Lieutenant Jarvis blope is detailed by the United States may blope is detailed by the United States may blope is detailed by the United States may be not been on the Fig. 19 and the Control of the Submarine to a state of perfection. The submarine to a state of perfection. The submarine to a state of perfection. The submarine to the inventor and his daughter. Cles. On the trial trip of the inventor's beat, a Japanese helper is surprised in the act of examining the mechanism of the wentilating device. Hope reports favorably on the new device, but there are others interested in it. An attempt to burgiariae Dr. Burke's laboratory falls, but later Cleotinds him murdered in his bedreom. Cleotinds him finds a note from which she learns that they central the secret formula. With Hope she races to the auctionser's store only to find it in finames. Olga Ivaneff and Gerald Morton, two spice in search of the formula, attempt to capture Cleo when she calls at the house of Stephanski, the anarcuist. Hope rushes to hear aid; Morton snoots at him, but the builes hits a bomb, in the cellar, whose nephew has two of the missing books. Mahlin, a spy, attempts to steal the books, but is discovered by Hope, is the excitement that follows the books of the substances in the contess atrikes a straymine in the bay. After a violent storm Hope and Cleo arrive on a strange island and discover that the man they hunt is here. But Mahlin and the Japanese also reach the island and put up a fight for the books. They secape from Hope, but return and dynamite the shack. The conspirators also the books. They secape from Hope, but return and dynamite the shack. The conspirators also the books. Hope to the stand would have poscessed the volume.

(Continued From Yesterday.)

(Continued From Yesterday.)

It was on a Monday afternoon that Cleo disappeared. Shortly before noon on Friday two panting boys, their dust-grimed faces streaked with rivulets of perspiration, burst into the

notel in Santa Eulalia.
"Say, mister," one of them de-manded breathlessly of the clerk, "is there a feller named Jarvis Hope a-staying here?"
"There he is, over by the door," said the clerk.

"There he is, over by the door," said the clerk.
"Say, mister," piped the boy, tugging at Hope's sleeve, "is your name Jarvis Hope?"
"That's my name, son," said the officer. "What do you want of me?"
"I reckon this letter's fer you, then," and the boy displayed the note from Cleo.

Hope eagerly devoured the few illwritten lines.
"It's from Cleo!" he exclaimed,
turning to Hook, who was peering
eagerly over his shoulder. "Thank
God, she's alive! That hell-hound

Morton has her a prisoner up in the mountains. In a cabin on a ledge, she says."
"Do you think you could show me the place where you saw her," Hope asked the boy.
"Sure. I been fishin' there a lot of

"Come along, then," cried Hope, and, followed by Hook, he fairly dragged the boy into his motor car.

was danging. She saw him swam is ax high above his head; she saw it whistle through the air and bite deep into the rusted cable; she saw the strands of wire part, one by one; she saw her lover's face turn palid—and then she fainted. (To Be Continued Tuesday.) Iced Coffee Popular Drink in Summer Supply of Coal

Iced coffee-just plain extract of Java, cooled almost to the freezing Missouri Pacific officials are taking point-is one of the new beverages precautions to prevent a coal shortof the summer that is proving popuage at stations along the company lar in restaurants and at soda founlines, even if there should be snow tains in Omaha. The fountains have blockades next winter. The company is sending great numbers of cars into the Kansas coal fields and loading them out for the country north and been serving coffee ice cream sods for years, and have used it as a flavor for frostings and candies, but coffee consumption has usually decreased during the hot spell. Now Omaha is On all mining country tributory to the Missouri Pacific and Iron Moun-tain lines, the coal mines are being finding that it is a good summer drink worked to capacity, something that is unusual at this season of the year. Large orders for coal have been placed and it is asserted that the shipif the heating effect is removed.

Another delicious coffe mixture is made by shaking coffee and ice cream made by snaking colored frappe, which goes by the name of "coffee creamed." This drink has been a favorite in Europe for years, but the American taste for it has developed

DUN'S REVIEW OF TRADE.

which turnished most of the soft coal used in this district.

Indications are that soft coal prices are going to be about the same as last year.

Tax Levy to Provide

For the County Fair

One of the features of the Douglas county tax levy to be made soon by county commissioners will be the usual assessment to provide funds for the use of the Douglas County Agricultural society in promoting the annual county fair.

Definite plans for the fair have not yet been made, there being a controversy over the use of the county fair grounds at Benson, but it will be mandatory upon the commissioners to make the levy as soon as the fair plans are announced and a request is made for the appropriation.

The society is entitled to a tax

**Many Points of Activity as of Dullness.

New York, July 21.—Dun's Review of Trade tomorrow will say:

Contrary to the usual experience at this sensor there are many more points of activity than of dulines in the general stifuation. While some important lines, notably in several downing feature, it is not sensor that domestic buying has absied, Many interaction. While some important lines, notably in seven and leather, foreign demands are again the overshadowing feature, it is not sensor that domestic buying has absied Many interaction while some inportant lines, notably in full control of the accumulation of augustity and transportations. The sort of the accumulation of augustity shows the greatest altrinkage, current resports adding to the accumulation of augustity shows the sensor there are many more points of activity than of dulines in the sensor that dentify the mode when it ordinately shows the sensor there are many more points of activity than of dulines in the same are are many more points of activity than of dulines in the sual experience at this sensor there are many more points of activity than of dulines in the sual experience at this sensor there are many more points of activity than of dulines in the sual experience at this sensor there are many more points of activity than of used in this district.

Indications are that soft coal prices are going to be about the same as last

make the levy as soon as the fair plans are announced and a request is made for the appropriation.

The society is entitled to a tax which will raise a fund equal to 5 cents per capita from every citizen in Douglas county. The population is computed upon a basis of five times the number of votes cast in the last congressional election. This year the fund will amount to between \$6,000 and \$7,000.

his foot on the accelerator and the car leaped forward toward the mountains. So excited were Hope and Hook at the prospect of finding Cleo that neither of them noticed that another car was following them, nor, when the roughness of the country compelled them to leave their machine and proceed or foot, did they notice that the two men in the other car did likewise.

For two hours the boy led them along the winding course of the river until at last they reached the gloomy defile, with its perpendicular walls of rock, known as Dead Man's gulch. "There's where I seen the lady—unthere," said the boy, pointing to where, far above them, the sheer face of the cliff cut the sky.

"Do you know how to get up there?" demanded Hope.

"Nope," was the answer. 'I ain't never been up here cept for fishin'."

Come on, Hook," called Hope.

"There must be a trail to the top somewhere if we can only find it." His clothes torn by, thorns, his face and hands scratched and bleeding, the young officer pressed doggedly upward, splashing across mountain torrents, forcing his way through almost impenetrable walls of underbrush, scrambling over bowders, leaping crevasses, skirting the edges of dizzy chasms, but working steadily upward, splashing across mountain torrents, forcing his way through almost impenetrable walls of underbrush, scrambling over bowders, leaping crevasses, skirting the edges of dizzy chasms, but working steadily upward, splashing across mountain torrents, forcing his way through almost impenetrable walls of underbrush, scrambling over bowders, leaping crevasses, skirting the edges of dizzy chasms, but working steadily upward, splashing across mountain torrents, forcing his way through almost impenetrable walls of underbrush, scrambling over bowders, leaping crevasses, skirting the edges of dizzy chasms, but working steadily upward, splashing across mountain torrents.
