

## WORTHAM SHOW FOR AK-SAR-BEN JUBILEE

Samson Contracts for Full List of Attractions, Including Automobile Thriller.

### TO BE ON CAPITOL AVENUE

The Wortham shows have been signed up for the Jubilee grounds of Ak-Sar-Ben, for the fall festival. The Jubilee grounds are to be at Fifteenth and Capitol avenue, taking in all the vacant ground between Thirteenth and Fifteenth streets. The main arch is to be at Fifteenth and Capitol avenue. Fifteenth street will be one succession of light arcades clear to the Auditorium.

The Wortham people announce a new line of shows which they will exhibit in Omaha this fall. They have an animal show, an athletic show, and a toyland. They have the House That Jack Built, a Model City, a Panama Canal and a submarine. They have the Arabian Nights, My Lady's Fan and a big exhibition of forty diving girls.

### A Free Thriller.

Then there is to be on the grounds the free attraction of "The Greys" who come down a steep incline in two automobiles, make a sharp curve upward, leap over a big expanse of space, and, according to their own posters, turn three somersaults in the air before continuing on their motor journey.

The poster itself gives the blood a chill, and the autoists actually make their cars perform such contortions in the air, this promises to be a thriller compared to which, killing a man on the speedway, or wrestling wild steers on the gallop will sink into anticlimax.

The Ak-Sar-Ben festival dates are September 26 to October 7.

### Swine Show at Same Time.

Right in the midst of these dates comes the big National Swine Show in Omaha for one week, opening October 2. This will be a big feature in itself and is expected to attract thousands.

Three big parades are scheduled for Ak-Sar-Ben week. The first is the industrial parade, scheduled for 2:30 Tuesday afternoon, October 3.

Next is the electrical parade, Wednesday night, October 4.

Last comes the great historical parade, Thursday afternoon at 2:30, October 5, when forty historical floats and some twenty historical groups and calvades are to be in line.

## Claims of Titanic Victims Settled Outside of Court

New York, July 29.—With a payment of \$665,000 outside of court, the White Star line stands absolved of all liability for the sinking of the steamship Titanic with a loss of 1,600 lives and the four years of litigation of claimants is brought to an end in a final decree handed down Friday by Federal Judge Mayer.

Claims totaling \$18,000,000 had been recorded in the federal court by hundreds of claimants, alleging that the ship was lost through the negligence of its navigators with the privy of its owners.

Evidence at the trial indicating that the disaster was accidental, the claimants, under the terms of a compromise made outside court, agreed upon the payment to them of \$665,000 to withdraw their claims and consent to the decree, which held that the White Star line is "not liable to any extent for any loss, damage, injury, destruction or for any claim whatsoever."

One California company is building 350 tractors a day by working their factory night and day and are selling their output on a trial basis. ## Movie Actresses and Their Hair

Did it ever occur to you that every movie actress you have seen has lovely hair, while the most popular count their curls as their chief beauty? In fact, (this is a secret), many are leading ladies just because of their attractive locks. Inquiry among them discloses the fact that they bring out all the natural beauty of their hair by careful shampooing, not with any soap or makeshift, but with a simple mixture, which they make up for themselves by putting a teaspoonful of catnip, (which they get from the drugstore), in a cup of hot water and applying this instead of soap. After its use their hair dries rapidly with uniform color. Dandruff, excess oil and dirt are dissolved and entirely disappear. The hair is so fluffy that it looks much heavier than it is. Its lustre and softness is delightful, while the stimulated scalp gains the health which insures hair growth.

## CITY TAX LEVY IS CUT SEVEN MILLS

City Council Fixes 1917 Levy at 7.06 Mills Less Than the 1916 Levy.

## REVENUE ALMOST SAME

The city council has fixed the 1917 general tax levy at 7.06 mills less than the 1916 levy. The city levy for this year is 50.8; for next year it will be 43.74. This does not include the school district levy, which was fixed at the maximum of 25 mills for this year, and will be the same for next year.

Although the city levy will be reduced a trifling more than 7 mills, the reduction in revenue will not be as great, because the increase of valuation will make up about 5 mills, the result being that the city dads will have nearly the same amount to spend next year that they are spending this year.

General Fund Same.

The council fixed the general purpose fund at \$1,390,000 for 1917, the same as was levied for this year. The sinking fund was reduced from \$400,000 to \$375,000, and the bond redemption fund from \$150,000 to \$100,000. Another slight reduction was possible on account of the South Omaha and Dundee deficit items in this year's levy not being necessary in the new levy.

The superintendent of public accounts and finances estimated miscellaneous receipts in 1917 at \$272,424.44, which is made up of a balance to be carried from 1916, plus occupation taxes and other miscellaneous receipts.

Three Mills for Water.

Expressed in mills the 1917 tax levy will be:

General purpose fund, 29.262; water fund, 3.000; sinking, 7.898; bond redemption, 2.106; motorization of fire department, 1.474; total of 43.74, and adding 25 mills for school district makes a total of 78.74 mills for city and school taxes.

Fresh Attacks Upon Armenians

Washington, July 29.—Information that Turkish treatment of Armenians is worse than ever has led the State department to consider making new representations to the porte. No reply has been received to representations for the same purpose made by the United States more than a month ago.

Russians are in control of virtually all Armenian territory, and the Armenians reported subject to new outrages are those exiled in the Mesopotamia and Arabian districts.

In official quarters here today belief was expressed that the increased mistreatment of the exiles was partly due to recent Russian military successes.

## Woodpecker Stops Fast Union Pacific Train

An Idaho woodpecker in search of a home the other day stopped a Union Pacific train. The place it picked out for a home—the pun slipped out by accident—was a signal box at Lava Hot Springs, and while it was picking it disconnected one of the wires and dropped the danger signal in front of train No. 18. According to the rules of the road when a train runs up to a block and no train is scheduled immediately ahead of them the brakeman must get out and walk ahead of the train until they reach a clear signal. Train No. 18 lost twenty minutes following the brakeman, and had to speed up for all the engine had in it to reach Huntington on time.
