

WILLING TO TREAT WITH CARRANZA

Proposition of First Chief for
Settlement Accepted With
One Addition.

WIDER SCOPE IS ASKED

Washington, July 29.—General Carranza was informed tonight in a note handed to his ambassador here that the Washington government is prepared to submit to a joint international commission the task of seeking a solution of border problems. The proposal of the de facto government for a commission is accepted, however, with the suggestion that the power of the commissioners be enlarged beyond the limits proposed in the Mexican note of July 12.

Agreement to this suggestion is expected and it was stated officially tonight that the American members would be appointed and the commission be assembled at some point in the United States at an early date.

Text of the Note.
Following is the full text of Acting Secretary Polk's note as delivered to Eliseo Arredondo, Mexican ambassador designate, after it had been approved by President Wilson and his cabinet:

"Sir—I have the honor to acknowledge the receipt of your communication of July 12 last, in which you transcribe a note addressed to me by the secretary of foreign relations of your government and to request that you will be good enough to transmit to him the following reply:

"Mr. Secretary—I have the honor to acknowledge the receipt of your excellency's note transmitted under date of July 12 by Eliseo Arredondo, your government's confidential agent in Washington, informing me that your excellency has received instructions from the citizens' first chief of the constitutionalist army, charged with the executive power of the union to propose that each of our governments name three commissioners who shall hold conferences at some place to be mutually agreed upon and decide forthwith the question relating to the evacuation of the American forces now in Mexico, and to draw up and conclude a protocol or agreement regarding the reciprocal crossings of the frontier by the forces of both countries; also to determine the origin of the incursions to date, in order to fix the responsibility therefore, and definitely to settle the differences now pending or those which may arise between the two countries on account of the same or a similar reason; all of which will be subject to the approval of both governments.

President Willing to Confer.

"In reply, I have the honor to state that I have laid your excellency's note before the president, and have received his instructions to inform your excellency that the government of the United States is disposed to accept the proposal of the Mexican government in the same spirit of frank cordiality in which it is made. This government believes and suggests, however, that the powers of the proposed commission should be enlarged, so that, if happily, a solution satisfactory to both governments of the questions set forth in your excellency's communication may be reached, the commission may also consider such other matters, the friendly arrangement of which would tend to improve the relations of the two countries; it being understood that such recommendations as the commission may make shall not be binding upon their respective governments until formally accepted by them.

Will Name a Commission.

"Should this proposal be accepted by your excellency's government, I have the honor to state that this government will proceed immediately to appoint its commissioners and fix, after consultation with your excellency's government, the time and place and other details of the proposed conference."

Appointment of the American commissioners will await General Carranza's reply. If he approves the suggestion that the scope of the commission's relations be enlarged, as desired, it is expected his note will be accompanied by authorization to Mr. Arredondo to confer with Mr. Polk as to the time and place of the meeting.

President Wilson is understood to have at least a score of men under consideration for appointment as commissioners. Among them are Chief Justice White, Major General Goethals, former governor of the Canal zone; Frederick Lehman, former solicitor general, and Louis D. Brandeis, associate justice of the supreme court. It was stated authoritatively tonight that the president had not attempted yet to make any selection.

Unofficial information from Mexico has been to the effect that Luis Cabrera, Mexican minister of finance, would head the Mexican membership of the commission. Neither the State department nor Mr. Arredondo has official information on that point.

General Carranza's reply is not expected for several days, and officials here do not believe the commission can begin sessions for two weeks at least. The State department will insist that the meeting place be within the United States, as the question is not one of mediation which would require a neutral setting.

The proposal to widen the scope of subjects to be discussed by the commission is viewed in administration circles as an extremely important aspect of the situation. It is through exchange of ideas on the whole Mexican problem that it is hoped a way may be found to furnish constructive aid to the de facto government in the financial and economic problem with which it is surrounded. It has been suggested that American bankers might be urged to go to the aid of the Mexican government under certain conditions. Neither American nor Mexican officials here have been willing to discuss the policy, however, and it appears certain the administration has no present plan of that nature.

