

Platform Adopted by Nebraska Democrats

The democratic party of the state of Nebraska reaffirms its belief in the fundamental principles of the party as herebefore announced in its various national platforms.

We particularly endorse and pledge our support to the platform recently adopted in St. Louis. The record of our party, both state and nation is such that it meets the approval of all persons who are interested in the welfare of our country. Our record is one of achievement. We have incorporated into the laws of the state and nation the platform pledges of the party. We have kept faith with the people.

Our pledges are now recorded in the book of deeds, and on this record we come before the people of the nation and state to ask for an endorsement of what we have done and for a renewal of the commission for the administration of the government.

Never before were so many and such vexing problems presented to any administration involving our amicable relations with the rest of the world. Never did a president meet these problems with a letter understanding of their subtleties, or a higher conception of his own and the national duty, than did President Wilson. Despite the most vexing complications, he has maintained with firmness the national honor and upheld the rights of American citizens until the justice of his attitude has been conceded by those who had assailed it. He has sturdily maintained peace with honor, and with infinite patience has mastered delicate situations that, in less skilled hands, must have eventuated in either a loss of national prestige or the horrors of war. We endorse, without reservation, his conduct of the delicate negotiations with Mexico, and welcome the prospect he affords us of soon resuming our normal relations with that republic through processes that seem certain to win for our people a friendship from the Mexican people such as they have not entertained for more than half a century.

We congratulate the people of the United States because their president has inspired every Latin-American republic with a better comprehension of our good intentions toward them than it ever had before, and has paved the way for a Pan-American union that must tremendously advantage all of the peoples of the world through the promotion of better neighborhood and better commercial intercourse. His administration has been such that he merits the approval of all parties and the democracy of Nebraska pledges its heartiest support to President Wilson and Vice President Marshall.

We believe the people, without regard to politics, recognize the unexampled prosperity of every part of the country, under four years of democratic rule. The national wealth has been increased more than fifty billions of dollars. The people have more money in the banks than they have ever had before. The notable prosperity of the agricultural classes is to every one apparent. Business is on a sound basis and yielding unusual profits. Labor finds more employment at better wages than was ever enjoyed in this country.

As a testimony concerning the condition of the industrial classes, we invite attention to the recent statement of Samuel Gompers, president of the American Federation of Labor, that more has been done for the laborer under President Wilson and the democratic administration than under any previous administration. We believe that the people of all classes are satisfied with existing conditions, and that a great majority of them do not crave a change.

We direct attention of the voters formerly allied with the progressive party to the recent statement of Theodore Roosevelt that most of the great principles of the progressive party have either been enacted into law or embodied in party platforms and suggest that none, except the democratic party, has been enacting laws during the past four years.

We congratulate the people of Nebraska for the fact that our distinguished United States senator, Gilbert M. Hitchcock, and our democratic congressman, Daniel V. Stephens, Ashton C. Shallenbarger and Charles O. Lobeck, have rendered notable services in the support of constructive legislation of benefit to the masses of the people. The first thought of these men has been the welfare of the common man. We heartily endorse their candidacy for re-election. We also endorse the candidacy of Hon. W. L. Stark, John A. Magour and Edwin McDermott for congress. To secure constructive and beneficial legislation we must elect a democratic United States senator and members of congress.

We recognize in our candidate for governor, Keith Neville, a citizen of high character, good business judgment, and earnest loyalty to the state, and its welfare; and we pledge to the voters of Nebraska that, should he be elected as their chief executive, he will bring to bear, in conducting the state administration, the same high sense of honor and the same recognized capacity that has made the administration of Governor John H. Morehead popular among the adherents of all parties.

We bespeak for the other democratic candidates on the state ticket, the privilege of aiding him, just as have Governor Morehead's colleagues, in providing a clean and capable government.

We commend the candidates of our state ticket to the voters of Nebraska as men worthy of their support.

We invite attention to the honest, capable and efficient administration of the state's business under the democratic administration for the last four years.

We invite attention of taxpayers in particular to the fact that state taxes have been reduced nearly \$1,000,000 during this biennium alone.

