. There will be found in these sketches hardly any reference to "modern problems" and few to living writers.

**ONE HUNDRED BEST BOOKS.** By John Cowper Powys. Robert Rutter & Son. 71 cents.

This list is designated to supply the need of persons who wish to acquire a general knowledge of such books in world literature as are at once exciting and thrilling to the ordinary mind and written in the style of the masters. It recognizes the fact that modern people are most interested in modern books; but it recognizes also that such books to be worthy of this interest must uphold the classical tradition of manner and form.

**THEIR TRUE FAITH AND ALLEGIANCE.** By Gustavus Olinier. New York. The MacMillan company. 50 cents.

For the sake of the facts that it gathers this book should be read not once, but two or three times by all Americans who believe in union, in Lincoln and in liberty. A single reading is not enough; most of us forget what we have read but once. What is here presented is worth keeping.

**To Make Skin Clear**

Don't worry about skin troubles. You can have a clear, clean complexion by using a little Zemo, obtained at any drug store for 25c, or extra large bottle at \$1.00.

Zemo easily removes all traces of pimples, black heads, sebum and ringworm and makes the skin clear and healthy. Zemo is neither watery, sticky nor greasy and stains nothing. It is easily applied and costs a mere trifle for each application. It is always dependable.

Zemo, Cleveland.

**Such an easy way to heal my skin!**

"I never worry if I have a little rash or other eruption break out—I just put on a bit of

**Resinol**

Ointment. That takes out the itching and burning instantly, and soon clears the trouble away. I learned of Resinol Ointment through our doctor prescribing it for my brother. Tom had been almost frantic with eczema for months but that ointment healed his skin like magic."

Resinol Ointment and Resinol Soap are sold by all druggists. For a free sample of each, write to Dept. 20-R, Resinol, Baltimore, Md.

in mind and dwelling upon, not merely today, but during many tomorrows. It bears upon the future of our national wealth.—Owen Wister.

**A B C OF HOME SAVING.** By Louis C. Farmer. New York. Harper & Bros. 50 cents.

The average American woman in a \$1,000 to \$5,000 home, keeping house

for a person whose income ranges from \$50 to \$150 a month, is the woman who most needs to study economics. It is for her that this little book is written.

**THE WAR AND CULTURE.** By John Cowper Powys. Robert Rutter & Son. 60 cents.

This reply to Prof. Munsterberg

sweeps aside the irrelevant discussion over white books, orange books and gray books and goes directly to the root of the matter. It refutes the vaunted qualities of modern German culture and shows that Russia has more important and more spiritual gifts for the world.

**ALLIED COOKERY.** Arranged by Grace Clergue Harrison and Gertrude Clergue to aid the war sufferers in the devastated districts of France. Published by G. P. Putnam's Sons, New York City.

**WHAT IS COMING?** By H. G. Wells. New York. The MacMillan company. \$1.50.

Mr. Wells is a prophet by use and wont. He is more interested, so he tells us in this book, in the tomorrow than in the today. The past he regards simply as material for future guessing. Remembering his many successful forecasts of previous years, this latest volume, in which he deals with social conditions after the war, is possessed of great significance.
