VILLA DISCARDS CRUTCHES AND IS IN SADDLE AGAIN

Famous Mexican Bandit Reported to Be Once More at Head of Mounted Desperadoes.

OUTLAWS ATTACK TRAIN
Statement Troops to Quit the Southern Republic Not Authorized, it is Said.

POLICY IS UNCHANGED

Columbus, N. M., July 19.—A report reached Columbus today that Villa is heading a large party of bandits toward Minaca, eighty-five miles west of Chihuahua City on the line of the Kansas City, Mexico & Orient railway. The rumor states that the bandit leader has discarded his crutches and is riding a horse.

Robert Bacon, former ambassador to France, and Dr. R. P. Strong of the Harvard Medical school, arrived here today. They declined to state the object of their visit. Dr. Strong is a specialist on tropical diseases.

Villistas Attack Train

Chihuahua City, Mex., July 19.—A band of Villistas attacked a train on the Mexico Northwestern railway near Santa Ysabel, about fifty miles west of here yesterday, according to a report to General Jacinto Trevino today. The bandits were beaten off and eight of them, who were captured, were brought here today for trial by court martial. The band was said to number less than a score.

Statement Not Authorized

Washington, July 19.—Informal conferences between Acting Secretary Polk and Eliseo Arredondo, the Mexican ambassador designate, continued today at the State department.

Although press dispatches from Mexico City have announced the appointment of Mexican members of a joint commission to make adjustment of differences between the two countries, it was stated officially at the department that no final agreement as to the method of conducting the negotiations had been reached. It was explained also that if it should be determined to make a joint commission, the American members could not be headed by Henry P. Fletcher, ambassador designate to Mexico, because Mr. Fletcher's official position would prevent him from serving in that capacity.

When told about dispatches from Mexico City saying Special Agent Rodgers had informed the Carranza government that the United States troops in Mexico gradually would be withdrawn, Mr. Polk said Mr. Rodgers had no authority to make any such statement and that the policy of the American government remained unchanged.

Rail Magnates Ask Suspension of Part of Anti-Trust Law

Washington, June 19.—President Wilson was asked today by Alfred P. Thorn, general counsel of the Southern railway; Robert S. Lovett, head of the Union Pacific system, and Frank Trumbull, chairman of the railroad executives' advisory committee, to ask congress to have the operation of some of the provisions of the Clayton anti-trust situation be further investigated.

TOO EARLY TO TELL IF CHILD PARALYSIS WILL AFFECT WEST

Dr. Clifford Grulee of Chicago Says Medical Science Baffled by Disease Terrifying the East.

Many Children Often Stricken

Address to Sioux Doctors

Address to Sioux Doctors

Here in the middle west we will not know how the infantile paralysis epidemic will affect us for some time to come, according to the opinion of Dr. Clifford C. Grulee of Chicago, who addressed the first session of the annual meeting of the Sioux Valley Medical association at the Hotel Fontenelle yesterday afternoon. The disease takes three or four weeks to develop and people from New York are only just beginning to get their children to the resorts of Michigan and Wisconsin, fleeing from the epidemic.

Many Children Immune

It has been found in the study of the disease, said Dr. Grulee, that there is a high degree of natural immunity in most children, as frequently only one child of a group or family who have been similarly exposed will be affected, and the natural bodily strength and vigor of the child seems to have very little effect as regards its immunity. The strongest child in the family seems almost if not quite as prone to attack as the weaker ones.

Not Most Serious Problem

Dr. Grulee made the rather surprising statement, in view of the general fear of infantile paralysis, that it was not nearly so serious a problem to the medical profession as is the proper treatment and cure of summer diarrhoea in infants. He advocated three general things which the physician must observe in the treatment of the disease:

Use of Anesthetics

Dr. M. A. Stern of Sioux Falls advocated an extended use of local anesthetics in preference to general anesthesia in an increasing number of major surgical operations which have previously required either chloroform administration. He reported very successful results with novocaine injected under pressure, and recommended its use except in cases of extremely nervous patients.

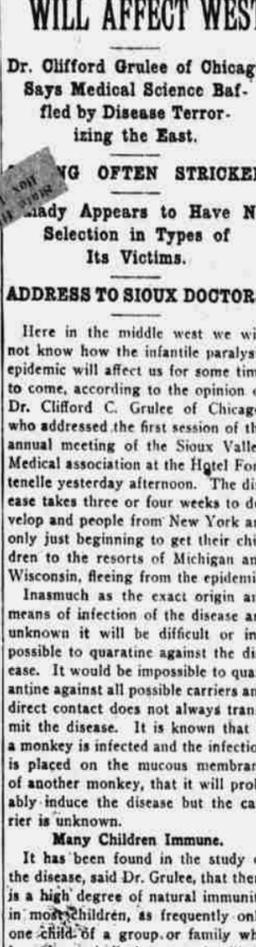

Use of Anesthetics

Dr. E. E. Coulter of Omaha analyzed the different varieties or causes of headaches and urged the physicians to be careful in their diagnosis and not attempt to give temporary relief and trust to the patient's natural recuperative powers to pull him through. A careful diagnosis will usually bring out a reason for the headache, which, if remedied, prevents the recurrence of the trouble.

Use of Anesthetics

Last evening the association enjoyed a smoker at the Fontenelle. The election of officers, postponed from yesterday morning, owing to the poor attendance last afternoon, is scheduled for this morning.

BRITISH ADVANCES—In the offensive carried out up to the end of last week the British captured Bazentin-le-Grand and Bazentin-le-Petit (1), passed beyond Longueval (2), and occupied all of the Trones wood (3). Their position on July 1 is shown by the heavy line.

West Indian Storm Moves Northward Over Eastern States

Washington, July 19.—Another West Indian storm like that which recently struck the gulf coast at Mobile and Pensacola, today is moving northward over the Atlantic, 350 miles directly east of Charleston, S. C. It may sweep the coast from Virginia to Maine, should it continue in its path with its present intensity.

Blacklisted American Importers To Appeal to State Department

New York, July 19.—With very few exceptions all the business firms and individuals placed by the British government on the black list under the trading with the enemy act, have their headquarters in New York City. Most of these merchants expressed no surprise today over the action of Great Britain. J. A. Kall, an exporter and importer, said:
