PRICES ARE SOME LOWER

Omaha. July 21, 1916.

Today's run of wheat was the largest in the history of the local exchange. There were \$78 asmples of this cereal placed on the tables and fully \$9 per cent of the samples graded No. 1 and No. 2 hard. There have been other years in Nebraska when the quality of wheat was as good as that of the present crop, but there has been no year when weather conditions have been such that the farmers were able to harvest all of their wheat without some of it being spoiled by heavy rains during harvest time.

The demand today was easily strong enough to take care of the heavy receipts, but prices were somewhat lower, and several fraders preferred to hold their samples over rather than sell them at a decline. Most of the samples sold at ununchanged prices, buy a few sold ic to 2 lower, and some sold as much as 2 cents under Saturday's prices.

There was not much cash trading in corr, because of light receipts, and the market ruled from \$4 to \$c lower.

Oats sold generally from unchanged to \$c lower, the bulk selling at \$c cents deciline.

Barley sold a fraction higher and rye was quoted nominally unchanged.

Liverpool close: Wheat, steady; corn, unchanged to \$4 thisper.

Primary wheat receipts were \$2,557.005 bu, and shipments 125,000 bu, against receipts of \$1,25,000 bu, and shipments of \$21,000 bu, and shipments \$4,000 bu, against receipts of \$24,000 bu, and shipments \$4,000 bu, against receipts of \$24,000 bu, and shipments \$4,000 bu, against receipts of \$24,000 bu, and shipments \$4,000 bu, against receipts of \$25,000 bu, and shipments \$4,000 bu, against receipts of \$25,000 bu, and shipments \$4,000 bu, against receipts of \$25,000 bu, and shipments of \$21,000 bu

Be Easier.

Chicago, July 21,—Cooler weather, which tended to dispet fears of increased damage to the spring crop, made the wheat market teday somewhat easier during most of the session. The close was unsettled. September. \$1.215.4 with the market as a whole \$4.215.5 with \$4.

and provisions showed a setback of 74 © 10; to 10; to 10c.

At first, the rush to sell on account of the break in the hot wave led to a material downturn in the price of wheat. Soon, however, a rally took place, owing to builtsh Canadian reports telling of a spread of black rust and of scanny filling. Subsequently, the market again weakened in view of the large receipts in the southwest, but then scored a decided upturn as a result of wordf of extraordinary smallness of threshing returns in South Dakota. The advance, though was not well maintained, the selling side in the late dealings being favored by announcement of a substantial enlargement of the domestic visible supply total.

voted by announcement of a substantial enlargement of the domestic visible supply total.

Assertions by a leading supert that the wheat crop of South Dakota leoked like a failure accompanied the advises of masser threshing returns these. He said also that the propert in North Dakota was poor.

Fain in central Illinois and in western lows gave the bears the final advantage as in corn. Freelessly the market was illimot, and in central Illinois and in western lows gave the bears the final advantage as in corn. Freelessly from the final standard to company the market was illimot, and increased to a material extent.

Plentful receipts of hogs here waskened provisions. There was no evidence of support from packers.

YORK STOCKS KING CORN STILL

Politics, Crop Reports and La bor Troubles Have Depressing Effect.

GOOD OVERCOUNTER DEALS

New Tork, July 31.—Negative conditions prevailed in the stock market today with dealings so light as to be develd of actual significance. Total transactions amounted to acracely 225,096 shares, of which the first hour furnished about 46 per cent. Traders had the sension entirely to themselves, and certain speculative sensiment.

There were few surface indications of investment inquiry, although August interests and dividend disbursements of fully \$150,000,000 will represent the largest sum ever disbursed for that month. Bankers and declares in bonds reported a fair "over the counter" demand for short term notes, and international issues were more steady with a marked abatement of recent heavy differings.

tion found slight reflection in the heaviness of transactions.

