

CITIZEN CRUISE PROVES POPULAR

Full Quota of Civilian Sailors Will Take Cruise on Battleship Cruisers in August.

LEARN ALL TRICKS OF SEA

Washington, July 22.—Enrollment of civilians for the forthcoming cruise on United States warships is proceeding with indications that the experiment is popular, and there is no doubt that the full quota of 2,000 citizen sailors, ranging all the way from 19 to 45 years of age, will be ready to carry their dunnage bags aboard the practice fleet on August 15. The men will board the ships at the ports nearest their home, and in the month's duration of the cruise will be given experience in almost every form of naval life from swabbing decks to firing big guns. The enrollment thus far shows men of all trades and professions, many prominent and wealthy, who are enthusiastic over this new plan of naval preparedness. Assistant Secretary Roosevelt of the Navy department expects to spend at least some of the month as one of the citizen bluejackets.

Rear Admiral J. M. Helm, who is at present in charge of the naval militia cruise, will be commander-in-chief of the civilian cruise also, and will use the same warships. The vessels and the ports from which they will sail are: The Virginia, from Portland, Me.; the Kearsarge, from Boston, Mass.; the Illinois, from Newport, R. I.; the Kentucky, from Maine, from New York City; the Rhode Island and Alabama, from Philadelphia; the Louisiana, from Norfolk, Va., and the New Jersey, from Charleston, S. C.

Hold Target Practice.

The cruise will end September 12 and during its last week will be held a mobilization and training cruise of yachts and motorboats. From August 15 until August 20 the citizen sailors will be proceeding to the training rendezvous at Tangier Sound, in Chesapeake bay, the gunnery practice ground of the Atlantic fleet. Target practice will be held by the training fleet from August 27 to September 5.

The object of the cruise is officially described by Secretary Daniels as follows:

"For training volunteers to afford to civilians an opportunity to gain, by close contact with naval life and naval duties, some experience and understanding which will help them to perceive the way they may best fit themselves for service in the navy in time of need."

Will Be Given Ratings.

At the end of the cruise each volunteer will be given a certificate by Rear Admiral Helm specifying the duties he performed, efficiency displayed and the naval rating he is best qualified to fill. Volunteers also will announce their intention whether they will volunteer for naval service in case of war within the next four years.

Each volunteer is depositing but \$30 for the privilege of the month's cruise, the navy supplying uniforms and other naval clothing. The volunteers will be given substantially the same training as midshipmen from the naval academy during their training periods. They will sleep in hammocks; canvas bags will be their substitutes for the chiffoniers at home; they will help clean ship, polish brasswork, assist in the engine room and generally go through the rigorous duties of any Jack Tar.

Mixed with the work, however, will be much recreation and instruction. When conditions permit, the men will be allowed to go swimming twice daily, and hold rowing and sailing races, and inter-ship base ball games. Lectures and private instructions will be given daily by navy officers, in addition to the practical experience afforded.

No Coal Passing.

The volunteers are to be organized, messed and berthed separate from the regulars-aboard ship and will not be required to pass coal, work in the mess room, stoke boilers or do extremely laborious work which might, too severely strain mental or physical life, although all will be required to pass physical examination before embarking.

From daybreak until 9 a. m., a regular program of duties awaits the civilians, with almost every minute filled. Before breakfast two and a half hours' work will be the daily program of the citizen sailors. During the cruise they will be drilled and instructed in the three and five-inch guns of the ships, in signaling, boating of all kinds, fire control, torpedo defense, quartermaster's duties, marine and electrical machinery, including radio work. Emergency drills, such as fire quarters, collision, "man overboard," and general quarters are

also scheduled. The volunteers assigned to engineering duty will work in two-hour shifts from 8 a. m. to 8 p. m. All volunteers will be relieved from assignments to attend all drills and lectures.

Three Divisions.

Three divisions of the civilians will be formed, with subdivisions under navy and volunteer officers. During the last week of the cruise all volunteers will have deck duties exclusively. Every volunteer will drill as a member of a gun's crew and all will participate in some capacity in the target practice.

The mobility of the practice fleet may be somewhat limited while in Tangier sound, as only their reserve crews will be aboard and their maneuvers will be confined to their reduced capacity.

From September 5 to 12, the fleet will be proceeding to and at ports of embarkation, participating in exercises with the mobilized yachts and motorboats in problems of defense of naval districts.

In co-operation with the cruising fleet, several hundred yachts and motorboats will hold maneuvers at Norfolk, New York, Philadelphia, Newport, Boston and Portland, Me. They will, after organizing, be given instruction in scouting, patrolling, signaling, maneuvering, by signals, piloting and charting. The department plans the mobilization as an initial step toward a volunteer patrol service. The object of the week's work will be to organize, in a general way, the yachts and motorboats of the naval districts, and to give owners an idea of what would be required of them in time of war.

Soldiers in Trenches Write to Railroads For Land Literature

Indications point to a heavy European emigration soon after the close of the war, according to the railroad people. At this time hardly a day passes that the land departments of the Union Pacific and Burlington do not receive letters from Europe asking about land and conditions in the country west of the Missouri.

Many of the letters coming to the land departments of the two roads are from men in the trenches, and in these letters they assert that as soon as they are released from the armies they intend to come to the United States.

In all instances where information has been sought relative to western land and opportunities in the west packages of literature have been forwarded. The Union Pacific passenger department estimates that during the last two months more than 200 letters have been received from the war zone of Europe. None of the letters make any reference to the progress of the war.

