

Nebraska STATUS OF GUARD POLITICIANS UP

This Is a Question Likely to Create Some Difficulty Before Election.

ARE DIFFERENT OPINIONS

Lincoln, July 24.—(Special)—A matter which is likely to create some difficulty in Nebraska between now and the election is the status of members of the state guard who have been mustered into the United States service and are now on the border, who are candidates for office this fall, and especially those who are candidates for the state legislature.

The matter just now hinges on the eligibility of Major Grant Douglas of the third battalion of the fourth infantry, whose home is in Osceola and who has been nominated by the republicans for the state legislature, his opponent being J. N. Norton, leader of the democratic majority in the last session and chairman of the house finance committee.

Other Opinions in Matter.

There are different opinions in the matter and all hinges on the proposition of whether an officer of the state guard disqualifies himself from holding a legislative position after he has been sworn into the United States service.

Article VII, Sec. 3 reads: "Every elector in the actual military service of the United States or of this state, and not in the regular army, may exercise the right of suffrage at such place and under such regulations as may be provided by law."

Article III, Sec. 6 reads: "No person holding office under the authority of the United States or any lucrative office under the authority of this state shall be eligible to or have a seat in the legislature, but this provision shall not extend to officers of the militia."

The whole proposition appears to hinge on whether militia officers who have taken the federal oath are to be considered in the same class as officers of the regular army.

In the event that Major Douglas should be declared eligible if elected, it is probable that as long as there is no active service for his regiment in Mexico and there is nothing except patrol duty on the border, that he could receive a leave of absence during the session of the legislature.

Attorney General Reed is looking up the matter while General Hall will confer with the war department to see to what extent the eligibility clause may carry in the case of Major Douglas.

Demos Scared by Coolness of Faithful

(From a Staff Correspondent.)

Lincoln, July 24.—(Special)—To say that state house democrats are worried is putting it very mildly. They have been loud in proclaiming that the farmers this year were intensely interested in the political situation and were all or most of them going to vote for President Wilson because of the great prosperity of the country and the big crops.

The lesson of last Saturday, when twenty county precincts failed to send delegates to the Lancaster democratic county convention and the attendance was so small that a committee had to be sent out to round up the delinquents and herd them into the auditorium, has shown that they have had their wits crossed. At no time during the convention were there more than 100 or 150 delegates in the room and a great many of them were there by virtue of the fact that Felix Newton had armed himself with proxies and presented them to every man who would accept them in order to get a quorum.

At one time the attempt was made to vote by roll call, but the steering committee saw that such action would show how few delegates there were present and the thing was knocked in the head after Mr. Newton had rushed around and whispered to several of his henchmen.

The convention was in such strong contrast to the republican county convention of the Saturday before, both in attendance and enthusiasm, that democratic stock in Lancaster county has gone down far below the zero point, and still appears to be dropping rapidly.

Henry Schacker of St. Bernard was elected as permanent chairman and S. P. Drimin of this city secretary.

The following delegates were elected to go to Hastings: G. R. Spleen, Jerry Carr, Nick Heimmer, William Pollard, Ed Miles, Henry Schacker, J. C. Byrnes, Dr. R. Neumarker, Mark Burke, C. J. Canas, C. J. Gering, G. W. Phillips, Edgar Howard, Chris Gruenther, Chris Wunderlich, R. C. Rozan, S. Oriska, Dr. P. H. Morrow, Frank Kerensbruck, Dr. F. B. Cyphers.

J. C. Byrnes wanted the delegation instructed but G. W. Phillips opposed Byrnes in his determination, who could not get a second to his motion and each delegate will vote as he pleases.

The following resolutions were passed favoring the candidacy of Edgar Howard, candidate for lieutenant governor:

"The democracy of Platte county recognizes the importance of the office of lieutenant governor, feel a deep interest in the candidacy for the office of the fellow townsman, Hon. Edgar Howard, Sr. Howard has by voice and pen been preaching progressive democracy in Nebraska for the many years, his advanced ideas upon the question of state ownership of water powers and his advocacy of a public warehouse law in interests of the farmers should appeal with special emphasis to the voters of Nebraska, his election will insure the senate of the Nebraska legislature a stiff and progressive floor and one who at all times can be depended upon to throttle the vicious legislation sought by favorite seeking corporations."

"We recommend the candidacy of the voters of this county regardless of politics and pledge our earnest effort in his behalf, this was unanimously passed."

Seek to Have Man Freed From Prison

(From a Staff Correspondent.)

