Wheat Opens Strong, but Reacts on Profit-Taking by Lougs.

Omaha, August 5, 1916.

The wheat market opened strong again today, but September and December reacted slightly on profit-taking by longs.

Black rust continues to be a governing factor in the wheat market and is strengthened considerably by heavy buying of American wheat by foreigners.

The close on September wheat was a cent off and December declined around 46. May closed steady to 4 on ligher.

Corn closed strong on both September and December, both of these options gaining about a cent.

Oats advanced substantially with wheat and corn, and trading in the cats mirket was more active than on any other day during the week. Interest in the pit was generally better today and trading continued heavy during most of the session.

doctors say they are necessary when
they are not. Letter after letter comes
to the Pinkham Laboratory, telling how
operations were advised and were not
performed; ox,if performed, did no good,
but Lydis E. Pinkham's Vegetable Compound was used and good health followed.
