New Method of Reducing Fat

A new item from abroad informs us that the American method of producing a slim, trim figure, is meeting with astonishing success. This system, which has made such a wonderful impression over there, must be the Marmola Prescription Tablet method of reducing fat. It is safe to say that we have nothing better for this purpose in this country. Anything that will reduce the excess flesh, without injury to the stomach, the causing of wrinkles, the habit of exercising or dieting, or interference with one's meals is a mighty important and useful addition to civilization's necessities. Just such a catalogue of good results, however, follow the use of these pleasant, harmless and economical little fat reducers. We say economical because Marmola Prescription Tablets (made in accordance with the famous prescription) can be obtained at any drugstore or direct from the Marmola Co., 864 Woodward Ave., Detroit, Mich., for seventy-five cents the large case, which is a decidedly economical price considering the number of tablets each case contains. They are harmless.

Throw Away Your Eyeglasses Prominent Eye Specialist on the Witness Stand Swears He is Taking Glasses From Patients Every Day

Eyeglass Strengthened 50% in One Week's Time in Many Instances. Buffalo, N. Y.—This startling announcement will sound the keynote of joy to many who wear glasses, and also to those who have certain other eye troubles. In a recent trial in the United States court at Buffalo one of the most prominent eye specialists of New York was called as an expert and testified that nearly every day he took glasses from some of his patients. One of the lawyers in the case, who had worn glasses for twenty years, was so impressed with the testimony of this expert that he decided to treat his eye eyes and see if he could get rid of the glasses. After a period of three weeks' treatment, much to his amazement, he laid them aside and now does not feel the need of them. One of his friends met him on the street and asked him what had brought about the change in his appearance, as he looked ten years younger. "Getting rid of glasses is the cause," the lawyer answered. When asked how he had accomplished such surprising wonders, he said: "It is a very simple method so simple, in fact, that anyone can follow the same method. Just tell them to go to any drug store and get a tube of Ben-Opto; dissolve one tablet in a quarter glass of water and use the system with three or four times daily. It can be prepared and used at home. It is absolutely harmless, and the quick results it gives is astonishing. Note: When the above article was shown to a prominent city physician he said: 'Ben-Opto is a truly wonderful eye remedy. I have used it very successfully in my practice on patients whose eyes were strained through overwork and night glasses. I can highly recommend it in cases of weak, watery, itching, smarting, itching, burning eyes, red lids, blurred vision, eyes inflamed from exposure to smoke, sun, dust or wind. The manufacturers have such confidence in Ben-Opto that they guarantee it will strengthen the eyeight 50 per cent in one week's time in many instances, or they will refund the money.' Since the above article has been published the demand for Ben-Opto has been so great that the Sherman & McConnell Drug Store in Omaha have been kept busy filling orders for it.—Advertisement.
