OMAHA FUTURES MARKET.

Omaha, August 19, 1916.

Following the sensational advance in the Chicago pit, the local wheat market showed a gain of several cents at the opening.

Today's rise was the result of the extremely bullish news on wheat from the Canadian districts and also the fact that foreigners are heavy buyers of our wheat.

While crop conditions on corn are considered good, the bulge in the wheat market is enough to hold the price of corn up for the present.

Oats showed little independant strength and followed wheat and corn on the advance.

September wheat closed 1½c higher, December, 1¾c higher and May advanced 3c.

Corn closed ¾c higher on September and about 1½c up on December.

September oats advanced ¾c, December closed ¾c higher and the May ruled 1¾c higher.

CHICAGO GRAIN AND PROVISIONS.

Trading in Wheat Reaches Largest Volume in History of Market.

Chicago, Aug. 19.—The volume of trade in wheat here today was said to have been the largest on record. New price records for the crop was obtained. Top prices were 5 cents over yesterday. Heavy profit-taking sales was absorbed on the bulge, but the close showed net gains of 3¾c to 4¾c. Corn advanced 1¾c to 2c; oats ¾c to 1c and provisions closed 2½c to 65c up. Snows' estimate of a total wheat yield of 596,000,000 bushels against domestic requirements of 610,000,000 bushels, was the new big bull factor in the market for that cereal. This and the damage reports now grown familiar under Canadian and northwestern date lines provided all the impetus needed by an awakened trade to establish new high records for the crop. An acknowledged expert wired from Brandon, Manitoba, that he saw two threshing outfits at work, and his firm became a heavy buyer. Cash premiums advanced, but offerings were not large. Buying by foreigners was reported in all markets. Liverpool was sharply higher—another bull factor.

Corn also gained a new price altitude. The factors were dry hot weather. Snows' estimate of a crop of 2,565,000,000 bushels, and the fact that spot corn was selling at a good premium over September covered freely and a good investment demand was noted. There was some recession from the top on profit taking.