Lincoln, July 24.—(Special)—Sheriff Carl Cox of Box Butte county with Charles Tillet and Charles Gillette of the same county called on Governor Morehead this afternoon to present the case of Ray Tompkins, who is serving a term in the penitentiary for assault and robbery.

Tompkins claims that he got in bad company and while drunk assaulted a farmer and robbed him of \$200. Upon this confession he received his sentence. It is now claimed that as a result of that confession a tough gang in that community was broken up and the house in which they lived and where the crime was committed has become a respectable place. Because of this his friends think Tompkins should receive a pardon and has been sufficiently punished in the three months he has served.

She alighted upon her head and shoulders, suffering considerable injury to her head especially. No bones were broken. Mrs. Derr was unconscious for three hours, but is now reported to be getting along very well.

AN OLD PROVERB

It used to be proverbial that every man (and it is certainly no less true of woman) is either a fool or a physician at forty. This means that every intelligent person must learn so much about caring for his own health that by the time he is forty years of age he can almost be reckoned as a physician.

Why then is there so much talk by doctors against "self-medication"? A woman can recognize all ordinary ailments without calling on a doctor. If they are ailments distinctive to her sex she generally knows enough to use that greatest of all remedies for such ailments, Lydia E. Pinkham's Vegetable Compound, and likewise she is familiar with the standard remedies for other diseases.—Adv.

IOWA VOTERS AND THE PRIMARY LAW

Answers of Republican County Chairmen Indicate Dissatisfaction With the System.

MANY FAVOR AMENDMENT

Des Moines, Ia., July 24.—(Special)—In order to ascertain the sentiment over the state on the primary law, Charles A. Rawson, chairman of the republican state central committee, recently sent out a list of questions on the primary and the attitude of the voters toward it, to all county chairmen. The replies indicate considerable dissatisfaction with the primary law.

The first question asked was: "Would like your opinion as how the voters in your county are satisfied with the present primary law?" To this eight counties replied the voters were satisfied with it and fifty-one replied they were not.

The next question was: "Would the voters want the present law repealed and go back to the convention nomination system?" From twenty-six counties the reply was that the voters would favor the repeal entirely and twenty-eight replied they would favor modifications in the law.

The next question asked was: "What changes can you suggest for the better working of the present law?" To this there were a variety of answers. Among them the following:

"Go back to the convention system for state officers."

Fault With Voters.

"Let the law alone and educate the voter. The fault is with the voter."

"Hold county and state conventions as we used to."

"Cut out red tape in county primaries. Our primaries are held too early. They should be held when it is time to open the campaign and lessen the expense of the primary and of the candidates."

"Resolutions were passed (at county convention) recommending that that next legislature enact a law returning to a modified form of old convention system."

"Nominate governor, United States senator, congressman and county officers at a primary and also delegates to the state convention. Nominate all other officers by convention."

State Nomination by Convention.

"Hold primary for county. Convention for state nominations."

"If we should now return to delegate system I believe the average voter would complain that he had lost some of his former privileges."

"Re-enact the primary law so as to make it optional with the counties."

"Hold presidential and June primaries at the same time."

"I think if state officers were chosen at state convention and county officers at a primary the proper result would be attained."

"Intelligent and fair-minded voters are not satisfied."

"If present law is continued some way should be found to keep the democrats from helping the republicans nominate candidates."

"Keep the law for governor."

"Simplify it."

"Delegates to county conventions are fixed in the back rooms and the law does no good."

"Abolish the presidential preference primary and change the June primary to September."

"Repeat of all parts of the law except such as relate to the higher officers of the ticket appears to be the most popular remedy according to the replies received. Several chairmen stated frankly that the law was satisfactory to the voters, but was a thorn in the side of the politicians. As is shown by the replies above, many think it is all right for county officers and for delegates to the state convention, but not for state officers."

Tan, Red or Freckled Skin Is Easily Shed

To free your summer-sunned skin of its mudiness, freckles, blotches or tan, the best thing to do is to free yourself of the skin itself. This is easily accomplished by the use of ordinary mercurized wax, which can be had at any drug store. Use at night as you use cold cream, washing it off in the morning. Immediately the offending surface skin begins to come off in fine powder-like particles. Gradually the entire cuticle is absorbed, without pain or inconvenience. The second layer of skin now in evidence presents a spotless whiteness and sparkling beauty obtainable in no other way. If the heat tends to loosen and wrinkle your skin, there's an effective and harmless remedy you can readily make at home. Just let an ounce of powdered azolette dissolve in a half-pint witch hazel and bathe your face in the liquid. This at once tightens the skin and smooths out the lines, making you look years younger.—Advertisement.
