DRYS WILL RAISE MILLION DOLLARS

Chairman Poling Announces Quarter of This Amount Already Secured.

CONFERENCE AT CHICAGO

Chicago, July 22.—J. Frank Hanly of Indiana and Ira D. Landrith of Tennessee, nominees of the prohibition party for president and vice president of the United States, were guests at a reception tendered by local prohibitionists upon their arrival in Chicago from St. Paul today. A conference on plans of the party also was held.

Mr. Hanly told several hundred persons who greeted him at the reception that he would start immediately in a campaign to lead the party to victory. He announced that within a few days a meeting of the executive commmittee of the national committee would be held, at which complete plans for the campaign would be laid.

A campaign fund of $1,000,000 will be raised, according to Daniel Poling of Boston, temporary chairman of the St. Paul convention. More than $250,000 already has been subscribed, he said.

Mr. Landrith, the vice presidential candidate, told his hearers that if the party failed to elect a president this fall, "it certainly would have a prohibition president in the White House in 1920."

BLOWN TO DEATH MARCHING IN BIG DEFENSE PARADE

(Continued From Page One.)

a little direct action on the 22d, which will echo around the earth and show that Frisco really knows how and that militarism cannot be forced on us and our children without a violent protest.

"Things are going to happen to show that we will go to any extreme, the same as the controlling class, to preserve what little democracy we still have. Don't take this as a joke, or you will be rudely awakened (awaken); (sic). We have sworn to do our duty to the masses and only send warnings to those who are wise, but who are forced to march to hold their jobs as we want to give only the hyphocritical (sic) patriots who shout for war, but never go, a real taste of war.

Request to Chamber.

"Kindly ask the Chamber of Commerce to march in a body if they want to prove they are no cowards. A copy has been sent to all the papers. Our duty has been done so far."

Warning that an explosion would occur had been sent out by post card to hundreds of persons. Small attention was paid to the cards, although every precaution was taken by the authorities in policing the right-of-way.

Submarine Sighted Near Bridgeport

Bridgeport, Conn., July 22.—Theodore Judson, keeper of the Stratford lighthouse, reports sighting, at 9:45, a large submarine bound east. The vessel is larger than the United States navy submarines, he say.

DREAD INFANTILE DISEASE BREAKS OUT

Health Commissioner Gives Personal Attention to Case of Samuel Rossitto.

CHILD'S LEG PARALYZED

The first case of infantile paralysis reported to the health office since last February was sent in by Dr. C. C. Moore, the victim being Samuel Rossito, 3 years old, 4701 North Twenty-ninth street. This is the second case in Omaha this year.

Health Commissioner Connell and City Bacteriologist Langfeld visited the Rossitto home and gave the case their personal attention. They report the case is unmistakably infantile paralysis, but the health commissioner is not certain whether it is the epidemic or sporadic form.

"I am giving the case my personal attention. I visited the houses of the neighborhood and advised the people regarding gargling their throats and taking other percautions. The Rossitto home has been quarantined and a close surveillance will be maintained," said Dr. Connell.

The health commissioner does not feel alarmed over the isolated case, but in view of the outbreak of this disease in certain sections of the country at this time, he intends to exercise unusual vigilance.

One of the legs of the Rossitto child is paralyzed and otherwise manifests the real symptoms of the disease. This child was ill five days before the attending physician was summoned.

THIRTY-NINE MORE DEATHS

Plague is Spreading in New York City and Vicinity.

New York July 22.—There were more deaths in the epidemic of infantile paralysis during the last twenty-four hours than at any time since the inception of the disease four weeks ago. Since 10 a. m. yesterday the plague killed thirty-nine children in the five boroughs of New York City. There were 135 new cases.

Quarantine regulations of increasing severity due to fear of the spread of infantile paralysis were reported today from a number of cities and towns near New York.

The Erie railroad, which serves thousands of commuters, has sent out a bulletin to all its station agents warning them to notify prospective passengers that children will be barred from most of the stations along the line in New Jersey and Pennsylvania.

A total of 239 cases of infantile paralysis are reported from the state of New Jersey. The cases in Connecticut number fifty-nine. New York state outside of New York City has 195 cases.

A 12,000 Horse Power Man

You ask, "What has this to do with me as a buyer of tires?" Just this—by such savings at the Firestone factory we cut down the cost of tire mileage for you.

Instead of paying 30 cents or more per ton for feeding coal, we install equipment that feeds for 4 cents a ton. One man feeds hundreds of tons a day that develop 12,000 horsepower.

Firestone Tires

It is equipment and efficiency of this kind throughout the Firestone factory and branches that give you exclusive quality at ordinary price in Firestone Tires. One 12,000 horsepower turbine instead of a battery of small ones; buying from plantation and shipping direct; equipment for calendering and cutting 84-inch fabric instead of the narrower widths; scientific distribution through branches by car load or trainload. These are some of the ways Firestone takes the cost out of overhead and puts the quality in the Tire. You profit through more quality—more mileage for less money.
