HASTINGS MILLING PLANT IS BURNED

Loss Estimated at Seventy Thousand Dollars Takes Place.

STORAGE GRAIN DAMAGED

Hastings, Neb., Aug. 21.—(Special Telegram.)—In less than an hour the Hastings Milling company building, with the exception of the office and one steel grain tank, was completely destroyed by fire, involving a loss estimated at about \$70,000.

The fire was discovered in the engine room, near the center of the main building of the mill. In less than ten minutes the flames had spread through the mill and were rapidly spreading to the grain storage bins at the south.

The milling company property, including the machinery, was valued at about \$32,000. There were 15,000 bushels of wheat in the west elevator and about 10,000 in the east. On the local market today this grain was valued at about \$35,000.

The damage from shrinkage in the wheat in the steel storage tank, east of the elevators, is estimated at \$2,500. There were approximately 20,000 bushels of wheat stored in this tank.

The E. Stockham Grain company leased the elevators and storage tank and is prepared to meet the entire loss. The company is bonded and carries a state license under the Nebraska warehouse law, passed by the last legislature. All wheat stored with the company is insured and guaranteed by the state. Eight thousand gallons of fuel oil was consumed. The principal owners of the mill are: J. C. Hedge and C. E. Dinsmore.

How to Beautify a Summer Soiled Face

It's really a simple matter to renovate a face soiled by sun, winds or dirt. Ordinary mercurized wax, used like cold cream, will transform the worst old complexion into one of snowy whiteness and velvety softness. It literally peels off the outer veil of surface skin, but so gently, gradually, there's no discomfort. The worn-out skin comes off, not in patches, but evenly, in tiny particles, leaving no evidence of the treatment. The younger, healthier underlain forming the new complexion is one of captivating loveliness. One ounce of mercurized wax, to be had at any drug store, is enough to remove any tanned, reddened, pimpled, freckled or blotchy skin. Apply before retiring, washing it off morning.

The Self Starter is a Remington feature exclusively. No other typewriter has it—or anything like it.

A demonstration will prove to you that the Remington Self Starter is the most important time and labor saving feature ever placed on the correspondence typewriter. Come in and let us show you, for to see is to be convinced.
