Cattle—There was another liberal run on cattle today, bringing the total for the four days up to 26,515 head, which is about 400 less than last week. The market as a whole was not in very satisfactory condition as viewed from a seller's standpoint. Early advices from other selling points were very unfavorable and indicated a bad condition at eastern points and buyers were very slow in getting down to business. The result was that the market was anywhere from slow to as much as 10 g15c lower on the general run of stock.