The democratic party takes pride in the initiative and referendum system which it gave to the state to enable the voters to pass directly and outside of the lines of partisan politics on questions that are essentially non-partisan in their nature. Under this system the voters have passed already on the question of woman suffrage. Under it they will decide this year the fate of the proposed state-wide prohibitory amendment involving a question that, as President Wilson has said, is essentially nonpartisan and nonpartisan. The democratic party holds fast to the principle that it is the duty of any party in power to carry out the will of the people, as to any law or constitutional amendment so submitted and adopted, and it so pledges its candidates. It promises the people that if the amendment is

New Democratic State Committee

Chairman—L. F. Langhorst of Elmwood.
State committee will fill other offices. Members of the state committee:

- James B. Davis, Humboldt.
- A. P. Young, Nebraska City.
- Dr. E. O. Weber, Wahoo.
- Thomas Hoctor, J. P. Butler, Arthur Mullen, F. J. McArdle, J. C. Dahlman, Omaha.
- Nels M. Jensen, Blair.
- J. M. Hurley, Ponca.
- J. A. Backhaus, Pierce.
- Dr. W. H. Mullen, Bloomfield.
- J. T. Brady, Albion.
- B. W. Gill, Madison.
- C. E. Reynolds, Rising City.
- C. J. Campbell, J. S. McCarty, Lincoln.
- Geo. Cotton, Table Rock.

- H. E. Gantz, Alliance.
- Chris M. Guenther, Columbus.
- M. L. Corey, Clay Center.
- M. D. Keenan of Spaulding.

adopted at the polls it will support such legislative acts as may be necessary to put the popular decree in force. Should the proposed prohibitory amendment fail of adoption, the democratic party will accept its failure as a declaration by the people that they are satisfied with the local option system.

We pledge the nominees of the party to an honest administration of the law. In the words of the constitution, we "shall take care that the laws be faithfully executed."

The republican party in its national platform has declared in favor of giving to the federal government exclusive control of the transportation of the country. We are unalterably opposed to this attempt to destroy state control which in Nebraska and many other states has been of service to the people. Both forms of control are necessary, one for through business and far-reaching questions and one for local business and local questions. We pledge to the people of this state that our candidates for United States senator and for members of congress will oppose this effort to destroy state control, which is guaranteed by our state constitution, and thus leave the people without relief on local complaints.

Our party has taken advanced grounds in divorcing the courts from partisan politics. In compliance with the party pledge, we have enacted a law which provides for the non-partisan selection of judges of the courts. We believe that substantial good has resulted, and will result to the people of this state by reason of the present method of nominating and electing our judges of the courts. We believe this same principle would add greatly to the efficiency and general welfare of the public school system of the state. We favor legislation that will provide for the selection of all elective school officers on a non-partisan ballot, and we pledge the passage of whatever legislation is necessary to secure reform.

We believe that all of the people residing in the Platte valley are entitled to the greatest possible use that can be made of the waters impounded in the Pathfinder reservoir consistent with existing and vested rights therein; and we especially recommend and favor that the United States reclamation service deliver at the respective headgates of those who have purchased water, the amount by them purchased, and that there be released for them at the reservoir sufficient water to allow for seepage and evaporation between the reservoir and the place of delivery. We further recommend that the greatest possible cooperation be had between the Nebraska State Board of Irrigation, Highways and Drainage and the United States reclamation service.

We heartily endorse the plank contained in the national democratic platform which declares in favor of the control of flood conditions on the Mississippi and other large rivers by impounding in government constructed reservoirs the flood waters of tributary streams and for the using of such impounded waters for the reclamation of arid lands.

We favor a sufficient appropriation by the state to fight a successful conclusion the cases now pending in the federal courts, seeking to protect the just and prior rights of irrigators in Nebraska against the encroachments on the part of water users in the states of Colorado and Wyoming.

We commend our senators and congressmen who have earnestly endeavored to have legislation enacted by congress to conserve these waters, and we ask congress to enact such legislation and make such appropriations as may be necessary to construct and operate the tributary project already surveyed in Gosper, Phelps and Kearney counties.

We favor the conservation of the national resources of this state and the development of water power from the streams of the states as authorized by law, for the benefit of the people of Nebraska.

