JOHN ERICSSON IS LAUDED BY SLOAN

Nebraska Congressman Pays High Tribute to Great Scandinavian Inventor.

HOUSE IS ATTENTIVE

Washington, Aug. 6.—(Special Telegram.)—Getting away from the political game for a bit, Congressman Sloan made an illuminating address on the life of John Ericsson, inventor of the Monitor, before the house yesterday.

Mr. Sloan gave a wealth of detail of the many-sided character of Ericsson. He invented the first screw propeller on ships and the first range finder for guns and had the distinction of having over 100 patents issued in his name by Great Britain.

Tired of politics, seemingly, the house gave close attention to Mr. Sloan in his running story of a foreigner whose first thought was for the country of his adoption.

Mr. Sloan adverted to the growing number of monuments in Washington and the propriety of so honoring the distinguished inventor. He also recounted briefly the debt this nation owes to great men who came here from Europe at critical times in our history and gave their talents to our assistance.

Then his great list of serviceable inventions, among them the first steam fire engine, the screw propeller, and the instrument that gave birth to the modern range finder, was recounted. And finally the Monitor, the triumph of his career, the fighting machine that saved the north by defeating the Merrimack, was eloquently described and the results of its coming onto the field of naval warfare made vividly plain.

HEAVY TURKISH FORCE IN FLIGHT AFTER ATTACK

Strong Moslem Army Which Rushed Against British at Romani Routed by Counter Charge.

BATTLE NEAR SUEZ CANAL

Nearly Twenty-Five Hundred Prisoners Taken, Including Germans.

RUSS GET SIX VILLAGES

London, Aug. 6.—The strong Turkish force which attacked the British at Romani, twenty-two miles east of the Suez canal, on August 4, was defeated and put to flight by a counter attack, says an official statement issued today.

The Turks, adds the statement, are being vigorously pursued by the British, who have taken more than 2,500 prisoners, including some Germans.

Petrograd, Aug. 6. (Via London.)—Russian attacks along the Sereth and Graberka rivers, south of Brody, in northern Galicia, broke the Teutonic resistance and resulted in the capture by the Russians of six villages and the entire ridge along which they are located, according to a war office announcement today. More than 3,000 prisoners were taken.

Marino Tames Off Mex Reservation And Is Sent For

El Paso, Tex., Aug. 6.—Marino Tames, formerly a colonel in the Villa army, leading about 100 men, is making his way south and west from the border tonight in an attempt to join Villa in the Mapimi district, according to reports here.

Tames started from Juarez early today with six men of the defense corps, after failing to organize a revolt of the garrison. He was joined by eighty men on the outskirts of the town and a score more from the garrison at Samalayuca, thirty miles south. Pursuing him is a column of 700 dispatched by General Francisco Gonzales, commanding the Carranza army of northern Chihuahua, with orders to bring back the bodies of the revolutionists.

In some quarters here there was a tendency to connect the Tames uprising with the reported revolt of General Luis Medina Barron, former federal leader and defender of Torreón against Villa attacks, and the 200 men of his command in the state of Guerrero on the Mexican west coast. In military circles, however, it was believed that the two revolts are entirely separate.

Reports current in El Paso tonight that the Carranza military paymaster in Juarez had absconded with approximately \$30,000 in gold were denied by General Gonzales and Andres Garcia, local Mexican consul.

PLAN TO DISPOSE OF SPY QUESTION

Attempt Made to Secure Information as to Canal Spurs Uncle Sam to Act.

DRASTIC LAWS PROPOSED

Washington, Aug. 6.—Activities of persons suspected of being spies employed by foreign governments to acquire information regarding the nature and extent of the defenses of the Panama canal have made the administration decide to request congress to supplement the existing laws against the improper acquisition of knowledge of military and naval plans of fortifications.

Representatives of the Department of Justice and the War and Navy departments have been in conference on the subject and it is expected that they will agree upon some drastic legislation to be submitted to congress.

It is possible that the scope of the conference may be extended beyond the original ideas of a mere protection of the secrets of American coast defenses to cover generally such attempts as have been common since the beginning of the present war to destroy powder and munitions plants, upon which the United States government must rely in time of trouble.

New York Expense Account Scandal Is Taken Into Court

Kingston, N. Y., Aug. 6.—An application for a peremptory writ of mandamus to compel the state controller to audit the accounts of the state officials, including Governor Whitman, who traveled to the Panama-Pacific exposition last year at the expense of the state, was made yesterday in the supreme court by Frederick W. Hinrichs, chairman of a committee of the Republican club of Brooklyn, which has for several months been conducting a fight to compel an accounting of the expenditures of the trip and of the state's expenses for its building and exhibits at the fair, involving in all \$665,000.

REPORT ON ARMY BILL COMPLETED

It Is Held Up Because of Objection by President to One Amendment.