Ralls were again a negligible factor, selidfrom a sagging tendency in Canadian Pacific and its affiliated lines which was partly refleved in the covering movement of the final hour. Leading western roads show large tonnage gains over last year increase averaging almost is per cent. In the process of the final hour of the final hour seasons are against the control of the final hour seasons are against a large control of the final hour seasons are against a large control of the final hour seasons are against a large control of the final hour seasons are against a large control of the final hour seasons are against a large control of the final hour seasons are control of the final hou

HAS WEEK OF HOPE

Has Fighting Chance to Pull Through in Good Shape if Rain Comes in This Time.

WEST PART OF STATE HURT

C. J. Lane, general freight agent of the Union Pacific, who passed through much of the Nebraska corn country Sunday while returning with a party of Union Pacific officials from Cheyenne, was optimistic over the corn situation, saying, "The corn has at least a week's fighting chance. If we get rain in a week the corn will pull through in fairly good shape. Of course, a day or two of bad hot winds would 'fire' it out very quickly, but with average weather it can ret along for a week without material damage from lack of rain."

The Burlington crop report for last week was not very encouraging, but

The Burlington crop report for last week was not very encouraging, but was more hopeful than was anticipated after a totally dry week. The corn yield estimate has decreased during the week on all divisions, but the crop in the Omaha division is not believed to be materially damaged, the agents estimating it as 94 per cent of a full crop, against 96 per cent a week ago. The greatest damage was on the Wymore and McCook divisions, where there was a drop of 20 per cent. A week ago the Wymore divisions, where there was a drop of 20 per cent. A week ago the Wymore division had prospects of a full crop and this week it is reported as 80 per cent. The McCook division decreased from 95 per cent to 75 per cent. The Lincoln division dropped from 99 per cent to 83 per cent. The July estimate of the federal government gives Nebraska an 84 per cent crop, indicating that the Burlington estimate is reasonably correct.

Not Damaged Yet.

In commenting on the outlook the

Not Damaged Yet.

In commenting on the outlook the report says: "On the three eastern divisions corn is in that state that it is difficult to say whether actual damage has been done from the hot weather or whether the limit before actual damage has been done is still a few days off. The early corn is at the most critical state, in the silk and tassel, and if corn is already damaged, the greatest damage is, of course, to the earlier corn. On the McCook division there seems to be no doubt that considerable damage has actually resulted from the hot, dry weather. If within the next few days, or possibly a week, we should have general and sufficient rains we could reasonably hope for a fair corn could reasonably hope for a fair corn

could reasonally note crop."

For the week ending last Friday the Burlington shipped 2,265 cars of grain, as against 397 cars during the same period last year. This is due to more favorable conditions for thresh-

ing.

The second crop of alfalfa was shortened in some places by the dry weather and the third crop will, of course, he very slow in starting and the fields will dry out rapidly when the crop is mowed off and no new growth started to cover the ground

Musicians Offer Reward For Recovery of Bodies,

The Omaha Musicians' association has announced it will pay a reward for the recovery of the bodies of Mrs. Tom Swift and Mrs. Earl Letner, both of whom were members of the asso-

Aviator Able to Look Over Big Area of Land

(Correspondence of The Associated Press.)
Paris, July 21.—An airship at 4,000 cubic yards height is able to make observations over a surface of ground observations over a surface of ground 300 miles in diameter, according to information collected in the discussion of the services that aircraft has rendered during the war. An aviator at 1,000 yards height has within his vision a zone seventy-five miles in diameter. Accordingly, the Abbe Moreaux of the Bourges observatory has figured out that an aviator of Moreaux of the Bourges observatory has figured out that an aviator of the entrenched camp of Paris at 1,000 yards height is able to see as far as Chartres, Orleans, Beauvais, Amiens and the German front beyond Compiegne, with the city of Laon.

The visibility, calculated mathematically, is rarely possible, however, in aviatice because atmospheric con-

in practice, because atmospheric co-ditions are seldom just right for it.