We condemn the administration of the republican state railway commission in failing to properly adjust telephone rates, in setting aside rate agreements between telephone companies and the public and in failing to properly gather evidence for use in rate matters before the Interstate Commerce commission and the federal courts. We believe that the election of Victor E. Wilson to membership in the commission would result in the correction of existing abuses.

We especially endorse the rural credit law recently passed by congress. Nebraska is one of the leading agricultural states; it is the logical and natural field in which one of the regional banks provided for in this act will operate. We earnestly urge upon the board to locate one of these banks in this state.

We favor the passage of the following legislation and pledge the party and its nominees to its enactment:

1. Such remedial good roads legislation as will insure the people of the state of Nebraska their just pro-

portion of the \$75,000,000 recently appropriated by congress for the use of the states, together with an economic use and distribution of the same in constructing public highways throughout the state.

2. Legislation looking to the employment of its convicts on the public highways of the state to the end that all the people of the state may be benefited.

3. The maintenance of a permanent publicity bureau to give information regarding the resources of our state and thereby encourage more people to make their homes among us.

4. Such amendments to the workman's compensation act as are necessary to (A) adequately compensate those who are injured; (B) to safeguard the right to persons who are injured by the insolvency of their employers.

5. The continuance of the supreme court commission.

6. Liberal appropriations for the development, maintenance, and support of all educational institutions, including rural high schools and consolidated schools, which were authorized by democratic legislation.

The following separate resolution was rousing adopted by the democratic convention:

The democrats of Nebraska send cordial greetings to the 2,000 Nebraska citizen soldiers who are now enduring the vicissitudes of climate and the toils of camp life on the Mexican border in response to the call of their country.

We express our appreciation of the readiness shown by those boys to meet their country's most critical needs, and we congratulate the parents of Nebraska upon their production of such sturdy patriots and join with them in the hope that the two Nebraska regiments may see no more hazardous service than thus far encountered, and that they may soon be returned to their homes and families.

Missouri Pacific And City Planning Board Get Together

The City Planning board has reached a closer understanding with Chief Engineer Headley of the Missouri Pacific relative to the Belt Line elevation of tracks. The company's engineer will recommend a clear roadway and permanent structure at Farnam street, the same as was agreed for Dodge street, but will not recommend this for Douglas street. Indications are that inasmuch as the Missouri Pacific has yielded to the main contentions of the planning board, an official agreement will be made next week and the work started.

Trouble Over Hen Settled Out of Court

A neighborhood quarrel over a setting hen and two settings of eggs brought Wilson A. Robinson of Benson into county court today for his preliminary hearing upon a complaint by Victor F. Vigen, who charged that Robinson attempted to shoot him. Judge Crawford, after a hearing, ordered the complaint dismissed, and the trouble will be settled out of court.

Trade Trip to Iowa is Put Off Because of Heat

Tires are blowing out on the hot and dusty roads now-a-days. For that reason the trade trip which was to be made by Omaha trade boosters to-day to Atlantic, Ia., has been postponed indefinitely. Every day fresh reports come in of the very dusty condition of the road in Iowa and in this section of Nebraska.

PERSONAL PARAGRAPHS.

Mrs. Mary Carmack of the City Central Suffrage committee was injured by a fall in her home, early this week.

Mrs. W. L. Holbrook and daughters, Florence and Mary, are spending a two weeks' vacation in Chicago, Milwaukee and Davenport.

Mr. and Mrs. William R. Adair left Tuesday for St. Louis to attend the meeting of the United States League of Loan and Building Associations. After that they will go east to Quebec and Boston and will be gone about three weeks.

ACHES AND PAINS

Don't neglect a pain anywhere, but find out what causes it and conquer the cause. A pain in the kidney region may put you on your back tomorrow. Don't blame the weather for swollen feet. It may be an advanced warning of Bright's disease. A pain in the stomach may be the first symptom of appendicitis. A cramp in a joint may be the forerunner of rheumatism. Chronic headaches more than likely warn you of serious stomach trouble. The best way is to keep in good condition day in and day out by regularly taking GOLD MEDAL HAARLEM OIL Capsules. Sold by reliable druggists. Money refunded if they do not help you. Beware of substitutes. The only pure imported Haarlem Oil Capsules are the GOLD MEDAL.—Advertisement.