Holdup Men and Pickpockets Declare Dividends Friday

Theodore Rolfe of Clinton, Ia., was held up at Tenth and Farnam streets Friday night by two negroes and robbed of \$5, he reported to the police.

W. H. Riner of Lincoln, Neb., went into a 5-and-10-cent store in the afternoon to buy a dime's worth of some product and while jostling about in the crowd was robbed of his watch, the police were informed.

Dave Mooney, stopping at the City hotel, was held up at Thirteenth and Farnam streets and robbed of \$3. He claimed that two white men did the job.

High Temperatures Reported From Black Hills Country

According to the railroads, Friday was a scorcher up in the Black Hills. All through that section the day opened with a temperature of 60 to 65 degrees above zero, closing with 100 to 105. Yesterday the thermometer started in at around 70, with 65 to 80 reported out through western Nebraska.

Few rains were reported to the railroads. Down through the Burlington territory in the southern portion of the state there were scattered showers, with fairly good rains in the vicinity of McCook and in spots up the west end of the Republican river valley.

Avoid Summer Colds and Pneumonia

Colds and Pneumonia are dangerous at all times, but doubly so in summer time. Weakened, overheated bodies exposed to sudden chills are likely victims. A reliable tonic stimulant such as Duffy's Malt often fortifies the body against the dangerous germs. Note Mr. Gittleman's remarks:

MR. CHARLES W. GITTLEMAN
"I have used Duffy's Pure Malt Whiskey as a medicinal tonic since 1906. I had pneumonia and was directed by my family physician to use Duffy's. It did me a great deal of good and ever since it has been used in my family. I am 38 years of age and a commercial traveler. An outdoors a great deal and find this medicine a worthy stimulant and good preventative of colds, etc., for which I cheerfully recommend it."—Charles W. Gittleman, 1684 Gates Ave., Brooklyn, N. Y.

Duffy's Pure Malt Whiskey

The merit and honesty of a product that has been before the public for more than half a century cannot be questioned. Its name has spread the world over. It stands today a most celebrated and successful medicine. It is a great remedial agent in the treatment of pneumonia, grip, coughs, colds, other throat and lung troubles and all stomach troubles.

Negotiates to "Fix It" for Motorist; Is Fined Himself

F. E. Wolverton, Fifteenth and Dodge streets, negotiated to fix things for Leslie Duncan, arrested for violation of the traffic regulations. Wolver-

ton required a retainer of \$2.50. He fixed things all right; that is, Judge Kubat did, who, upon hearing of the transaction fined Wolverton \$5 and costs for obtaining money under false pretenses and his client a similar amount.

Once Poor Chinese Water Boy Now U. P. General Agent

Henry W. Sing, who came to the United States as a poor boy from China, twenty-five years ago, has been appointed Union Pacific general

agent for China, with headquarters in Hong Kong, where offices will be opened during the next ten days. Sing started his railroad career as a water boy on one of the western divisions of the Union Pacific, and later on was placed in charge of

foreign immigration matters. For several years he made his headquarters in Chicago.

An increase of 25,718 paid Want-Ads for the first six months of 1916—about 1,000 ads more each week—is something worth bragging about. THE BEE did it.

Try the "Green Room" Restaurant These Hot Summer Days

There's an atmosphere about this delightful restaurant that is restful and comforting. The food is excellent and the prices are remarkably low. TRY IT.

(One Dozen Limit.)

Full Bleached Turkish Towels, extra heavy quality, double thread, plain or fancy colored borders, each

These are the Crochet Kind, hemmed ends, all pretty patterns, regulation size, each

SETTING THE PACE

In a trotting race, the first thing a good driver tries to ascertain is just what "pace" his horse is traveling—IF HE MAKES THE PACE—STEPS FASTER THAN HIS FELLOW'S HIS CHANCES TO WIN ARE BEST—

Same with a boat race—the crew with the best stroke stands the biggest chance to pass by the stake boat first.

And the same thing is true with a store—setting the pace means leading in everything.

This store has grown with a wonderful city—Omaha—and its founders and promoters have exercised so much of foresight and insight that they have REALLY SET THE PACE.

Every day is seeing wonderful changes here—the selling space has been greatly enlarged, a new stairway has been added from the Main Floor to the Basement right where the Notion Store was—and out on 17th Street there have been added four windows that are very, very beautiful show places. RE-ADJUSTMENT IS GOING ON EVERYWHERE IN THE STORE—a growth not to be denied demanded it.

J. L. BRANDEIS & SONS.

Second Floor.

Essentials of a Complete Tonic

Every tonic offered the public should do more than stimulate the organs. It should do these three things:

1. Gently remove all the waste matter of the system by energizing the excretory organs—the liver, the kidneys and the bowels.
2. Dispel all inward congestion, which, neglected, will lead to catarrh.
3. Regulate the digestion, and thus permit the system to make proper use of strength-building food.

PERUNA

The principal ingredients, which are printed on every bottle, are the most reliable for these very purposes. Its actual value has been proved in thousands of cases during the forty-five years it has been used. Why experiment?

Peruna Tablets are after the same formula, and are convenient and pleasant—protection for emergencies.

Medicine Tablets are the ideal laxative, delightful to take, pleasant in action, 25 and 10 cents at your drug-gist's.