IT CARRIES \$267,597,000

Washington, Aug. 6.—The conference report on the appropriation bill, completed, but held up by objections of President Wilson and the War department to an amendment to the revised articles of war, reduces the total appropriations as the measure passed the senate by \$46,373,447. It became known here yesterday that as it will be reported for final approval the bill carries \$267,597,000 against \$313,970,000 appropriated by the senate bill, and \$182,000,000 by the house.

The report will be submitted to both houses in its present form within a few days unless the house conferees yield to urgent War department requests for reconsideration of the amendment of Representative Hay exempting retired army officers and enlisted men from the military criminal code.

Representative Hay said today that he anticipated no trouble with President Wilson and the War department over the amendment. He said retired soldiers were in fact civilians, and he saw no reason why military courts should be called upon to dispose of these cases when civil courts could serve. Opponents of the amendment, however, fear exemption from military discipline will open the door to acts prejudicial to the army's interests.

Figures on Some of Exports Sent Out During Last Year

Washington, Aug. 6.—Exports of foodstuffs, cotton and oils from the United States during the fiscal year just ended did not equal those of the previous year. OPPOSING THE SALE OF DANISH ISLANDS

Copenhagen Conservative Papers Contend Uncle Sam Should Pay More.

OBJECTING TO SECRECY

Copenhagen, Aug. 6.—A number of provincial papers, organs of the left party, are against the sale to the United States of the Danish West Indies. Some of the left party's members of Parliament also are opposed to the sale, but owing to the fact that the left party favored the sale in 1902, it is expected a majority of the party will endorse it.

In Copenhagen, conservative papers, such as the Berlingske Tidende, National Tidende, Nordland, Hovedstaden and Kristelig-Bogled, are opposed to the sale, asserting, as do the left party, that the matter ought not to be settled during the war.

Some of the papers state that the islands are worth many times more than the \$25,000,000 offered for them by the United States.

BRITISH FORCES CAPTURE GERMAN SECOND DEFENSE

German Counter Attacks Against Newly Won Positions Are Repulsed by the Allies.

FIGHTING ALONG MEUSE

Russians Cross the River Sereth and Repulse Counter Attack.

MORE STEAMERS SUNK

London, Aug. 6.—In a successful effort to straighten out the line between Pozieres and Thiepval, north of the Somme, British forces have captured the main German second line system of defenses on a front of 2,000 yards north of Pozieres. The attack, which was made by Australians and troops of the new Kitchener army, resulted in the taking of several hundred prisoners. German counter attacks against the newly won positions were repulsed with heavy losses, London asserts.

Further than stating that a new battle was developing near Pozieres, Berlin makes no mention of the latest British advances. British attacks, however, against the sectors from north of Ovillers to Foreux wood were repulsed by the Germans.

On the French front in the Somme region, Paris says there has been only artillery activity, while Berlin claims the repulse of a French advance south of Maurepas.

On the right bank of the Meuse in the Verdun region the fighting between the French and the Germans continues to be bitter.

Germans Bombard Fleury. Paris says the forces of the German crown prince made unsuccessful efforts to drive the French from the Thiaumont work, recently captured. The Germans also bombarded heavily the sector Thiaumont and Fleury.

Berlin mentions bitter fighting at Thiaumont work and reports the capture of 468 prisoners during the German counter attacks in the Fleury sector.

On the Russian front the most intense fighting is reported as taking place south of Brody, in Galicia. The Russians crossed the Sereth river, captured positions in the region of Peniak-Tchisopdy and repulsed an Austro-German counter attack against them.

Berlin says Russian detachments which crossed the Sereth near Patysze were forced to retreat before Austro-German counter attacks. Northwest of Zalozze, in the same district, Russian attacks were repulsed. Petrograd admits the retirement of several detachments from mountain passes in the Carpathians, southwest of Kuty, in the face of heavier Austrian forces.

Turks Attack Romani

The British positions at Romani, twenty-two miles east of the Suez canal, are being attacked by Turkish forces, estimated at 14,000 men on a front of seven to eight miles. The attack, London asserts, has made no impression on the British positions, while on the southern flank the British have taken between 400 and 500 prisoners.

Rome reports slight progress on the Trentino front against the Austrians. An Italian attack east of Monfalcone, on the Carso plateau, resulted in the capture of some prisoners.

Including the capture of the German trenches reported this morning, during the last two days the British pushed forward a line north and west of Pozieres somewhere from 1,000 to 6,000 yards.

Troops from Australia, Kent, Surrey and Sussex participated in the operation and consolidated the position won, despite the shell fire, which was especially heavy near the Pozieres-Bapaume road.

Artillery Fire Kept Up

Artillery shelled La Courcelle and Miraumont, causing large explosions in both places. Ten gun emplacements and three ammunition stores were destroyed. The enemy attempted to seize a crater near Souchez, but was repulsed with bombs.
