Cuming Street Corner A Golden Opportunity

We offer for quick sale the Southeast corner of 20th and Cuming, 66x132 feet, with improvements comprising a two-story frame store building with grocery store on first floor and 6-room apartment above. Small brick restaurant facing north on Cuming street and three cottages facing west on 20th street, producing an annual income of about \$1,400.00. At the present time Cuming street offers a more attractive field for investment than any other part of town. The Ford assembling plant at 16th and Cuming is rapidly nearing completion, and it has already helped Cuming street a good deal. Diagonally from the corner offered above is the Jay Burns Bakery, the most modern baking plant in Omaha. Cuming street will be re-paved from 25th West to 30th within the next year, thereby greatly increasing traffic from 16th west. We can offer no better speculation, for the property produces a good income on the investment while you hold it for an increase in value. Improvements are all substantial and good for at least twenty years. For further in-

Hang Gee and Dr. Yuen Hook Ting reported to Health Commissioner
Emerson here today.
The Chinese physicians made their report after an investigation of cases

of the disease now being treated in hospitals. The atmospheric condition responsible for the epidemic is known in China as "Won Sah" they assert, and is similar to the "Bermuda High" which recently passed over the east-

ern states.

Health Commissioner Emerson said tonight that if it is shown that the medicine the Chinese recommend is not harmful and if there is reason to believe it may do good, it might be used.