Mr. Arredondo issued today a summary of his advice from Mexico City, saying that 10,000 Carranza troops were closing in upon Villa

and his followers in southern Chihuahua, and that destruction of the bandit command is certain. It is the first Mexican admission that Villa is still alive. The State and War departments have no positive information on this point and officials differ in their opinions. Following is Mr. Arredondo's statement:

"The Mexican embassy has been informed by cable from Mexico City that high military officials of the government now assert that with a cordon of 10,000 men now closing around him and determined on his capture, Villa at last may truthfully be said to be in imminent danger of elimination from the general problem of Mexican politics.

"The same cable conveys the information that the department of agriculture has taken in hand the development of the state of Guerrero as a cotton producing area. In times gone by cotton has been planted on a small scale in Guerrero and it is found that it grows well and the climate is suitable to it. With the view of making Guerrero a great cotton state, 15,000 acres of land have been prepared and the government has shipped in fifty tons of cotton seed.

**Laborer at Point of Death as
Result of Oppressive Heat
of Yesterday.**

IS FOUND IN ALLEY

Frank Fatka, laborer in the street gang of the Omaha and Council Bluffs Street Railway company, lies at the point of death in the South Side hospital as the result of the oppressive heat of yesterday. He was discovered by the police in the alley between M and N streets and Twenty-fourth and Twenty-fifth streets, where he had fainted early in the afternoon. Police Surgeon R. R. Losey attended him at the station, but was unable to bring him back to consciousness.

Street car officials said that he had become weak in the early afternoon and was sent home at 4 o'clock. He was discovered by the police at 6:30 o'clock, and had apparently been unconscious for a long time. His identity was unknown to the police until several hours afterwards when his wife called the station asking if her husband had been seen.

Fatka has worked with the street car company four weeks since the work of relaying track along Twenty-fourth street was started. He is 40 years old and lives at 1315 Washington street.

Must Have Air.

Coppers, attorneys, reporters and all such "pests" will have to keep away from the right window in the South Side police court, according to order of Judge Reed yesterday morning. The judge told an unusually large gathering yesterday morning that they were hindering the smooth machinery of the court. He appointed Sergeant Carey to take charge of the place and "keep the air comin' in."

Dies of Heart Failure.

Hugh Kennedy, aged 31 years, South Side young man, who was found dead in a room at 2516 N street yesterday morning at 9:30 o'clock, died of heart failure, according to Dr. W. H. Betz, attending physician, after a thorough examination. "Death was not due in any way to heat prostration," Dr. Betz said yesterday.

A mother and four sisters survive. The family live at 1506 South Twenty-fifth street.

Kennedy was a clerk in the employ of the Western Weighing association. He had been working for the concern a year and was considered a responsible employee. He

CHIROPRACTIC

The Sensible,
Drugless Road
to Health

1. Is a science based on the principle that the perfect functioning of every organ and every part of the human body, demands one hundred per cent of nervous energy.

2. Nervous energy has its origin in the brain; from the brain emanates the spinal cord, which sends out nerve fibers to all parts of the body.

3. These fibers, innumerable and threadlike, which supply nervous energy to the respective organs, leave the spinal cord through small channels or openings between the vertebrae (joints of the spine).

4. If from jars, wrenches, contracted muscles or other causes, any of the vertebrae become displaced, even to the most minute degree, the nerve fibers become impinged, thereby rendering it incapable of carrying its full supply of nervous energy to the organ which it controls. This condition causes a weakening of the functions of the organ and consequent ill health.

A. Dr. Burhorn is able to determine the conditions of all parts of the body.

B. To associate each specific misplaced vertebrae (subluxation) with the resultant diseased condition.

C. To adjust the spine to a normal alignment, allowing nature to restore to a healthy condition.

D. The response of nature to adjusted subluxations is almost invariably prompt and pronounced.

If you are sick go to Dr. Burhorn and let him tell you all about this wonderful drugless science. It may prove to be the turning point in your physical career. Consultation free. Adjustments one dollar.

