"The finish that is applied to Palm Beach goods will disappear in washing."

The above is an extract from a letter written us by a large manufacturer of cloth finishes and sizings.

Knowing this to be true, we have worked out a method of replacing this finish. Note our process:

First DRY CLEAN the suit, to remove grease and loose soil. Then WET CLEAN IT BY HAND and size it—not starching, but exactly the same kind of sizing used by the mills. In addition we take more pains in pressing and shaping than do the manufacturers.
