REAVIS SAYS EAST IS ALL FOR HUGHES

Candidate Making Good on Stump and Voters Flocking to Him.

TALKS OF FARM LOAN BANK

(From a Staff Correspondent.) Lincoln, Aug. 10.—(Special.)—Things look mighty favorable for the election of Charles E. Hughes, according to Congressman C. F. Reavis, the First district representative from Nebraska in congress.

Congressman Reavis came to Lincoln today. "In my opinion," said the congressman, "Mr. Hughes will carry New York by 200,000. Some of my colleagues in Washington make it stronger than that and one of them made a bet the other day of \$100 that he would not have less than 250,000 majority over Wilson. The east is very strong for Hughes and is getting more so every day. They do not take to the Wilson policies very well.

"Hughes is making good as a campaigner," continued Mr. Reavis. "There is a punch to his utterances that convince people and consequently the more speeches he makes the stronger the people are for him. I am sorry he will not be in Nebraska. I took the matter up with him personally and also with the committee, but they appear to think Nebraska is in the republican column, as it probably is, and that Mr. Hughes can put in his time to better advantage in other states.

"Wilson's Mexican policy looks to me very weak. Our boys have been called down to the border and nobody appears to know how long they will stay there. They were called for the purpose of patrolling the line to keep the Mexican outlaws from coming across. Just as soon as they are taken away the same old situation will prevail, and it appears to me that if the present policy is continued it means an indefinite stay for the soldier boys. It looks to me a great deal like turning the hose on the smoke to put the fire out, instead of turning the water on the fire and putting out the blaze itself."

As to Farm Loan Bank

Regarding the chances for landing a farm loan bank in Nebraska, Congressman Reavis said that if Omaha and Lincoln would unite upon one place but one would land the bank, but with the two forces contending against each other it spoiled the chances for both of them. However, just at present he believed that Lincoln had the best show for landing the institution.

The congressman is home for the short recess the house is taking and will return to Washington tomorrow to be on deck when the house convenes again Tuesday. He thinks the final adjournment will come September 1. He left this afternoon for his home in Falls City.

Peel Off Your Freckles

To remove freckles, blotches or any complexion difficulty, the best thing to do is to remove the skin itself. This is easily and pleasantly done by the application of our new medicinal cream which peels off the defective outer skin, a little layer gradually bringing the second layer of skin to the surface. The cream is beautiful, soft, clear, white and young looking. Just procure an ounce of medicated wash at any drug store and use like cold cream.—Adv.

Gets the Best Quarter Section of Indian Reservation for 25 Cents

Spokane, Wash., Aug. 10.—It cost George Lennon of this city just 25 cents to be awarded the best quarter section of land on the diminished Colville Indian reservation, in the drawing recently held here by the government.

The name of Lennon, a young laborer, was drawn first from a list of 90,140 names. He gets his choice of 160 acres of land from a total of approximately 350,000 acres thrown open to settlement.

The lucky young man was employed on a construction crew at Sandpoint, Idaho, when notified of his good fortune. Immediately he boarded a train for Spokane. En route he was a celebrity, the man of the hour, for the last great land drawing has been a live topic in the northwest for many months. People came from all corners of the United States to try their luck.

"I registered some time ago, and then forgot about it, so I was very much surprised when told that my name was the first one drawn," said Lennon. "I shall look over the reservation thoroughly and locate on the best quarter section available."

Five thousand five hundred names were drawn, and among these are to be distributed about 1,500 pieces of land. The drawing of the first numbers was a dramatic affair. The theater in which the drawing took place was crowded, and thousands were turned away. The names of the tens of thousands who had registered were heaped on the stage, and four little Spokane girls picked at random

Youth Held on Charge Of Burning Postoffice

Burwell, Neb., Aug. 10.—(Special.)—Tuesday afternoon the Blake postoffice, located about twenty miles north of Burwell, was burned to the ground and all mail and other contents completely destroyed.

The postmistress was temporarily away from the house to take dinner to the haying hands in the field a few miles away, who were hurrying to get their haying done, and while away someone broke into the house and set fire to it from the inside.

Suspicion led to a young lad who had recently been working in that neighborhood and who held a grudge against the owner of the house. Search was made for him and he was caught and brought to Burwell and has made full confession to County Attorney Laverty, and is now in jail awaiting the action of the court.

Money in Bank Assessable At Residence of the Owner

Lincoln, Aug. 10.—(Special.)—Whether money on deposit in a bank is taxable in the county in which the bank is located or in the county and state in which the depositor resides, has been put up to the attorney general's office and Assistant Attorney General Ayers holds that the money is assessable in the place where the depositor holds his residence.

Auburn, Neb., Aug. 10.—(Special.)—Harvey Stary, prominent citizen and fruitgrower, died at his home near Brownville, in Nemaha county. He is survived by a wife and several children.

Alkali Makes Soap Bad for Washing Hair

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulified coconut oil. This is pure and entirely greaseless. It's very cheap and beats the most expensive soaps or anything else to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.—Advertisement.

DO YOU ONE-STEP? GIRL SOLVES A FOOT PROBLEM

Dancing is hard on the feet. After one-steping and dancing, your feet ache and burn, they are tender and inflamed, and a good night's sleep is generally out of the question. No matter how tired you may be, a society girl who is a confirmed lover of dancing has found a way to enjoy all the dancing she wants without the attendant foot troubles. Here is her secret: She buys a package of Wa-Na-To at the drug-store for a quarter. When she gets home she bathes her feet a few minutes in warm water in which have been dissolved two or three tablets of this wonderful preparation. Then she goes to bed and sleeps like a healthy baby. Wa-Na-To takes all the soreness, burning, sweaty unpleasantness from the feet and leaves them cool and comfortable. It cleanses the feet, kills the germs, and removes the dirt. It is a wonderful skin cleanser and bathing body odor. If your druggist hasn't Wa-Na-To, he will be glad to cover packing and shipping charges and we will send you a sample package to your address prepaid. L. C. Landon Co., South Bend, Ind.