Judge Britt Orders Chairs Returned by 10c Per Week Firm

In the justice court of C. W. Britt the United Trading company lost a replevin suit, in which they sought to recover six chairs from N. E. Nordquist, 4743 North Fortieth avenue, the case involving the operations of the 10-cent-per-week system used by the trading company.

Attorney McGuire of the Welfare board handled the case for Mr. Nordquist. It was shown that Nordquist and his wife agreed to pay the United Trading company 10 cents a week for 180 weeks and were to receive \$18.50 worth of furniture after half of the installment period had elapsed. When \$9 had been paid the chairs were de-

livered and Manager Levy of the company contended in court that it had been understood that the weekly payment should be increased to 30 cents when furniture had been delivered. The Nordquists testified there had been no 50-cent agreement. The judge ordered the chairs returned to the Nordquist home and the balance paid on the 10-cent basis.

Attorney McGuire charged the company with "sharp practices."

The company's warehouse headquarters are in a barn at 2519 Chicago street.

Monday, Marks the Beginning of Our Second Annual

August Sale of Furs

An Event of Unusual Interest—Presenting A Noteworthy Opportunity to
Save 15 to 25 Per Cent On the Finest Furs the Market Affords

THE sale this season is of even greater importance than ever before. Furs will be in greater demand than for many years. Our showing is very complete and extremely wide in variety and we believe our patrons will welcome this unusual opportunity.

The 1916 Fur Situation

The natural demand and extreme popularity of furs during the past year, combined with the fact that certain European sources of supply are now cut off from this country, have led to a steady price advance.

We anticipated the present high market by making our heaviest purchases months ago. Not only did this enable us to secure our stocks at the lowest figure, but it gave us the choice of the American supply and also allowed us ample time for manufacturing our furs.

Every piece represented had to be proven worthy of the Burgess-Nash guarantee of quality, to insure the entire satisfaction of every customer. Therefore, you may be sure that every fur piece sold will be exactly as represented, and

Back of Every Piece of Fur Sold Is the Burgess-Nash Guarantee of Quality, Authenticity of Style, and Thoroughly Satisfactory Work

Save 15 to 25 Per Cent
IF YOU will make your purchases during this August Sale of furs you can effect a saving of from 15 per cent to 25 per cent under the very low prices which will be in effect after September 1. Therefore it is not only economy but the very best sort of an investment to buy your furs at this time rather than later on.

Furs Stored Till November 1st.
SHOULD you desire you may make your selection and we will carefully store them for you until November 1, upon payment of only 25 per cent of their value. You thus not only secure first choice from our large stocks, but take advantage of these extraordinarily low prices, without the necessity of making full payment for the furs until they are actually needed.

The New Fur Coats

DAME FASHION has some decided and certainly some very charming ideas about the way fur coats should be this fall and winter. From the jaunty 30-inch street coats to the long, graceful 50-inch models, added fullness and greater sweep is the prevailing note. Some have semi-fitted backs, others fall in full ripples from the shoulders. The chin collar of previous seasons is no more.

Its place is taken by new collar effects, varying all the way from shawl to deep cape.

Hudson Seal Coats, \$85.00 to \$400.00.
Marmot Fur Coats, \$69.50.
Water Mink Coats, \$75.00 to \$115.00.

Jap Mink Coats, 40 Inches Long, \$175.00.
Nutria Beaver Coats, Raccoon Collar, \$175.00.
Leopard Skin Coats, Marten Collar, \$250.00.

The New Muffs and Scarfs

THERE are simple styles, novelty effects and combination models—all the latest designs—including the new cape-pelerine, fancy animal scarfs, long throws and muffs in the peanut, canteen, round and semi-oval shapes.

Individual Fur Sets

Silver Pointed Fox Sets, \$100 to \$150.
Cross Fox Sets, at \$100 to \$175.
Natural Mink Sets, at \$75 to \$250.