Zemo for Dandruff

You do not want a slow treatment when hair is falling and the dandruff germ is killing the hair roots. Delay means no hair. Get, at any drug store, a bottle of zemo for 25c or \$1.00 for extra large size. Use as directed, for it does the work quickly. It kills the dandruff germ, nourishes the hair roots and immediately stops itching scalp. It is sure and safe, is not greasy, is easy to use and will not stain. Soaps and shampoos are harmful, as they contain alkali. The best thing to use is zemo, for it is pure and also inexpensive. Zemo, Cleveland.

"Snuffene" for Hay Fever.

You can stop that sneezing, and secure a clear Head and Eyes, by the use of Cook's Hay Fever Relief. It is applied to both the nose and eyes, and is of benefit to thousands who are now using it. It is a remedy of Merit, and can be obtained at all Drug Stores, or will be mailed to you direct upon receipt of \$1.00.

Write for Pamphlet. COOK CHEMICAL COMPANY, Casper, Wyoming, U. S. A.

HOT SPELL MAY BE INJURIOUS TO CORN

Reports Show That it is Beginning to Fire a Little on Edge of Fields.

NO LET-UP IS IN SIGHT

"Fair and continued warm" is the Omaha weather forecast as the present heat spell draws itself out into a record-breaker.

Tuesday the thermometer rose to 98 in Omaha. At Columbus it was 101 and at O'Neill 100. The seventeen other weather bureau stations in the state all had temperatures up very near 100.

There has been no rain in the state. The rainfall in Omaha since March 1 is seven and four-fifths inches less than usual. We have had 9.67 inches since March 1 and, normally, according to statistics, we should have had 17.50 inches. At most places in the state they have had more rain and no crops are suffering.

The morning opened with a higher temperature than prevailed yesterday at 8 o'clock. According to the Burlington reports none of their stations in the state registered a temperature of less than 70 degrees. The hottest place at 8 o'clock was Hickman, which reported a temperature of 90 degrees. Reports are coming in that corn is beginning to need rain, with occasional cases of firing around the edges of fields. Oklahoma corn is reported severely injured by drought and winds and Illinois is in need of rain.

Summary of Crop Conditions.

The summary of crop conditions in corn and wheat region prepared by the government says: "The warm weather was very favorable for corn in the north and east and the crop made splendid advancement. Rain is needed for corn over much of the region from the central Mississippi valley southwestward. The condition is somewhat serious in parts of Oklahoma, Arkansas, Kansas and Missouri. Haying and harvesting of winter wheat, oats and rye progressed well in all central districts, and the weather was favorable for threshing. Also spring wheat made rapid growth in Washington and Montana, but it was damaged by high temperature in the Dakotas and Minnesota, and some rust is reported in spring wheat and oats. Tobacco was favorably affected, except in the southeast. Ranges are still needing rain in the central and southern Rocky mountain and Great Plains states. Pasture is in good condition in the east and extreme north. Conditions were mostly favorable for garden truck crops, sugar beets, flax and most fruits. Potatoes are doing well in the north, but temperature is too high, and they are needing rain in some of the central districts."

Man Sleeps "Out" and is Now Out Twenty Dollars

Charles Johnson of Cleveland, O., chose Jefferson square as the ideal "sleeping-out" spot Tuesday night. He became acquainted with two men, who also were strong for the open.

But it was the old story. When the sun came peeping over the city's skyline in the morning, Johnson awoke and found his two newly made friends gone—also \$20 he had cached in his "pistol pocket." He reported his loss to the police.

Do Something for Your Cold.

At the first sign of a cough or cold take Dr. Bell's Pine-Tar-Honey. You won't suffer long. 35c. All druggists.—Adv.

Arousing Interest in the Federal Land Bank Bill

Another special meeting of the Omaha Real Estate Exchange was held at noon when the committee bustling for a federal land bank for

Omaha made a report. The committee merely reported on what it has done in the way of gathering data and sending telegrams to the Nebraska contingent in congress. The committee was continued, and everyone was instructed to boost for the meeting at

the Commercial club Thursday noon, when Senator Hitchcock is to go into the details of the federal land bank bill. Frank H. Myers of the Real Estate Exchange is to preside at this meeting. Bee Want Ads produce results.