Bank Clearings

Bank clearings in the United States for the week ending July 21, as reported to Bradstreet's Journal, New Tork, aggregate \$4,197.579.000, against \$4,508.000 inst week and \$3,023,400,000 in this week last year. Canadian clearings aggregate \$197. \$23,000, as against \$203,384.000 last week and \$122,523.000, as against \$203,284.000 last week and \$122,422,000 in this week last year Following are the returns for this week and last, with percentages of change shown this week as compared with this week last year. Swift & Co. Has Big Pension Plan for All Its Employes

Swift & Co. has announced that it has established a pension fund for its employes with a foundation of \$2,000,000. The fund, the accumulation of six years, will benefit employes of the company throughout the country. It was stated that more than 30,000 men and women are cligible to come under its provisions.

One of its features is that employes do not contribute to it, the company

90 per cent was new wheat. Grain men find that this is of excellent quality. In fact, the Nebraska crop this year bids fair to lead all states in quality and in the quantity per acre.

A year ago there was but one car-load of wheat offered in Omaha for

the day.

The vast offering of Monday represents a cash value of over \$750,000.

Hughes Will Come To Omaha on Later Trip Through West

Charles E. Hughes, republican candidate for president, will include Omaha and Nebraska in his speaking itinerary during the campaign, but will not come here on his first western trip, which starts next week.

This information is given out by National Republican Committeeman R. B. Howell, who has returned from New York where he attended a meet-

R. B. Howell, who has returned from New York, where he attended a meet-ing of the republican campaign com-mittee, of which he is a member. Mr. Howell says that the business taken up was of a routine nature, and that subheadquarters for campaign work will be opened in Chicago soon.

Ask Changes in Swimming Pool at Spring Lake Park

The residents in the Spring Lake Park district are circulating a petition to be presented to the water board, requesting that certain changes be made in the swimming pool in the

The petition sets forth that the water in the swimming pool should be changed at least twice a week, conchanged at least twice a week, con-tending that it is unfit when it is changed only once.

A request is also made for the water board to install a four-inch pipe to supply the water to the pool. A two-inch pipe is doing service at present. The petition states that it is inade-quate.

quate. The petition will be placed in several South Side business houses in order to obtain as many signatures as possible before presenting it to the water board.

DRIEST JULY EVER RECORDED IN OMAHA

Less Than Half An Inch Falls in This Vicinity During Month Just Closed.

AND NO RELIEF IN SIGHT

The driest July ever recorded in the weather annals of Omaha is the month just closing. Less than half an inch of rain fell during this July—45 of an inch, to

be exact.

The average rainfall for July, taken from statististics of forty-five years, is 4.33 inches. In July, last year, we had 7.45 inches of rain. The wettest July ever recorded here was in 1884, when there was 10.35 inches of rain. The driest July except the present one was in 1874, when there was only 54 of an inch of rain.

Regarding the heat—it's the same old story. "Fair and continued high temperature tonight and tomorrow."

A very dry atmosphere, assisted

temperature tonight and tomorrow."

A very dry atmosphere, assisted by a brisk northwest breeze, made the heat less noticeable Monday morning. But even the north wind these days is hot, for it comes from places that are just as hot as Omaha.

Five Deaths at Dubuque.

Dubuque, Ia., July 31.—Five persons died here during last night as a result of being prostrated with heat Sunday.

Commercial Travelers To Hold Reunion and Pionic

Omaha Council No. 117, U. C. T., Council Bluffs Post, B. T. P. A., and Omaha Post A, T. P. A., will hold a reunion and picnic at Lake Manawa August 12. The members of the three orders have been invited to attend the gathering with their families and friends. There will be hall games and athletic contests of all kinds. Charles E. Allen is chairman of the general committee. The others in charge of the arrangements for the reunion are: the arrangements for the reunion are: B. F. Obrion, C. N. Saltzigiver, O. M. Jensen, Harry Griffen, Will Strobean, Art Boyer, George Lavidge, George W. Long and Gus Miller.

AMUSEMENTS.