Removes Hairy Growths Without Pain or Bothers

(Modes of Today.) It is not necessary to use a painful process to remove hairy growths, for with a little gelatine handy you can keep the skin entirely free from these beauty destroyers. To remove hair, make a stiff paste with a little powdered delatone and water. Spread this on the hairy surface and in about 2 minutes rub off, wash the skin and the hairs are gone. To guard against disappointment, be careful to get real delatone.—Advertisement.

Beaver City, Neb., Aug. 10.—(Special Telegram.)—The funeral of M. F. Winslow was held here today, conducted by the Odd Fellows. Mr. Winslow was a pioneer of the Beaver valley, moving to Burlington, Colo., a few years ago, where he died Sunday of paralysis.

Pool and Smith Stick By Equalization Ship

(From a Staff Correspondent.) Lincoln, Aug. 10.—(Special.)—The state board of equalization is about through hearing protests from county boards against the raises proposed by the board for the respective counties. The board will now take these matters up, but it is not probable there will be much change from the original valuations.

The two most disappointed members of the board just now are Secretary of State Pool and Auditor Smith. Both are members of the Nebraska State Press association and both had reserved places for the excursion which is now in the northwest part of the state taking in the sights. However, they have stuck on the job and tried to forget their troubles. Their failure to go was a disappointment to the band, for both are great musicians. Pool is an expert on the sweeneyette, while Smith plays a graphophone beautifully.

FARMERS WATCH BIG IRON HORSES

Rain Proves Welcome, Though It Reduces Crowd at Tractor Display.

FISH BAKE FOR VISITORS

Fremont, Neb., Aug. 10.—(Special Telegram.)—While the crowd was not so large at the tractor grounds today, the proportion of farmers who were interested in the work of the iron horses was much larger than that yesterday, when the banner crowd was out and tractor men did a good business.

Early this morning a big crowd of farmers was in the field watching the private demonstrations. Although the rain of Wednesday night cut down the attendance, which was estimated at from 15,000 to 20,000, the moisture was welcomed by tractor men, who sweltered in the dust Wednesday. A big crowd is looked for tomorrow, the closing day.

Henry Ford and son, Edsel, who have been in attendance at the meet during the week, left Wednesday night for Detroit. This evening tractor men were guests of the Commercial club at a fish bake at one of the amusement parks.

Judge Sutton to Speak at Dunbar.

Dunbar, Neb., Aug. 10.—(Special.)—Judge A. L. Sutton, republican candidate for governor, will be the orator of the day here at Dunbar on August 22, when Dunbar's annual picnic takes place. A big program has been prepared and a crowd from

3,000 to 5,000 always attends these picnics. The Dunbar five-day chautauqua closed here this week. Big crowds attended and the local committee has a good balance in the bank for next year. A Weiler of the Farmer's bank here, is president of the chautauqua association.

North Platte Water Supply Contaminated

North Platte, Neb., Aug. 10.—(Special.)—North Platte's water supply is still unfit for use by the residents of the city, and although every effort is being made to locate and remedy the cause of contamination the source of the impurities that are going through the city mains has not as yet been found. It is thought possible that the reopening of old wells may have caused the trouble, and eight of the older wells among the total of thirty used to supply the city with water, have been closed down. It is hoped that this may somewhat alleviate the trouble, but still further investigation is being made.

The board of health has issued an order forbidding restaurants and other public places to serve city water without first boiling it, attaching a penalty of a fine of \$100 to the order. No violations of this ordinance has so far been reported.

Mission Feast at Stanton.

Stanton, Neb., Aug. 10.—(Special.)—Next Sunday the St. John's German Lutheran church of Stanton will hold its annual mission feast in the city park, in West Stanton. Great preparations are being made to accommodate a large crowd. Preaching services will be held in the forenoon and afternoon.

PLENTY OF WHEAT TO SHIP ABROAD

Government Figures Crop Sufficient to Permit Good Export Trade.

MUCH IS STILL ON HAND

Washington, Aug. 10.—This year's wheat crop will be sufficient for the needs of home consumption and there will be enough left to meet normal export requirements. That is the view of government officials, who said today the rise in wheat prices and a corresponding increase in the price of flour, following the government's last report, indicating a crop about two-thirds the size of last year's, was the result of the market adjusting itself from a crop of abnormal proportions to one of much smaller size.

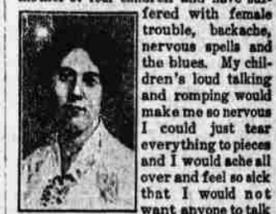

Experts of the department of agriculture calculate 624,000,000 bushels of wheat will be required for home consumption this year. A crop of 654,000,000 bushels, as forecast from August 1 conditions, would leave 34,000,000 bushels of this year's crop available for export. In addition there was an unusually large carry-over of old wheat from last year's crop.

With the carry-over of old wheat and the surplus of this year's estimated crop, officials believe the United States will have at least 150,000,000 bushels available for export. In normal years the export of wheat, including flour, averages about 125,000,000 bushels. In the first year of the European war 333,000,000 bushels were exported, and last year the total was about 250,000,000 bushels.