Ty Cobb, Super-man, World's Greatest Baseball Player, Tells How Nuxated Iron Gave Him New Life

This great giant of strength and endurance says he now plays a better game than when he was younger.

Physician explains why taking Nuxated Iron gave Ty Cobb such tremendous strength and vitality after he was so weakened and all "run-down"—says it will often increase the strength and power of delicate, nervous folks 200 per cent in two week's time.

New York, N. Y.—When interviewed in his apartment at Breton Hall, Ty Cobb said: "Hundreds of people write to me to know how I train and what I do to keep up that force and vitality which enables me to play practically every day of the entire base ball season. They wonder why I can play a better game today than when I was younger. The secret is keeping up the supply of iron in my blood—exactly what everyone else can do if they will."

I am astonished at the tremendous strength and endurance which I so quickly obtained from taking Nuxated Iron—I feel younger and stronger today than ever before in my life, and the proof is shown by the fact that I play a better game than when I was younger.

Ty Cobb

"Now they say I'm worth \$50,000 a year to any baseball team, yet without plenty of iron in my blood I wouldn't be worth five cents. Nuxated Iron supplies that 'stay there' strength and vim that make men of mark and women of power." Continuing, Dr. Sauer said: "Mr. Cobb's case is only one of hundreds which I could cite from my own personal experience, which proves conclusively the astonishing power of nuxated iron to restore strength and vitality, even in most complicated chronic conditions."

Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor, vim and vitality as a young man; in fact, a young man he really was notwithstanding his age. The secret he said was taking iron—nuxated iron had filled him with renewed life. At 30 he was in bad health; at 40 he was careworn and nearly all in. Now at 50 a miracle of vitality and his face beaming with the buoyancy of youth. As I have said a hundred times over, iron is the greatest of all strength builders. If people would only throw away patent medi-

cines and nauseous concoctions and take simple nuxated iron, I am convinced that the lives of thousands of persons might be saved who now die every year from pneumonia, grippe, consumption, kidney, liver and heart trouble, etc. The real and true cause which started their diseases was nothing more nor less than a weakened condition brought on by lack of iron in the blood. Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without coming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have

gained. I have seen dozens of nervous, run-down people who were ailing all the while double their strength and endurance and entirely get rid of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron simply to save a few cents. You must take iron in a

form that can be easily absorbed and assimilated like nuxated iron. If you want it to do you any good, otherwise it may prove worse than useless. Many an athlete or prize fighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the fray, while many another has gone to an ignominious defeat simply for the lack of iron.—E. Sauer, M. D.

A good batter must be in prime physical condition—he needs a cool head, a quick eye and tremendous strength to put the swing behind the bat. Ty Cobb is undoubtedly the greatest baseball player in the history of the game. A short time ago he was weakened and all "run-down"—today he is a miracle of strength and endurance, due to filling his blood with plenty of iron. He says Nuxated Iron has given him new life and renewed energy and put the old-time vim and vigor of youth into his blood.

Note—Nuxated Iron, recommended above by Dr. Sauer, is not a patent medicine nor secret remedy, but one which is well-known to druggists and whose iron constituents are widely prescribed by eminent physicians everywhere. Unlike the older inorganic iron products, it is easily assimilated, does not irritate the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion as well as for nervous, run-down conditions. The manufacturers have

such great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron and increase their strength 200 per cent or over in four weeks' time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by Sherman & McConnell Drug Store and all good druggists.—Advertisement.

Here's proof of the value of being prepared

We are for National preparedness. We have proved the value to any organization, whether it be government or manufacturer, of being prepared for the unexpected. It has been an established rule of this institution to lay in our supplies of materials far in advance of their actual need. We've done this with the Saazer Hops which we use exclusively in Budweiser, Michelob, Muenchener and our new soft drink Bevo—always a two-year advance supply. Preparedness.

During the summer of 1914, one of our officials, while on his annual hop buying trip abroad selected and purchased 775,000 lbs. (1550 bales) of the choicest Saazer Hops—and had them shipped to this country before the embargo was rigidly enforced in March, 1915—preparedness. Add this to the large stock on hand, and you will see how secure preparedness has made our position. Our supply is sufficient to last at least until the closing days of 1918. Preparedness pays.
